

Humbugs

Are very numerous at intervals, particularly around election time. If a ward heeler is saying a good word for his favorite candidate, you can bet your life he'll give the fellow on the other ticket a fine old rumpsteak, and before he is through the poor fellow hasn't a foot to stand on, providing you let the heeler have all the say. But what does such nonsense amount to? Election day will come and go, and one political party feels as if they got a terrible scolding, while the fellow on the other side are as happy and contented as mortal man can be. But where does the "humbug" come in here? Why, that's easy. The candidates simply promise us anything and everything on top of the earth before they get there, there is quite a difference. We can mind our own business and let them mind theirs. See the point? Well, personally speaking, we do mind our own business. We continually have our eye on the wheel, and that's one reason we can sell you a much nicer quality of Tea, Coffee and Butter than the other fellow sells you at the same price. We recommend our 50c Tea, Cream Java Coffee at 30c per pound and 20c Butter as a fine trio for election time. Try them at

So far as we have been able to learn N. J. Welton has the distinction of making the first snow ball seen in Waterbury this fall. Mr Welton was up with the hark this morning and found enough hail and sleet on the roof of a small building on his premises to make a few good snowballs and he says he never enjoyed anything better in his life than he did gathering up the hail squeezing it together in his hand and firing the mass of ice at a group of sparrows that were out early and acted as if they were as much surprised as he was to find the snow ahead of them.

The new tent of the Knights of the Macabees, now being organized in this city, promises to be an exceptionally large one. The charter list is rapidly increasing and contains a large number of representative citizens of Waterbury. John F. Johnson, of Hartford, state commander of the order for Connecticut, who is in the city in the interest of the new tent, states that he will be in the position to organize in about two weeks with at least seventy-five charter members. The Macabees, as an order, is one of the very prosperous organizations of the country, having a combined membership of 460,000 members and on November 1 had a reserve fund of over \$1,000,000. Its members can secure not only life benefit protection, but sick and accident protection, as well as total disability benefits under the one membership in the order.

What the entertainment is that will be furnished by Mr Underhill, who will appear in "The Rivals" at school at the High school assembly hall can be judged from the following: "It is neither a reading nor a lecture nor a mere electionary program. It is more. It is the complete story of the greatest and most popular dramas told from the point of view of many people and shifting scenery owing to the gift of interpretation that goes with a really great impersonator."

Miss Mary Fitzpatrick of Wall Dr and Mrs Bennett of Providence, R. I.

Miss Agnes McCarthy, employed in the eyelet department of the Waterbury Brass company's plant received a severe and ugly injury while at work yesterday. A strip of brass metal upon which she was working got caught in the machinery and in her efforts to loosen it, it tore up her left arm, lacerating it badly. Miss McCarthy lives on Center street.

The part of North Main street which was recently paved was almost impassible to-day with the depth of water. It was all over from one end to the other and in some places was two inches deep. Between O'Brien's bakery and Fogg's grocery there was a ridge of mud half a foot deep which served as a crossing and was greatly appreciated by the public. Something appears to be wrong with this job else people would not be forced to wade through a sheet of water two inches deep in some places and not less than one inch in any place. It is evident that on days like to-day this part of North Main street will be far worse to travel on than it was before it was paved unless seen to by the city engineer.

is the most important mercantile event the public of Waterbury has ever been favored with. The extreme mild weather of September and October cut off purchasers and re-orders down to half the normal trade. Consequently manufacturers of the above lines find themselves with large accumulating stocks which they seek an outlet for.

We have inaugurated this sale to give them the opportunity they desire; but it will doubly benefit you, our patrons, by being able to procure high grade, up-to-date costumes and fabrics at almost half what they were made to sell for.

The consignors' instructions to us are to sell, and we will do it.

A word to the wise is sufficient. First choice is always best.

Sale commences at 9 a. m. sharp, Wednesday, November 7, 1900.
