Little Benny's Note Book
By Lee Pope

I was looking over my stamp collection in the setting room and wondering how many I could save up if I kept on saving till I was about 87 years old, and pop was reading the sporting page, and all of a sudden he started to cawf about 10 short cawfs, saying, I don't know what the mischief ails this throat of mine, Benny, run and get me a glass of wattr, quick.

Yes sir, I sed.

Which I ran to the bath room and started to caw thinking, G. I wonder if I could carry a glass brim full of wattr back to the setting room without spilling a drop?

And I filled the glass as full as it would get, taking pritty long on account of having to leave the wattr run so slow wen the glass was near full so it wouldnt squert the rest of it out agen, and then I started to carry it back to the setting room slow as anything, thinking, Gosh, Im pritty steddly, all rite.

And I kepp on carrying it slow so I wouldnt spill eny, and I could heer pop cawf about once every second, and sometimes awfner, and after a while he called, Benny for Peets sake, wat the doose are you doing all this time?

Im coming, pop, Im coming, I sed.

Its about time, sed pop. Me not having spilled a drop yet on account of being so steddly and going so slow, and pop kepp on cawfing and in about a minnit he called, Benny, have you droppeded de or wat?

Im coming, pop, Im almost there, I sed. And I wawked in the setting room carrying the wattr careful as anything, and pop sed, Quick, quick, are you parrylized? Are you trying to choke me to death?

No sir, Im seeing if I can carry it all the way without spilling a drop, I sed. And pop made a farsee face and jumped up and grabbed the wattr and drank it without stoppin for air. And then he gave me 4 farsee tracks some place and made me go to bed.

Auto Democracy Is Needed By Europeans

Europe is in for more democracy than has to do with parliaments and crowned heads, according to John M. Maguire, president of the Mid-West Rubber Association. Within the next few years everybody is going to ride in automobiles, just as they do here.

"And it is up to American manufacturers to supply them," says Mr.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they clear clouded brain and soothe the spirits. 10c and 25c a box

In For Repairs!

Maguire. "Europe has developed the big, the sumptuous, the costly automobile. European roads are excellent for one thing, and big, heavy machines are therefore logical. But the plain people could never afford them. The fine roads did them a lot of good—to walk on. America, with all sorts of conditions to meet, of roads, of classes of people and of pocketbooks, developed a flexible automobile supply that meets all needs.

Our ingenuity accommodated itself to all classes of American people and will now have to serve the same end for the Europeans.

American export trade is facing a new era of expansion in every respect but in no direction is the prospect brighter than in the automobile field, especially for the manufacture of light, popularly priced cars. Quite naturally the tire industry is taking the fullest advantage of this situation.

The people who don't like this government and want to destroy it are working awfully hard to keep from being sent anywhere else.

After quietly tucking 25 to 50 per cent. profits into their inside pocket, some people get terribly angry over the spread of labor.
