Y. W. C. A. GOES AFTER ANNUAL BUDGET FEB. 7

That no organization has come out of the war with a better record in the denced by the fact that while the American people have been campaigned to death for funds for everything one could think of, the effort to raise funds for the Y. W. C. A. throughout the country during the past few months has met with tremendous success. City after city has advanced classes met yesterday at the exceeded the amount for which the public has been asked to subscribe a veritable story book ball for there and those who have watched the situation feel that it registers the opinon of the public based on service. The success of other cities has a tremendously important bearing on Bridgeport just now inasmuch as the local Y. W. C. A. goes out on Feb. 19 for

its annual budget. The amount to be raised this year is very much in excess of that of last year owing to the fact that the big hundred thousand dollar industrial center on Barnum avenue in East Bridgeport, which last year was op-erated by the National board, has Pullman as a Puritan with Rob Roy now become a local charge and is handled under the management of

the local Association. The Board of Directors, however, feel that Bridgeport will respond to the appeal because the work of the association has been so successful. This is due largely to the fact that the management locally is hands of a group of practical and thoughtful women. Last year these women asked the public for a certain amount of money and were given four thousand dollars more than they asked for; instead of spending it be-cause they had it, they saved it to lessen the burden of the public this
