

LILY LEITZEL

Aerial Queen with Ringling Brothers and Barnum & Bailey Circus, Here Next Saturday.

Little Miss Muffet Sat on a tuffet, Eating of spiders and whey. There came a great spider And sat down beside her, And frightened Miss Muffet away.

Of all the aerial artists with the great Ringling Brothers and Barnum & Bailey circus none perform more hazardous feats than Lily Leitzel. Tiny of figure, with golden hair, and dressed in the fluffiest of costumes, she daily ascends to the dome of the "world's biggest big top," there to execute the most intricate of gyrations including a giant "half flange". This means that she literally tosses her body over her own shoulder often as many as 100 times while suspended in mid-air. The most dangerous part of Miss Leitzel's act is accomplished when there is no net beneath to break a possible fall.

Those who have seen this remarkable girl doubtless conclude that she knows no fear. Yet she never ascends to her lofty place without a shudder. The reasons for her discomfort are of two kinds—spiders and grasshoppers. "Laugh if you will," says Miss Leitzel, "but I must confess to an absolute horror of the little beasts. You see spiders and grasshoppers are frequently carried skyward when the dome is raised from the ground, and I just had at this some day one of the horrid things will take a notion to light upon me while I am doing my act. And if it does, I know I'll just die of fright."

SENTENCES IN COMMON PLEAS

Thomas F. Carey, Greenwich, was assessed a fine of \$150 in Common Pleas court and given a suspended sentence of 60 days. He pleaded guilty to damaging property while under the influence of liquor. Jake Kimsick, 39, of Trumbull, for an assault on John Bias, was given a suspended sentence of 30 days in jail. Michael Curcio, Greenwich, for an assault on Charles Catinano on May 22, last, was fined \$100 and given a suspended sentence of 90 days. Frank Witkowski, Monroe, was fined \$25 for an assault on January 31, that was in the nature of a family quarrel. The family affairs have been adjudged, so a jail sentence of 30 days was suspended, the man to be placed on probation. He will answer for his behavior to United States Commissioner Hugh Lavery. Prosecutor Huxford announced that at least one, and probably several jury cases will be heard before adjournment is taken for the term.

38TH INFANTRY TO HOLD REUNION

The 38th Regiment of U. S. Regulars, will hold their second annual reunion in the Langley Hotel, 123-129 West 44th Street, New York City, Monday, July 18, this being the third anniversary of the Second Battle of the Marne, in which the 38th Infantry, according to General Pershing, won undying fame as a fighting unit of Uncle Sam's army. General Pershing in his report to the President, stated that "A single regiment of the Third Division wrote one of the most brilliant pages in our military history on this occasion. It prevented the crossing at certain points on its front, while on either flank the Germans had gained a footing pressing forward our men firing in three directions met the German attack with counter attacks at critical points and succeeded in throwing two German divisions into complete confusion, capturing 800 prisoners."

The 38th was made up of men from all parts of the United States and was organized in Syracuse, N. Y., June, 1917, from the existing units of the American Division, which was trained in Camp Greene, N. C., landed in France April 14, 1918, and went into action on the Marne river opposite Chateau-Thierry, Memorial Day, 1918, along with other units of the Third Division, which was the only American division to ever fight in the city of Chateau-Thierry itself. The 38th was decorated with the Croix de Guerre with the palm and christened "The Rock of the Marne" by the French General, Doussert. While in Germany the men of the regiment made a collection to build a monument to their departed comrades. It was decided to erect the monument in the city of Syracuse, N. Y., and the people of that city gave the land for the monument. The regiment, which is now stationed at Camp Pike, Ark., was ordered to Syracuse for the dedication and former members from all over the states attended and a great many are expected for the reunion in New York City. General Pershing has telegraphed the committee in charge that he will be there, as well as Robert G. Woodside, at present commander-in-chief of the Veterans of Foreign Wars of the United States. Captain Woodside distinguished himself at the Battle of the Marne. Others who have accepted are Gen. Howard Dickman, more familiarly known as Daddy Dickman; Col. U. G. McAlexander, who commanded the 38th on the Marne, and Col. Adams, who was in command in Germany.

Three Bridgeport men lost their lives in this regiment at the Marne, and several more are now living in Bridgeport. St. Louis, Mo., June 29—Unpleasant odors from the East St. Louis packing plants pervade this city occasionally. A man from Portland, Oregon, was here on business on occasions. He went four times to the bathtub and used an immense amount of soap and toilet water. "If it were not for the packing plant," he said when his friends passed out their orse laughs, "St. Louis wouldn't be worth a cent."

Department Has Cancelled 349 Leases

Washington, June 28—Following out the administration's announced policy of economy, the War Department since March 4 has cancelled 349 leases, saving the government \$31,531 monthly in rentals. Secretary Weeks announced today.

The policy of reducing expenses would be continued, he said, adding that the department now was preparing for the abandonment of the chemical warfare plant at Lakewood, N. J. The total rental March 4 was \$1,500,000. Mr. Weeks said. The headquarters of the second army corps area at Boston has been changed from rented quarters to the army base. The amount saved was \$50,000 annually.

Anxious To Renew Pact With Japan

London, June 28—The London Daily Express today printed a report that the British government has sent a message to Japan proposing that the Anglo-Japanese alliance remain in force for three months after July while the Imperial Conference is discussing the advisability of its renewal. The treaty ends in July, but the government is anxious to renew it. The government believes that the dominion premiers will approve a renewal after due deliberation and the extension is sought so that the treaty will not lapse even for a short time.

Physician Explains Who Should Take Nuxated Iron

Practical Advice on How To Help Build Up Great Strength, Energy and Endurance. "Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "It may also transform a beautiful, well-nourished woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real cause of their trouble. Without iron in your blood your food merely passes through the body, something like corn through an old mill with rollers so wide apart that the mill can't grind. "For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable, and all run down," while at 30 or 40 with plenty of iron in your blood you may still be young in feeling, full of life, your whole being brimming over with vim and energy. But be sure the iron you take is organic iron—Nuxated Iron—and not metallic iron which people usually take. Organic iron—Nuxated Iron—is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is just as it comes from the action of strong acids on small pieces of iron filings and is therefore an entirely different thing from Nuxated Iron. Nuxated Iron represents organic iron in such a highly concentrated form that one dose is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen baked apples. It is like taking extracts of beef instead of eating pounds of meat. Over 4,000,000 people annually are using Nuxated Iron. It quickly helps make rich red blood, revitalizes worn-out exhausted nerves and give increased strength and energy. Your money will be refunded by the manufacturer if it does not produce satisfactory results. For sale by all druggists.
