Style and Quality Predominate in These

SPRING SUITS

of Tricotine which have received generous approval for the excellent tailoring and quality at this moderate price.

\$45.00

"That is the best suit we have seen. It fits so well at the shoulders. Notice the pockets and button holes—all finished so nicely. A suit like that will retain its shape. Yes, that is the suit for you." So said mother in pointing out the excellent features of these suits to her daughter.

They have that well tailored and smart look which all women desire for themselves. "Shape retaining" suits that present a well dressed appearance at all times.

Navy Blue and Tricotine are the color and fabric favorites of the season, fashioned in youthful models with side flaring belted jacket, a straight panel back.

Definitely applied silk braid and embroidery are pleasing trimmings. Some have buttons and silk stitching for the decoration.

There are black suits too for those who desire that color. Other stylish and moderately priced models at \$49.50 and \$59.50.

Doctors Didn't Help Her Sickly Child

Strong and Healthy Now. Mother Says Milks Emulsion Saved Its Life.

"Last May my three-year-old baby was taken very ill, got so bad that we expected her to die at any time. Had four doctors, but they did not know what ailed her and finally stopped coming. She had been sick about 5 months when I started giving her Milks Emulsion. I noticed results from the first and by the time she had taken 2 bottles she was absolutely strong and healthy. I am thankful to say Milks Emulsion saved her life."—Mrs. Willis S. Pitts, Nacogdoches, Texas.

For restoring appetite, health and strength in sickly children, mothers will find Milks Emulsion the thing they have always sought. Most children like to take it, because unlike many emulsions and tonics, it really tastes good.

Milks Emulsion is a pleasant, nutritive food and corrects the medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whom sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion under the guarantee. Take six bottles with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded, 75c and \$1.50 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Adv.

The House refused to concur in a Senate amendment to the army appropriation bill, providing funds for a force of 17,000 men and the Knight-Brady bill, proposing a reorganization of the State Industrial Commission along lines recommended by Governor Miller.

By a vote of 100 to 37, the New York Assembly passed the Knight-Brady bill, proposing a reorganization of the State Industrial Commission along lines recommended by Governor Miller.

It was said at the State Department President Wilson will not have time to reply to the League of Nations Council and the British Government concerning the mandates. He will leave it to the incoming administration.

BIG EATERS GET KIDNEY TROUBLE

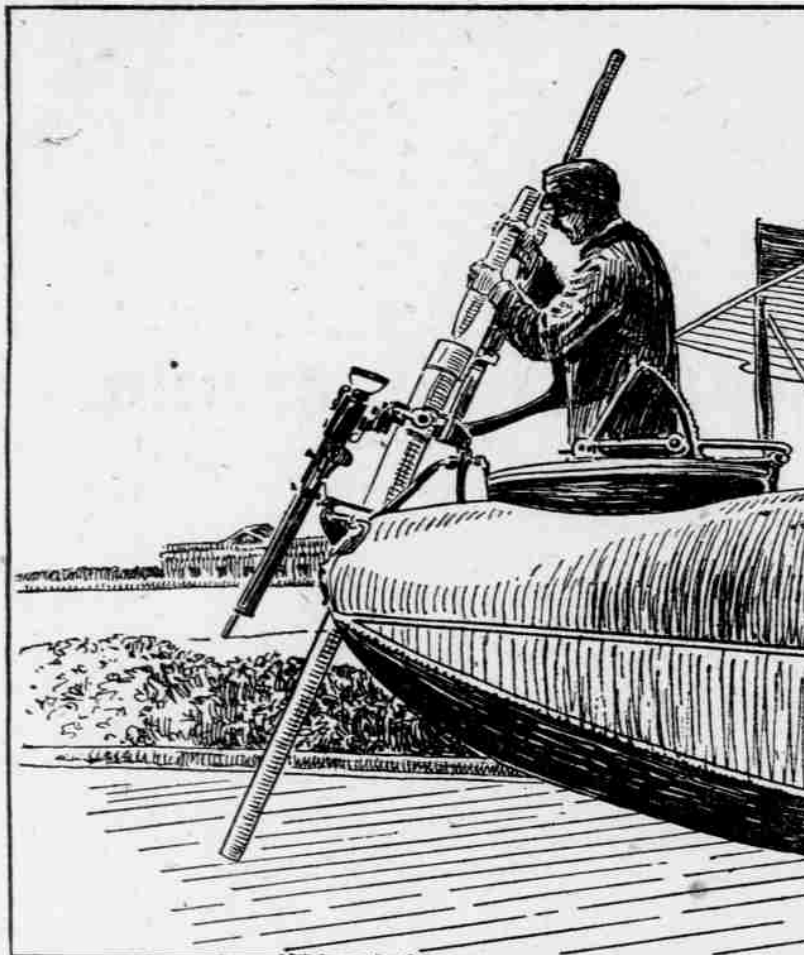

Take Salts at first sign of Bladder irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine, so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

THIS GUN SHOTS FORE AND AFT

Experts of the bureau of ordnance of the navy have been conducting experiments with the Davis gun and do not believe that it has reached the stage of efficiency which will make the large type of modern battleships absolutely useless in time of war, but they are satisfied that they have perfected it so that it will raise havoc with submarines. The picture shows the Davis gun and a Lewis rifle on the bow of a flying boat, with the marksman loading the Davis gun.

JENKINS BROS. EMPLOYES IN RELIEF ASS'N

At an enthusiastic meeting held recently, it was voted by the employees of Jenkins Bros. to form an organization to be known as the "Jenkins Employees' Relief Association."

All employees are eligible to membership and 500 members have already been enrolled, which more than assures the success of the undertaking.

The purpose of this association is to provide financial and medical relief to disabled members as well as a death benefit to the relatives of deceased members. All benefits take effect on March 1.

The officers of the association are: F. W. Chamberlin, president; J. M. Jones, vice president; J. T. Bennett, secretary; B. J. Lee, treasurer; physician, Dr. John F. Flynn.

The Board of Directors is R. C. Gerce, chairman; J. W. Hanson, J. F. Connor, C. Clark and C. T. Tichy.

DR. McLAUGHLIN WILL MARRY NORWALK MISS

The announcement of an interesting engagement which comes as a complete surprise to many in this city was made known last evening when a dinner party of twenty-four covers was given at the Royal James hotel in Norwalk, by Miss Edna Howard, daughter of William Howard, who disclosed the secret of her betrothal to Dr. Al. McLaughlin of Framstan, this city.

Radio Big Aid In Detecting Crime

New York.—A potentially omniscient recruit has been added to the detective force of the New York police department—wireless telegraphy. Through this "rook" for it is admitted in the experimental stage—the atmosphere in a 300-mile radius is literally suffused with police alarms concerning stolen automobiles and other suspected criminality.

The Board of Directors here said they are receiving admirable co-operation by amateur operators within their receiving radius. Heading the messages sent out every night is a request that all amateurs bearing the alarms copy them and deliver their contents to their respective police departments. In the case of stolen automobiles, a brief description is given, including the make of car, the license number and the motor number.

Police Sergeant Charles E. Pearce, who originated the use of the radio for detective purposes, said there was no limit to its effectiveness if other police departments will install similar stations. Although good results have been attained through the amateurs, there are several elements in that method that hinder the work, he said. Aside from having to depend upon the honesty and zeal of the amateurs, they usually operate their stations as an avocation and their whims may not always lead them to listen when messages are being sent.

Nomination of Brig. Gen. Frank McIntosh to be Chief of the War Department Bureau of Insular Affairs was confirmed by the Senate.

ANOTHER HEALTH FILM TO BE SHOWN FRIDAY

The Visiting Nurse Association during February has shown more calls than any other single month since the association began work. Nine hundred and thirty-six patients were visited, making 2,889 calls. The nurses visit any type of sickness, including scarlet fever and diphtheria. The greatest number of patients are among those acutely ill with pneumonia or with mothers having young babies. The service is not a charity; the patient can pay according to his means up to the cost of a visit which is seventy-five cents.

The ninth in the series of public health lectures under the auspices of the Visiting Nurse Association for the pupil nurses of the two hospitals will be given in the Welfare Building, Friday evening, at 8 o'clock. A Red Cross film, "Before the Doctor Comes," will be presented.

All efforts to pass the soldier bonus bill at this session of Congress were abandoned.

For Coughs, Colds, Bronchitis, Try

Countless grateful sicklebacks are recognized by the medical profession as having their direct or indirect cause in a neglected cold or cough. Kerr's flax seed emulsion, Linoline, is most helpful. Medicine knows no surer healing agent for the inflamed mucous membranes of nose, throat and lung passages. Thus while Linoline is removing colds coughs and bronchitis it is also nature's chief aid in restoring vitality. All druggists—insist on having the genuine—50c and \$1.20.
