

THE ARMY AND NAVY JOURNAL

says ordinarily one cannot see how the military power of a nation could depend upon buttermilk, but investigations into the deterioration in the physical development of the population in certain parts of Germany are expected to show that it is due to the lessened consumption of buttermilk. Lately the candidates for the army show an inexplicable falling off physically but which were formerly true specimens of manhood. Inquiries show the dairies have been sending the buttermilk far, far away, and the result is the children and grown people can get only the cheap skim milk or comparatively innutritious substitutes. The American Journal of Medical Association says Switzerland is getting into the very same situation. Now then if buttermilk will improve us in our physical development we should drink it by all means, and you get the best at Phelan's Tea store. But this ad man claims for breakfast nice fresh roasted Coffee is delicious and healthy, and for dinner and supper nice, clean, good quality Tea is very palatable and health bearing. But you must get the good kind, and Phelan's is the place to get it. We have a few more coal hods and never break clothes dryers which we give with each pound of warranted good Baking Powder, 45 cents per. at

The will of the late Edward Lobdel Jennings who was purchasing agent for the American Brass company was filed to-day for probate. It is a brief document. Circuit Of Waterbury

Whereas, during the year now past our country has experienced a financial crisis so severe that the factories, their employes and all of us have suffered loss, but as never before in the world's history our people have shown their optimism and here in 12 short months largely recovered from the depression, and, whereas, the financial future is bright before us, let us look to the great Power above in thankfulness, and enjoy the blessings which are ours.
Now, therefore, by virtue of my authority as the largest shoe dealer in this district, and, therefore, Shoe Governor, I do appoint Thursday, November 26, as Thanksgiving Day. Given under my hand and seal this 20th day of November, 1908.
HARRY G. DODGE,
Shoe Governor.
By His Excellency's Command,
M. S. CONGDON, Secretary.
