Five Strong Reasons for Fall PAINTING.

- In the fall, the surface is thoroughly dry. During the spring a surface which needs repainting is sure to contain moisture and dampness or frost, and it cannot be successfully painted until it has thoroughly dried out.
- When the wood is dry, it absorbs more of the paint. The paint penetrates deeper into the wood, therefore gets a firmer hold on it, giving the paint coating greater tenacity or holding qualities.
- Paint cannot be applied as successfully in damp, cloudy or unsettled weather as in warm, sunny weather, in the fall the weather is more settled and uniform and is warmer, therefore it is an excellent time for painting.
- A house needs its protecting coat of paint more in the winter months than at any other time. A house, in need of repainting should never be allowed to go over the winter without this protection.
- It is easier to keep moisture and dampness out by applying a coat of paint when the surface is dry, than it is to get moisture or dampness out of the wood when you want to apply paint.

Torrington—An attachment for \$600 has been placed upon the meat market of Felix P. Conlon of Migeon avenue to satisfy a claim of Pierpont Brothers of Waterbury. The case will be heard before the court of common pleas the first Tuesday in January.

Hartford—Bishop Nichols of California, who will be remembered by many as a former rector of Christ church, will be in the city this week and has accepted an invitation from Rev. James Goodwin to preach in Christ church next Sunday morning, when his former parishioners will have an opportunity to hear him.

South Norwalk—Daniel Popp, a Hungarian, 45 years old, attempted to kill his wife, 43 years old, by slashing her with a butcher knife, yesterday, and he afterwards cut his own throat. He is now in the hospital and is expected to die, but his wife is believed to have a chance of recovering. Jealousy is said to have been the cause of the attempted murder.

Simsbury—Upon the invitation of Mr and Mrs J. T. Weed of Simsbury there was a reunion yesterday afternoon at their home, of the descendants of Julius and Julia Case Weed. The house where the reunion was held is on the site of the one which Julius Weed occupied and which was burned in 1870.

Deep River—Brakeman Carl D'Arche of Hartford, charged with manslaughter in connection with the recent railroad accident at Deep River, was before Judge Edward G. Burke at the town hall yesterday morning at 10 o'clock. The hearing lasted nearly all day. Hartford—Water from the Farmington river and not from the Connecticut river is what Hartford may drink and use if the long over-due rains still hold off. The water commissioners, hope and trust that it will rain and are relying on the 900,000-000 gallons still in the reservoirs to carry us along quite a spell, but the supply continues to lessen every day and there is no denying that the department officials feel anxious. It hasn't added any to their joy in life, either, that the Connecticut river is here to draw on, for the unwholesomeness of the water of that once pure stream is something not nice to dwell upon.

Winsted—Chief of Police S. C. Wheeler, Officer Spear and John F.  Boston, Nov. 24.—The New England governors' conference continued here to-day, when the attention

of the delegates was called to the consideration of ways and means of protecting and propagating the fisheries. "Highways and their use" had been arranged as the topic to be considered at the afternoon meeting. Francis H. Rastus Goes Fishing.

Mr. Henry—"Going fishing on washday, Rastus? I thought Melissa needed you to gather wood and make a fire to boil the clothes."

Rastus—"Yes, sah, Marse Henry. But Anty Drudge here, she done sho'd M'Lissy how to wash de clo's without no fish an' M'Lissy she say hit's as easy as rollin' off a log."

Anty Drudge—"That's right, Mr. Henry. Rastus had better be working than fishing, but Melissa doesn't need him. Fels-Naptha makes the biggest washing easy for one person in less time than the old way."

Do your washing without a fire next time. Save the bother, the discomfort and the cost of fuel.

Wash your clothes with Fels-Naptha in cool or lukewarm water, in summer or winter.

It's much easier—no hard rubbing is needed.

It saves the clothes because there's no boiling to weaken them and no hard rubbing to wear them out.

It takes less than half the time of the old way.

And this Fels-Naptha way of washing in cool or lukewarm water makes your clothes cleaner, sweeter, and fresher than if you boiled and hard-rubbed 'em till Doomsday.

Don't take a substitute for Fels-Naptha because it will not do the work.

Look for the red and green wrapper and follow the directions printed on the back.
