ADVERTISEMENTS.

"BULLDOG OF THE AMERICAN NAVY" NEARS HOME, BEARING THE LAURELS EARNED IN SPANISH WAR

Oregon Sailed From Yokohama on May 16 and Is Probably at Honolulu---- She Will Coal There and Remarkable Showing Then Come to San Francisco at a Ten-Knot Gait, Getting Here About June 15, and Ending an Eventful Cruise----Upon Her Arrival She Will Go Out of Commission to Be Remodeled

THE FORMIDABLE AND FAMOUS BATTLESHIP OREGON HOMEWARD BOUND. HER PENNANT IS THE FINEST THAT HAS EVER BEEN FLOWN BY A WARSHIP. IT IS 420 FEET LONG AND IS MADE OF THE FINEST SILK THAT MONEY COULD BUY IN CHINA. THE BATTLESHIP HAS BEEN GONE THREE YEARS AND A ROYAL WELCOME AWAITS HER RETURN TO THIS STATION.

during which time she has earned the sobriquet of "The Bulldog of the American Navy," the battle-ship Oregon is on her way home Early last month she left Shanghai for San Francisco in company with the collier Isis, and on May 11 reached Yokohama. There she was coaled and on May 16 at 4 p. m. she got under way for Honolulu, while the Isis went back to

As she passed out of Yokohama harbor the Occidental and Oriental Steamship Company's Gaelic was going in and the wo vessels saluted each other. The regon was flying her homeward-bound emant and the officers on the Gaelic say

days. The Gaelic brought fity-four cabin pernant and the officers on the Gaelic say it is a beauty. It is 420 feet long and is made of the finest silk that could be bought for money in China. The British cruiser Bonaventura was also homeward bound and she had a very fine pennant, the end of which was kept out of the water by a real balloon, but it could not compare in point of beauty with the Oregon flag.

On her arrival at San Francisco the chances are that the Oregon will go out of commission temporarily and be completely remodeled. She is equipped with circular turrets, and when the thirteeninch guns are pointed in the same direction the hull heels to such an extent as to expose the unprotected portion below the armor belt. This was particularly noticeable in the Spanish war and the Government intends rectifying the defect.

Scrofula

Scrofula is an unwelcome legacy, but one which

Scrofula is an unwelcome legacy, but one which the children of blood poisoned parentage must accept, with all its humiliating consequences. It is an inheritance that makes one poorer; that brings wretchedness and disease instead of health and riches, for the child whose ancestral blood is tainted with Scrofula or the loathsome virus of Contagious Blood Poison is unfitted for the arduous duties of life so long as any of the transmitted poison remains in its veins. Scrofula manifests itself in various forms; swollen glands about the neck and throat, catarrh of the head, weak eyes, hip bone disease, white swelling and offensive sores and abscesses are familiar symptoms, attended usually with loss of strength, poor digestion and pale or bloodless complexion. The skin is sometimes most dreadfully affected, eruptions breaking out on all parts of the body. Scrofula destroys bone, tissue and flesh; no part of the human system escapes its withering, benumbing touch.

When nineteen years old, and about one year after the birth of my first child, the glands on the left side of my neck began to swell. Four of the places were lanced and became open running

When nineteen years old, and about one year after the birth of my first child, the glands on the left side of my neck began to swell. Four of the places were lanced and became open running sores; risings came under my left arm, and the discharge was simply awful. The doctors said I had the worst case of Scrofula they had ever seen. I took iodide of potassium, but this nor the other drugs given for this disease brought relief. When the physicians advised me to have the glands removed, I decided to try S. S. S. A few bottles cured me completely; no signs of the terrible disease are left.

MRS. BIOLARD WASSON,

Golden Corners, Ohio.

the terrible disease are left.

MRS. RICHARD WASSON,
Golden Corners, Ohio.

The purity to the profoundly poisoned blood, and the rich, strong blood that is carried to the swollen and diseased glands absorbs and destroys the tuberculou deposits, and the painful, disfiguring sores and other evidences of Scrofula disappear.

S. S. S. should be begun immediately upon the appearance of the first symptoms, or where there is a known predisposition to Scrofula. Our medical department will be found of great help to those who are struggling with this wasting disease of heredity or any other blood trouble, and we invite you to write us. Should you or any member of your family need advice, our physicians will cheerfully give the information you desire, for which we make no charge. Book on Blood and Skin Diseases free.

Made by Industries of City.

Monthly Review Shows Some Shortage of Wells Completed.

Four score of the large business con-erns of the city, manufacturing plants and street railway lines, are now using California oil for fuel instead of coal.
This is somewhat of a remarkable showing when it is recalled that the sections of the State that are supplying this fuel to San Francisco have developed their resources as oil producers within two years. In the present consumption is promise for the future of the oil industry of the State, But only a small part of the future demand is now indicated. A list of the San Francisco concerns now relying on fuel oil for motive power and steam making is as follows:

Francisco concerns now relying on fuel oil for motive power and steam making is as follows:

Central Light and Power Company, San Francisco Brick Company, San Francisco Brick Company, San Francisco Breweries, Limited; Joseph Scheerer, Viavi Company, San Francisco Breweries, Limited; Joseph Scheerer, Viavi Company, San Francisco and San Joaquin Valley Railroad, Independent Electric Light and Power Company, United Oil Producers, California Glue Works, Standard Oil Company, San Francisco and Pacific Glass Works, American Tool Works, Wunder Brewing Company, Bowers Rubber Company, San Francisco Gas and Electric Company, Pacific Fower Company, Pacific Oil Supply Company, Pacific Power Company, Abner Doble Company, California street Cable Company, D. Ghirardelli Company, George W. Pennington & Sons, Spring Valley Water Works, Merchants' Ice and Cold Storage Company, Stauffer Chemical Company, Hearst Oil Company, Alcatraz Asphalt Paving Company, Pacific Oil and Lead Works, Simons Font Brick Company, Oil Storage and Transportation Company, Cascade Laundry, New England Soap Company, Lane Hospital, F. A Proposed Combination.

A Proposed Combination.

According to the Hollister Bee, W. L. Watts has reported to the Hollister Petroleum Development Company that sinking a well on the Baldwin ranch, which is under lease to the company named, would be an uncertain experiment. The escape of gas from the Lathrop well was reported to indicate that there were oll measures in the district and the discovery of small quantities of oll in salt water indicate the same general facts. A plan of combination by which a joint effort can be made to locate the oil belt in the district is now proposed. The Bee says:

If the Hollister Petroleum Development Company, Pioner, Hollister, Mutual and San Benito County will combine their capital in cash, oil casing and rig, and an executive committee shall be appointed from the directorate of each company to conduct the business a well could be sunk somewhere in the district, and if oil is struck each of the companies would own an undivided interest therein, and all would be indirectly benefited by having the district proven, and the burden of doing so would not fall on any one company. It is known that oil does exist northwest and southeast of this district and the belt must extend through here between the two ranges of mountains. The gas and oil found by the San Benito County affords sufficient evidence that oil measures at least exist in this vicinity. The increase in the shipments of oil from the Kern River ields during the month of May amounted to something over 400 barrels. Nearly 1800 carloads were brought in by the Southern Pacific Company. The output of June may exceed that of May.

The Western Williams Farmer reports that the lumber has been purchased for derricks for the Gibson Oil Company, the Minor Ranch Oil Company and for R. H. Herron.

Dr. de Costa's Lectures.

Dr. de Costa's Lectures.

"From Canterbury to Rome; or How I Came to be a Catholic," is the title of Dr. Benjamin F. de Costa's lecture in Metropolitan Hall next Monday evening. In the literary and religious world the lecturer is well known. He is a vigorous writer and the author of several works. For many years he occupied one of the most prominent pulpits of the Episcopal church in New York. After resigning his pulpit he embraced the Catholic faith, and since then he has been in considerable demand as a lecturer.

Dr. de Costa will give four other lectures, as follows:

Wednesday evening, June 12—"The Vatican

Wednesday evening, June 12—"The Vatican Archives and the Papal Bulls Relating to Pre-Columbian America.".
Friday evening, June 14—"America—Historic,
Social, Religious—in its Relations to Present Monday evening, June 17—"The Bible and Its Mission in America." Wednesday evening, June 19—"The Claims of Society Upon the Educated Catholic."

Sudden Death of a Beggar. John O'Keefe, an old man who made his Joint O Keele, an old man who made his living as a beggar on the streets, died yesterday morning in the city ambulance while being conveyed to the Central Emergency Hospital. He had been rooming at 184 Jessie street and had been sickly for some time.

A LESSON IN VALUES.

OLLAR for dollar, pound for pound, there is more in Ivory Soap than in any household soap. It is easy to find a cheap soap; but to find purity and low price in a single soap

is not easy. They combine in Ivory Soap. You can afford to use it in the laundry; you can not afford not to use it elsewhere. It is vegetable-oil soap, in the cheapest form in which it can be procured. You pay nothing for a fancy box, wrapper or perfume. It is all in the soap! It floats.

Unclaimed Money in State Banks. Much attention has been lately attracted Much attention has been lately attracted to the large amounts of money deposited in the banks of this State to which no one ever lays claim. With a view to ascertaining the approximate amount of such money, the Board of Bank Commissioners has issued a call to all the commercial banks of California to furnish a list of all deposits which have lain dormant for a period of ten years or longer.

The Supreme Court rendered a decision yesterday affirming the order of the lower court which declared that S. S. Johnston, a depositor in the insolvent Bank of National City, could not legally be compelled to pay an assessment on stock levied a a meeting of the bank directors, which was held after the assignment had been
