Monopoly Keeps Up the Price of Coal
Although the Market Is Glutted

Local Barons, However, Face Peculiar Problem Owing to Falling Off of Demand

ALTHOUGH coal has poured into the local market in such large quantities that the amount on hand exceeds the storage capacity of the port, the local monopoly has been able to hold the price at famine figures. The Western fuel company, of which James B. Smith is the general manager, controls the situation, and despite the fact that coal to the value of $1,800,000 is held in bunkers and yards about the bay, the local trust is asking $18 and $18.50 a ton. For lack of sufficient storage facilities, the coal companies have been compelled to pay demurrage on cargoes held on the ships in the stream.

NEW YORK, March 23—Robert H. Hunter, who was not only present at the demonstration in Union Square of which Luigi Galleani was prime mover, but also was the principal organizer of the meeting, has expressed his opinion that acts of terrorism and assassination can not be practiced in the United States because they are a crime.

In a statement issued yesterday, Mr. Hunter said: 'The absence of terrorism and assassination in the United States is due to the fact that there is a social order in the country which makes it impossible. There is no such social order in Russia."

In the course of the meeting at Union Square, Galleani was shot through the shoulder by an unknown assassin. Galleani was later arrested for the crime.
