The petition was referred to a special committee, consisting of Messrs. Canby, Finegan and Beggs.

The Removal of the Courts.

THE BAR BEFORE THE LEGISLATURE.

On Wednesday evening the following members of the Bar Association of this county, went to Dover for the purpose of urging upon the Legislature the importance of the removal of the county seat from New Castle to Wilmington: Thos. F. Bayard, J. C. Patterson, S. M. Harrington, Charles B. Lore, Benjamin Nields, George H. Bates, Anthony Higgins, W. R. Hodgson, E. G. Bradford, Jr., J. M. Williamson, Henry R. duPont and J. P. R. Polk. These gentlemen went down as representatives of the Association.

A correspondent of the Commercial furnishes the following report of an informal meeting in the hall of the House of Representatives from which we copy the following:

Mr. Bayard expressed his pleasure that he had the opportunity of meeting with the General Assembly of the State, but he had done so at considerable inconvenience to himself, feeling the importance of the movement.

He called attention to the fact that the conditions that once made New Castle the most convenient location in the county had now changed, and it was so no longer. When the county seat had been fixed there that was the only place of safety, and the whole State a vast hunting ground, whose only means of convenient communication was by the water courses. New Castle, therefore, being on the Delaware; although on the very verge of the county, was more accessible than any other point that might be chosen. This is no longer the case. Wilmington is nearer and more accessible to a majority of the citizens of the county, while to all others, except perhaps a very few, who live directly upon the Delaware river, and a few in the town of New Castle, it is equally convenient.

The greater part of all the business of the county, came from or through Wilmington, and an immense amount of time was lost by business people of Wilmington, especially those summoned as witnesses, which would be saved by the removal of the Courts to Wilmington.

He believed, sincerely, that the interest, at least, of all the expense that the county would be compelled to pay on account of the removal, would be saved from the extra mileage that the county was compelled to pay for the attendance of witnesses from Wilmington in criminal cases and for the summoning of them, without once taking into the account the saving to private individuals.

He believed, too, that an equal sum would be saved to suitors from casual fees. The slightest information in regard to the condition of a record required a trip to New Castle, at a loss of at least half a day to the counsel. Men must live, and their time is valuable to them, and when that is used it is but common justice that they should be paid for it. He said that if the Court House of Kent was at Dover Landing, much of the information which was now gladly given by the gentlemen of the bar of Kent without charge would of necessity demand compensation.

He spoke of the inconvenience of the present building and that it had been indicted by the grand jury of our county as a nuisance; that although we had a much larger population than Kent, we had at least no better buildings than it.

Mr. Harrington was next called upon by the committee, and stated that he had been authorized to make the proposition of the city, which is, that the city gives the site and pay half of the expense of the buildings which is to be used jointly by the county and city. He referred to the conveniences of access to the city of Wilmington, and the accommodation for persons attending upon the Court. He said that no single advantage possessed by New Castle was not possessed equally by Wilmington, and the latter had many not possessed by the former. He said that conforming with other buildings in Wilmington—the Opera House and new hotel—he felt perfectly certain that all of the necessary outlay would not exceed $100,000. He did not believe it would be more than $99,000. Of this, he showed that the amount to be raised by the people outside of Wilmington would not exceed $15,500.

Mr. Lore was next called upon, and gave his full and hearty approval of the movement. He, too, believed that merely as an economic measure it would be a success, and the county be pecuniarily benefited. He believed that the saving would not only keep down the interest, but in ten years would pay off the principal. He also adverted to the fact that new buildings would be required in less than ten years; that they had been patched and patched with evidence of its insufficiency; that each addition was only a confirmation more strong than the last, that the old building would not do for the business of the county.

Mr. Higgins, in a very few words, stated that he had heard but one objection—that of expense—and that he, like the rest of the speakers, had never heard a man oppose it for any other reason. Some had signed remonstrances because they thought Wilmington should bear the whole expense, of the removal, but outside of the question of expense, he knew of no objection.

The conference was protracted to a late hour, considering which the speakers were heard with marked attention and patience. No remarks were made by any of the members of the Legislature, and no intimations were given as to what would probably be its ultimate action.

A counter movement was in progress at the same time in the Senate chamber, and as we understand, under the management of Wm. G. Whiteley. A. B.

The Street Commissioner reported 36 men and 8 horses and carts employed; the Chief Engineer, 16 men.

The Lamp Committee reported in favor of using Dyott's Patent Street Lamps, on some of the principal streets, at a cost of $1200. Adopted.

The Water Committee reported favorably on the petition for water pipes on 13th street, as far as Adams; estimated cost, $150. Also on Shipley street; estimated cost, $300. Adopted.

The Committee on Opening Streets reported that the contract for vacating Spruce street had been concluded and signed, and the money, $5,000, paid over to the city. Adopted.

Mr. Febiger, from the Special Committee on widening Water street reported that nearly all the awards had been paid.

Mr. Quinn, Chairman of the Special Committee on City Hospital, reported that the P. W. & B. R. R. Co. and a number of manufacturers had offered to contribute a yearly sum to the support and maintainance of such an institution. The report contains the following resolution:

Resolved, That the City Solicitor be instructed to prepare an act to be submitted to the Legislature, authorizing the increase of the city debt, by the sale of bonds, to an amount not exceeding $25,000, for the purpose of purchasing the ground and erecting the buildings necessary for a City Hospital.

The report and resolution were adopted, and the Committee continued.

The pay rolls of the Water Department, $298 78, and the Street Department, $186 12, were read and passed in the usual manner.

Mr. Canby presented a petition from the managers of the Wilmington Dispensary, asking for an annual appropriation, in order to keep open the Dispensary daily.

Referred to a Special Committee, consisting of Messrs. Canby, Finnegan and Beggs.

A petition for curbing and paving the sidewalk, on the north side of Ninth street, between Monroe and Jackson, was read and referred.

Mr. Canby presented an ordinance authorizing the paving and macadamizing of Fourth street, from Market street to the Christiana. Read twice.

Mr. Finegan introduced an ordinance to defray the expenses for widening Water St. Read twice.

A petition from the Union M. E. Sunday School, asking for the use of the City Hall, the first week in June, for the purpose of holding a strawberry festival, was read and referred.

On motion of Mr. McIntire the vote by which the ordinance vacating Fifth street was defeated, last meeting was reconsidered.

On his motion also, Mr. John H. Adams, of the McCullough Iron Co., was allowed to address Council on the subject.

Mr Adams stated that the McCullough Iron Company had purchased two tracts of land in this vicinity, one, the old Lobdell property, for $32,000; the other the Barratt property for $25,000. On the Lobdell property they propose to erect a mill for rolling sheet iron, at a cost of about $100,000. On the Barrett property, through which Fifth St., would run is extended, it was proposed to erect temporary buildings on the wharf for storage, and also to lay tracks connecting the works with the railroad. This latter property was purchased for this exclusive purpose and it was necessary, for the successful prosecution of their business that it should be so used. The petition for vacating the street was signed by all the property owners in the neighborhood, and he did not think it would be a disadvantage to any one.

Mr. Hayes thought it would cost the city now forty or fifty thousand dollars to open the street, and perhaps it will not be opened for ten or twenty years, when it will cost even more. It would be policy to encourage this industry, as the city would be greatly benefited by it.

Mr. Febiger referred to the objections raised in regard to the city's loosing valuable wharf property by vacating the street, and said that the extension of Seventh street would abridge this difficulty, and provide a public wharf at a portion of the Christiana where the water was fifteen feet deep at low tide.

Mr. Quinn was willing to have a commission on the street now, and lease it to the Company for twenty or twenty-five years; afterwards to open it at its present appraised value.

Mr. Finnegan states that if the street was opened, he might object to vacating it, but now it would not pay the city to open it, just for obtaining a wharf front. When Wilmington becomes a commercial city, we must look to the Delaware for wharfage. Thought we should encourage our manufactories.

Mr. Beggs referred to the lack of public wharves, and said he was not hostile to manufactories, but was opposed to closing another street and wharf against public use.

Mr. Gilbert moved to postpone until next meeting. Lost.

The vote on the ordinance was then taken, as follows:

Ayes—Messrs. Canby, Febiger, Foulk, Finnegan, Hayes, Mendinhall, Pickels, Quigley, Richardson—9.

Nays—Messrs. Beggs, Gilbert, Huested, Menton, McDowell, McIntire, Quinn, Underwood—9.

Lost by a tie vote.

Mr. Mendinhall presented an act authorizing the issue of bonds to an amount not exceeding $30,000 for school purposes. Ordered to be sent to the Legislature.

Mr. Febiger presented an act amending the City Charter to provide for the apointment of a Board of Assessment, Revision and Appeals for Wilmington.

Action on this act was postponed until a special meeting to be held this evening.

Mr. Menton presented a petition from property owners on Maryland Avenue, petitioning against widening the sidewalks of said Avenue. Referred.

On motion, the papers on the Clerk's desk were referred without reading.

ORDERS.

T. Y. DeNormandie, $51.07; Wm. H. Brady, $3.40; Johnson and Bogia, 4.00.

On motion Council adjourned.
