WILMINGTON, Del., August 29, 1873.

THE DAILY GAZETTE is published every afternoon, except Sunday, at 415 Market street, and served by carriers to subscribers in all parts of Wilmington and the surrounding town and villages, for six cents a week, payable weekly. Yearly subscribers \$3 in advance.

THE DELAWARE GAZETTE, established 1784, is the largest and most flourishing weekly in the State, and has a larger circulation than any other on the Peninsula. Published every Friday morning at 12 a year, in advance.

The City Election.

The election for members of Council, City Treasurer, and Ward officers, takes place in this city next Tuesday, the 2d of September. The polls open between the hours of 12 o'clock, noon and one o'clock, afternoon and close at 7 o'clock, p. m. Every voter who has the cause of good government at heart should make the necessary sacrifice to vote. Let no Democrat be absent. A single vote in a ward might result in the loss of the whole ticket. Remember that reform is necessary to reduce taxation, and stop extravagance.

FALSE AND AUDACIOUS.

The municipal government was once within the hands of the Democrats, and their shameful disregard of public interests is known of all men.—Commercial.

What an audacious falsehood! The Commercial ought to have more decency than to utter such an assertion. The most valuable improvements we have originated while the Democrats were in the majority in the City Council.

The City Water works, the most complete and economical works of the kind in their time were erected and perfected by the Democrats. And the city was nearly always in the control of the Democrats for many years, until a whig Legislature altered the charter, and divided the city into five wards in order to give that party the ascendancy in the City Council. Then it was that the foundation of our present city debt commenced; and it continued to increase rapidly.—The Democrats appealed to the Legislature; which had become Democratic, to pass an act limiting the debt of the city; and we have no doubt, our city would have been in debt a million and a half of dollars had it not been for this saving clause in the charter.

Nearly the entire debt of the city has been incurred by the Republican party.

During the seven months the Democrats were in power in 1871, they saved the city an immense sum of money. It was known to every intelligent citizen at the time that the Republicans in the Council had repeatedly refused to have work done on the contract system. They persisted in doing things by the day; or paying their partisans just what they pleased to charge. The hauling and street cleaning was done by the day or load, and the Democrats urged in vain to have the work done by contract by the lowest bidder. And as soon as the got the power in 1871, this change was effected. The saving was at once made manifest in the contract for laying the Eleventh and Jefferson streets water mains. In the bids for this work there was a difference of about forty thousand dollars, if we remember right. Also on Mr. Gallagher's bid, the lowest and best, except that of Mr. Dillon's who took the contract on a bid between \$17,000 and \$18,000 below Mr. Gallagher's; and we think about \$40,000 below Mr. Richardson's. Whatever has since been saved through the working of the contract system is due to the seven months' control of the Democrats, for the Republicans have not dared to go back to the old system of jobbery, except in instances where it was done regardless of law and the oath of office.

But aside from this the city owes its cheap and excellent Fire Department to the seven months' rule of the Democrats in 1871.

The Republicans had passed an ordinance destroying this Fire Department, and it would have been carried into effect had the Democrats not gotten the power and by strenuous efforts repealed the ordinance.

This ordinance provided for reducing the Fire Department to three steam engines and about thirty men, which would have cost the city about forty thousand dollars for engines and houses, and about fifty thousand dollars a year thereafter.

The defeat of this measure is due to the Democrats in Council in 1871. And to them we owe the fact that our city has been so well provided against fire, and ready to meet and check the devouring element that has committed such sad havoc all over the country during the present year. The Commercial does the Democrats great injustice in its reckless assertions, which deserve to be termed as they are, willful and deliberate perversions of the truth.

Ohio Politics.

THE NEGRO CONVENTION AND WHAT IT MEANS. CINCINNATI, Aug. 23.—The convention of colored people at Chillicothe yesterday is one of considerable significance. The politics of the State is in a measure in the hands of the colored men. In this county, where there are more colored voters than any other place in the State, there are thirteen members of the Legislature to elect. It is the feeling expressed at the convention takes hold of the minds of the colored voters of this county, so as to put them in antagonism with the Republican party, the Democratic legislative ticket will certainly be elected, and Senator Thurman will be re-elected. Mr. Peter H. Clark was the orator of yesterday's convention. A year ago his voice was strong and influential in carrying the colored vote solid for the Republicans. He recognized then the fact that no colored man were given office by the Republicans, but he argued that it was time enough yet to expect and demand office. Last spring Mr. Clark received the compliment of a nomination by the Republican Convention of this county as delegate to the Constitutional Convention. It was an unfortunate concession for the Republicans to make, for the result showed that the prejudice against his race was not extinct even in the Republican party. He was overwhelmingly defeated, while others on the Republican ticket were elected. Here came to Mr. Clark a demonstration of what he had feared was the truth—that the Republican party was no more moved by what he calls love of justice towards the colored people than were the Democrats. He discovered that the majority of the Republicans had favored the negro as a matter of policy and not of justice, and that the determination to receive the negro as an equal political brother was quite as great among Republicans as among Democrats. He believed the only difference was that the Democrat proclaimed his feeling, while the Republican; for the purpose of consistency, concealed his distaste for negro equality.

Having seen this, and seeing also the occasion when, holding the balance of power, the negro can elect a United States Senator, Mr. Clark determined to strike. It is difficult to tell now what effect this convention will have upon the colored people at large. They are exceedingly cautious, and are slow to change, but they will be undisturbed if once they take a position.

A VERY VALUABLE BOOK. "The Undeveloped West, or Five Years in the Territories." Being a Complete History of that vast region between the Mississippi and the Pacific; its Resources, Climate, Inhabitants, Natural Curiosities, &c., with Life and Adventures of Frayser, Mountains, and the Pacific Coast. By J. M. Boodle, Western Correspondent of the Cincinnati Commercial, and Author of "Latin Utah," &c.

The National Publishing Co. of Philadelphia, has just issued one of the most remarkable and attractive books of the century. It is well known to every one that, far beyond the Mississippi, an stretching over half the continent, is a vast region which we vaguely term, "The Great West"—a region abounding in the most wonderful natural formations, rich in precious mineral deposits, and offering the greatest attractions to the tourist and the settler. Though so often spoken of, it is almost an unexplored land.

Mr. Boodle went into this region for the avowed purpose of seeing and describing it, and his journeyings and observations were all governed by a fixed purpose, that of discovering and making known the actual character, condition and resources of the country visited by him. He first traversed the States of Iowa, Minnesota, Nebraska and Kansas and examining the lands and living and conversing with the people of those sections. For five years he kept moving from point to point, exploring the Territories, and the great and rich States of the Pacific Coast, encountering strange people and innumerable hardships and having many dangers in his wanderings among the mountains. He visited the rich mines of Colorado, Utah, Nevada and Idaho; passed into California and Oregon, and there enjoyed peculiar advantages for seeing and investigating the resources and curiosities of those remarkable states. He spent considerable time in New Mexico, Arizona and Texas, and his account of his observations and discoveries in those strange and deeply interesting portions of our country will command his book to the consideration of the scholar, as well as to all who seek practical information or amusement. His only companions in his travels in Arizona were Indian guides, and for weeks during his explorations in that Territory he never saw the face of a white man.

To prospective immigrants and settlers in the "Far West," this history of that vast region will prove an invaluable assistance, supplying as it does, a want long felt of a full, authentic, and reliable guide to climate, soil, products, distances, localities, means of travel, etc. It may be relied upon, for it contains no second-hand information.

It is comprised in one large octavo volume of 823 pages, and illustrated with 240 fine engravings of scenery, lands, mines, people and curiosities of the Great West.

The low price at which the work is issued brings it within the reach of all, and the great interest in the subject, and established reputation of the author, combine to make it the best and most popular book of the day. It is sold by subscription only, and agents are wanted in every county.

South Carolina complains that although no money has been levied this year to pay interest on their State debt, taxes have never been so heavy, even when interest was being paid.
