LINE DRAWN IN ST. LOUIS.

Boarding House Keepers Refuse and Feed Colored Republican - Causes the Managers Injustice.

O. June 9.—Chauncey M. name is now discussed by the managers, and he can have the name for vice president if Reed will.

It seems to be pretty well settled that Major McKinley wants a man on the ticket with him, and one to the purpose, the man who can be a candidate for vice president and on the currency.

McKinley forces are intensely their belief that the tariff will be in issue, but they recognize the value of the currency question, and they for second place a man who will stand for the gold standard and expect to make success more.

McKinley meets all the requirements, and that his business duties will not be an acceptance, it will be an acceptance, it will be an acceptance, it will be an acceptance.

papers bombing McAlpin have hundreds, and there has just been a list of circulars from the Young Men's Republican club of Chicago, expressing its preference for McAlpin.

Quay, Proctor and Hanna seem to be McKinley's private car, but on the other hand, R. C. Kerens and Congressman Nathan Frank plan to visit to Major McKinley, that the confab related to method.

of the colored brethren who discriminate by St. Louis hotels. Addlecks, the gas man of and elsewhere, came west as far as and, saw Mr. Hanna and went in, but did not come to Canton, and proposition is that he come a seat on the handwagon.

Guy E. Grosse writes in California that McKinley will carry that state and that he is also sure of Washington and Arizona. The protection for wool, fruit, and a "silver plank," he says, "much to do with Nevada and more so than in the first named."

What shall be done with the delegates and delegates national Republican convention is in which is puzzling the members, national committee who have here, as well as the Business Men's which secured the convention to St. Louis.

St. Louis, June 9.—The gavel which will be used by the permanent chairman of the Republican national convention has been received at the headquarters of the local committee.

St. Louis, June 9.—The Democratic primaries of Hamilton county resulted in the election of 66 silver and 2 gold delegates to the Democratic state convention at Columbus, June 23.

They said it was an invitation to the colored delegates to prosecute them for damages. They went to the league committee on hotel accommodations and made a vigorous protest.

They have been in telegraphic communication with Marcus A. Hanna all day, but as yet no solution of the problem has been reached.

In no former Republican national committee has the committee had so heavy a duty to perform in making up the roll for the temporary organization as the present committee has before it.

The committee as a whole will commence the hearing of the contests Wednesday forenoon, and the indications are it will hardly be able to finish them before the end of the week.

Many of the conventions that resulted in contesting delegations were marked by violence. In several of them police had to arrest the participants for assaulting and beating the chairman, and the feuds that grew out of local rivalries have been transferred to the national arena.

The committee's conclusions, however, are not final. They are for the purpose of making up the roll for temporary organization and only show who, in its judgment, is primarily entitled to a seat in the convention.

It would be hard to predict who will be selected by the national committee for temporary chairman of the convention, so few of the committeemen have arrived, and there is none of the prominent leaders of the party here.

By that time it is expected that the Republican national committee will be here, as it meets tomorrow. It is probable that Thomas C. Platt of New York, Senator Gear of Iowa and Joseph Manley of Maine will also have arrived by that time.

FATALLY INJURED.

serious Accident Caused by the Bursting of a Cylinder.

BROOKLYN, June 9.—By the bursting of a cylinder in Cobb's iron foundry in this city two men were injured so badly that they will probably die, and three others received severe cuts and bruises.

It suddenly exploded with terrific force, one huge piece flying through the roof. The other men were at work, and when the smoke and dust had cleared Smith and Higgins were found among the debris badly mangled.

It is stated that the cylinder contained water before it had been put into the furnace and had exploded because of the great pressure of steam after it was taken out. At the hospital where Higgins and Smith were taken it was stated that they would die.

TORONTO, June 9.—The big departmental store of James N. McKendry & Co., on Yonge street, just north of Queen, was gutted by fire.

The fire spread to the departmental store of the T. Eaton company, south of McKendry's building, but was soon extinguished. Eaton, however, will suffer a very large loss from the enormous quantity of water which was poured into his building by water towers.

HARTFORD, June 9.—Dwight E. Steere, a life prisoner, and George A. Minor, an incorrigible, have escaped from the Connecticut state prison at Wethersfield.
