Brilliant Assemblage Bids Luck to the Delaware, Giant Sea Fighter, as She Glides From the Ways—Delawarians Entertained at Notable Banquet Following the Launching

By United Press Leased Special Wire. The eyes of thousands of people were attracted to the Navy Yard at Newport News today, when the battleship Delaware slid gracefully down the ways, to join the fleet of the United States as its newest member. The elation was boundless at the news of the launching of what is considered the most powerful ship ever constructed. The Delaware is of the dreadnought series and carries thirteen 14-inch guns—two in turrets fore and aft, and eleven on the deck—sixteen 5-inch guns, and three 3-inch rapid-firing guns. The ship is 680 feet long and her displacement is 33,000 tons. She is capable of traveling at 21 knots, and her top speed is 25. She will be armed with 14-inch guns, and her crew is estimated at 1,200 men. The Delaware is one of the most powerful ships ever built, and her launching was attended by a large crowd of people who had gathered to watch the event.
