

STABLE MUST GO BEFORE TROLLEYS RUN

Within a few days the Wilmington and Southern Traction Company causeway extension will be in operation and the running time between this city and New Castle reduced about 15 minutes. The company expected to operate the line just week but owing to a delayed shipment of trolley poles it was unable to do so, but one thing remains to be done before road can be operated and that is to remove the stable owned by the Charles Warner Company which at the present time is situated on the

THANKSGIVING AT POSTOFFICE

Thursday being Thanksgiving Day, the postoffice will remain open only to 9 o'clock. There will be one delivery and collection, commencing at 7:30. There will be no evening collection by wagons. Persons with important mail to despatch should bring or send it to the postoffice, as the mails will be forwarded from the office as usual. Early delivery of important mail can be insured by using special delivery stamps.

right of way of the Traction Company on the lower side of the bridge. The Warners have promised to remove or tear down the building as soon as possible.

THEY WANT TO KNOW WHERE THIS MONEY GOES

The Board of Public Education at its meeting last evening referred to Superintendent George W. Twitmyer for investigation the soliciting of money by a woman from parents of school children. The matter was brought up by John C. Kersey, of the Second ward, who recently proved himself a hero by attacking a mad dog with bare hands after the animal had bitten several persons. Mr. Kersey presented a receipt for a year's subscription to a publication called the School Progress League. The

League, according to the statements of a woman solicitor was to award prizes ranging from twenty-five cents to \$2 per month to the pupils receiving the highest honors. According to Mr. Kersey, the woman received fifty cents in some instances and \$1.50 in others. In one instance it was stated that the league was purely a kindergarten and the money was for that purpose. Several other members said they had been approached on the streets by persons who had asked relative to

the collection of money for kindergarten purposes. Dr. Twitmyer said he knew of the School Progress and about a year ago a solicitor for the publishers worked here and carried a letter bearing Dr. Twitmyer name. Dr. Twitmyer said he had not authorized the letter and when he called up the office of the publication in Philadelphia a man was sent down at once but the solicitor had disappeared. Advancement for many lines in the Wants.—Adv.
