

ADVENTURES OF THE TWINS by Olive Roberts Barton.

"Oh, you naughty bird!" cried Nick. "You've eaten our best friend. Now we'll never find our monkey!"

THE OSTRICH MAKES A MEAL.

Suddenly the curly yellow ostrich pulled his head from the ground again with a jerk and blinked his big eyes. "There's something the matter with me," he said. "I believe I'm hungry. Yes, I'm sure of it. Very hungry! I should like a railroad spike for my dinner, a delicious, tender, railroad spike with a fat top."

Nick and Nancy were relieved to hear this, for they had an idea that he might begin on them, as they were so conveniently near.

"But where am I to get a railroad spike in Topsy-Turvy Land?" went on the ostrich. "I don't believe there's even a railroad here, much less a spike—no, I mean that I don't believe there is a spike here, much less a railroad. No, that's not it, either. Oh, well, it doesn't matter. The thing is, what am I to eat?" And the ostrich blinked his eyes again to show how fast he was thinking.

"I've got it!" he cried. "If I can't get a spike I'll have to find something that looks like one. What was that thing I saw around her a few minutes ago, that pushed me and told me to wake up?"

"Oh, that's our Magical Mushroom!" cried Nancy in alarm. "You wouldn't eat it!"

But she was too late. Before she could stoop to put their little fairy friend into her pocket the ostrich made a quick dive with his beak, and snubbed the Mushroom was gone! All they could see of it was the big lump that kept going further and further down the ostrich's long neck.

"Oh, you naughty bird!" cried Nick. "You've eaten our best friend. Now we'll never find our monkey!"

But what the ostrich replied sounded exactly like bird talk; the twins couldn't make out a word. The Mushroom was not there to help them understand, you know.

COLLEGE BOYS TO GIVE MINSTREL SHOW

Special to The Evening Journal.

NEWARK, March 2.—Plans have been completed by the Footlights Club of Delaware College for the minstrel show to be given in Wolf Hall tomorrow night. The proceeds from this show will go to the review board for the benefit of the student body weekly publication.

Coach H. B. Shipley has been spending several days at his home near Washington, D. C.

Dr. John Roberts Moore was operated on Monday at the Delaware Hospital, Wilmington, for mastoiditis. It is reported to have stood the operation well and will probably be able to leave the hospital in a few days.

Ford Stills, driver of one of the station buses, either lost or was robbed of his pocketbook yesterday, containing \$20. The pocketbook disappeared while he was driving the bus.

Evidently a still born baby was found on Monday at the disposal plant, the infant evidently having been thrown in the sewer.

PERSHING LEADERS WERE IN ALBANY

ALBANY, N. Y., March 3.—Albany was treated to a strange spectacle recently—the advent of a presidential boom with a difference. The boom is that of John J. Pershing. It was brought here by Mark W. and George J. Woods, of Lincoln, Neb., and the two custodians worked harder trying to keep their presence from becoming known than most politicians do in proclaiming their candidate's merits to the world.

Politicians regarded the visit here as very significant. It was stated that the Woods brothers brought very definite information as to the plans for the Pershing boom and some startling information as to who among the big G. O. P. national leaders were actually behind the movement and would appear publicly as its sponsors later on.

NOT A SNIFFLER, BUT A REAL MAN

Let Tanlac Handle That Catarrh of Yours Without Delay.

"Are you one of those fellows who go around all the time sniffing and sniffing, never stopping to take a true accounting of the cause of your condition?" asks the Tanlac Man.

"If you are, you are more obnoxious than you may think, for you have a bad smelling breath, and when you talk you make your presence a painful nuisance among your friends. It is probable that you neglected a cough or cold, which resulted in catarrh, and you are suffering from a chronic affection of this malady.

"It is never too late to make a beginning, and why not start today taking Tanlac, the most satisfying preparation for combating catarrh? Not only does Tanlac seem to relieve that hacking cough, remove the catarrhal accretions, and allay the lung pain, but it is blood-purifying, appetite-giving, food assimilating, nerve-quieting, strengthening and upbuilding."

Try Tanlac today. Don't be a sniffer. Be a real man! The genuine J. I. Gopp Co. Tanlac is sold here by N. B. Danforth and all leading druggists.

"WHAT'S IN A NAME?"

By Mildred Marshall Facts About Your Name; Its History; Its Meaning; Whence It Was Derived; Its Significance; Your Lucky Day and Lucky Jewel

harsh consonants have made her impossible to translate into French and Spanish and even Germany rejects her. England, through hatred of the Puritans, cared little for her, and she has almost dropped out of existence there. Only in America does she still flourish through the offices of Longfellow's immortal poem. The amethyst is Priscilla's talismanic gem. It is said to control evil thoughts, to quicken the intelligence and, according to an old legend has a sobering effect upon anyone intoxicated from wine or love. Saturday is Priscilla's lucky day and 4 her lucky number. The prime rose, signifying simplicity, is her flower.

Whether Priscilla was the name given to the daughters of this family or not is a matter of conjecture. The first Priscilla of whom we have record was a fellow-worker of St. Paul. In her honor this feminine form gained great prevalence in England, especially among the Puritans.

America, of course, received her through the charming romance of Priscilla and John Alden and Captain Miles Standish, where the famous utterance, "Why don't you speak for yourself, John?" arose.

The vague of the name as a model of demureness and maiden propriety was widespread throughout New England and has been much used in song and story in this country. But outside of America and England and her early fame in Rome, Priscilla has had no popularity whatever. The abundance of

DEMAND FOR OULJA BOARDS SWAMPS PLANT

BALTIMORE, March 3.—This city is the home of the oulja board, that product which enables the lovely inhabitants of this mundane sphere to affect communication with the spirits of those who have entered upon that trip to the bourne from which no traveler returns.

Recent increasing interest in spirit summoning has created such a demand for oulja boards that its manufacturers, William Pold & Sons, have found it necessary to build a larger factory. This has just been completed at a cost of \$125,000. The new factory building has 35,000 square feet of floor space and all devoted to oulja boards.

now, it is said, some of them have but ten days ahead.

Dandruff Surely Destroys The Hair

Girls—If you want plenty of thick, beautiful, glossy, shiny hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

INFLUENZA GERMS

BY VALENTINE MOTT PIERCE, M. D.

Bacilli of Influenza Magnified over 6,000 Times.

Influenza is produced by a bacillus or germ coming chiefly from discharges from the nose, throat and lungs of the person who coughs, sneezes, or spits. The person attacked feels chilly, develops a high temperature—usually accompanied by headache and "ache all over"—as it is usually described. If you have the above symptoms get into bed as quickly as possible, after a hot mustard foot-bath. Take a good purgative, such as one made up of May-apple, leaves of

doe, root of jalap, and sold in every drug store as Dr. Pierce's Pleasant Pellets. Then surround yourself with hot water bottles. It is a fact mentioned by physicians of the largest experience that the effort in the part of nature to throw off the poisons results sometimes in inflammation of the kidneys. It is therefore very important to assist nature in eliminating the toxins (poisons) from the body thru the bowels, skin and kidneys. Not only should this be carefully attended to by the sick, but by the person who wishes to ward off an attack. A new kidney remedy called "Anuric" (anti-uric) can be obtained of the druggist. This "Anuric" flushes the bladder and kidneys and throws off the poisons (toxins), and should be taken with hot water or hot lemonade. Clear the nose with some good antiseptic spray or Dr. Sage's Catarrh Remedy. It is, of course, unnecessary for me to emphasize this, keep strong and healthy, fear neither germ nor "Flu," and observe the three C's: A Clean skin, Clean bowels, Clean nose and mouth and you have half won the battle.

A United States Army MAN

THERE is a Canal at Panama, linking two great oceans and carrying the commerce of the world.

For a hundred years and more men dreamed of that Canal. De Lesseps had the dream and failed, and the bones of men and wreck of machines remained to mark his failure.

It seemed a task almost impossible; yet that task was done.

It was done by United States Army men.

In Cuba and Porto Rico yellow fever once claimed victims by thousands.

Yellow fever is no longer a menace in those islands. A great physician and his aids helped the people of those islands to conquer it forever.

And they, too, were United States Army men.

In the Philippines a new civilization is arising; and its foundations are laid upon the courage and devotion of United States Army men.

You think of the Army as an instrument of war; and well you may; for the record of its men in France and Flanders will live as long as history is written.

But the Army has tasks of peace no less heroic—tasks that mean a safer, and a better world.

It is for those tasks that the Army asks three years of the lives of America's best young men.

To these men the Army promises sturdy health—an asset for their business success in all the years to come.

It offers them opportunity for training in a useful trade. It gives them good food, good clothes and good care. It trains them to responsibility,—it develops character and mind.

It promises them travel, and the knowledge of other lands, that will make them citizens of the world.

The United States Army seeks no inferior applicants. It wants men of whom it can be proud, during their enlistment, and in all the years to come.

Men who will look back twenty, thirty, forty years from now and say:

"Those years were the most valuable of all my years of training.

"They gave me health, and skill, and the capacity for managing men. They gave me a chance to share in giant tasks.

"I am proud of the record of those years, and of what they have meant in my success.

"Proud that I, too, for a little while, was a United States Army man."

Where the U. S. Army serves American troops are serving in Panama, Hawaii, the Philippines, Alaska, China, Germany, Siberia and here in the U. S. A. The recruiting Sergeant will gladly give you all the details. Like every one else in the Army from General to Buck Private, you're under orders and if your outfit moves and you're needed elsewhere, your duty is to go.

The Nearest U. S. Army Recruiting Stations are: Main Station: 16 St. Paul St., Baltimore, Md. Sub Station: 808 Market St. Wilmington, Del.

A personal interview involves no obligation

UNITED STATES ARMY

Electrical Home Necessities

An electric heating pad quickly pays for itself in relieving rheumatic pains, helping to ward off "flu" and colds, lumbago, etc. And there is no question as to its superiority to the hot water bottle.
