If it is not sold at private sale on or before the 22nd day of September next, it will be sold at public sale on the premises on said day, and a liberal credit given for a considerable part of the purchase money, at which time attendance will be given and the terms made known, by

Patent Washing Machines.

He will continue to make and have a supply of them on hand, which he will sell on reasonable terms to such as favour him with their custom; and will also sell to any person a right to make and use them within the hundreds aforesaid.

DR. DODDRIDGE'S RISE AND PROGRESS

Of Religion in the Soul.

MR. ROBERT PORTER, of this town, has issued proposals for publishing the above excellent Book, by subscription, on good paper, and with a plain common sized type, at the very low price of fifty cents.

Perhaps, next to the Bible, this is the best book extant for private and family use. No one is better calculated to awaken, convince and convert sinners, and to conduct them in the straight and narrow path to Heaven; as doubtless the experience of many can witness. No one is more highly esteemed by pious people of all denominations, as is abundantly evident from the numerous editions it has passed through both in this country and Europe.

As the proposed price is only half the sum it is now selling for in most of our Book-stores, it will be seen, that neither the Printer, nor any persons who promote the work, have any object in view, but the good of souls, and the glory of God.

It is presumed that every one who wishes for the spiritual rise and progress of religion in his own soul, or his family, will subscribe, and that all friends of religion will encourage the work.

Recommendation by New-Castle Presbytery.

Whereas ROBERT PORTER, has issued proposals for printing Dr. Doddridge's Rise and Progress of Religion in the Soul, at a very low price.

Resolved, That the Presbytery do recommend to the people under their care, to subscribe for said excellent Book.

Lee's Anti-Bilious Pills.

Prepared by Richard Lee and Son Baltimore.

Persons wishing to purchase this valuable medicine are requested to be particular in enquiring for Lee's Anti-Bilious Pills, put up in wooden boxes, having on the outside wrapper the signature of Richard Lee & Son—this is necessary as there are other pills of the same name.

The operation of these highly esteemed pills is perfectly mild, and the experience of thousands has proved, they may be used in every situation in life without the least inconvenience or damage.

They are admirably adapted to carry off superfluous bile, and prevent its morbid secretions—to restore the appetite, produce a regular habit of the body, promote free perspiration, and thereby prevent colds, so often attended with fatal consequences to the lives of thousands—and seldom, if ever, fail to remove a cold, if taken on its first appearance. Habitual costiveness, and its opposite, are removed by their wholesome influence, as also those diseases arising from them, head-aches and sickness at the stomach.

It is almost unnecessary to state, that on the regular habit of the system, the health of mankind depends. To conduce to this all-important object, perhaps no medicine was ever more generally successful than these pills—they never do harm, and at least nine times out of ten afford relief to those who use them for the purposes for which they are intended.

With the most perfect confidence we recommend these pills to the public, and will only further add, that their operation is always pleasant, and that they leave nothing of that cloying taste behind them too often attending medicines designed for similar purposes.

Ten years have justified us in stating these facts, during which we have had a very extensive and constantly increasing sale for this truly valuable medicine.

TO THE LADIES

The faces and complexion are injured with Freckles, Pimples, Black worms, Tan or Ayburn, Ring worms, Prickly heat, &c.

To those persons is recommended,

Lee's Persian Lotion,

A certain remedy for removing those disagreeable blemishes to beauty, the proprietors with the most sacred regard to truth, and the credit of these medicines afford the afflicted, that all the different appearances above enumerated, are in a short time subdued by wetting the parts affected, with this pleasant fluid, according to the directions on each bottle.

Persons therefore who regard, either what is due to themselves, or the favour and opinion of the world, who can distinguish between the comeliness of health, and the deformity of disease, and who can weigh the advantages which belong to, and are inseparable from an engaging appearance, to which perhaps, they themselves, have by nature, the strongest claims are feraciously assured, that these advantages, so far as belong to a good skin, are to be obtained by the use of his Lotion, however violently they may happen to be afflicted.

Instead of the studious, and debilitating course of medicines, which patients went through formerly, and which, perhaps, they are still too frequently obliged to undergo, it is now found, that the greatest number of these complaints, are more certainly, and speedily removed by the use of local remedies merely, than they ever were by a contrary course.

LEE'S LOTION.

is celebrated among the fashionable throughout Europe, as an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals (the basis of other lotions) and of unparalleled efficacy in preventing and removing blemishes in the face and skin, of every kind, it operates mildly, without impeding that natural, sensible perspiration, which is so essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and clear, improving the complexion and restoring the bloom of youth. Sold at the Bookstore of Mathew Lockerman.

Aug. 23, 1809.

Each article has on the outside wrapper the signature of RICHARD LEE & SON. Persons not attending to the above, are liable to be imposed upon.

Notice

IS hereby given, to all whom it may concern, that application will be made to the General Assembly of the State of Delaware at their next session at Dover, for an act authorizing them to bank off, stop and drain the waters, marsh, low lands and crippler of the Northwest Branch of Duck Creek, at or near Mr. Edward Roberts's farm, in Thoroughfare Neck, Appoquinimink hundred, New-Castle county and State of Delaware.

WILMINGTON COLLEGE.

THE Trustees of Wilmington College take pleasure in being able to announce to the public the revival of the Latin school in this institution, under the immediate care of Mr. Bigelow and general superintendance of the Rev. Dr. Read. The healthy situation of Wilmington, its character for morality, the goodness of its market and choice of best boarding houses, joined to the evidence of Mr. Bigelow's capacity as a teacher, and the long and justly established reputation of Dr. Read as a successful preceptor, all concur to recommend this seminary to the attention of Parents and Guardians, anxious to promote the education and improvement of the youth intrusted to their care, especially when they are further assured that the other departments of the College are provided with tutors fully adequate to their appointments, and unexceptionable moral characters.

* That scientific author speaking of the French and English wars about the time of Braddock's defeat describes the effect the news had in England thus—

"Swift as the broad-winged packet could fly across the deep, the news was carried to England—its effects there was like that of a stone rudely hurled against a nest of bees. Instantly, from centre to circumference, all is rage and bustle. The hive resounds with the maddening insects; dark rumbling from their cells they spread the hasty wing, and whirl whizzing through the air, they rush to find the foe. Just as in the sea-ralling island, from quagmire to ale-house, from king to cobbler, all were fired for fight. Even the red-nosed parrots, which they met, bending under their burdens, would stop, full out, in the streets, to talk of ENGLAND'S VICTORIES; and, as they talked, their fiery snouts were seen to grow more fiery still, and more deform. These throwing their packs to the ground and leaping into the attitude of boxers, with sturdy arms across and rough black jaws stretched out, they bent forward to the fancied fight. The frog-eating toad, in shirtless ruffles and long bank cue, seems to give ground; then rising in their might, with fire striking eyes they press hard upon him, and coming in, hand and foot, with lick and cuff and many a heavy curse, they shew the greatest enmity, how damn them! they would thump the French!"
