

## YOUNG LADIES' BOARDING-SCHOOL,

At Wilmington, Delaware, conducted by WILLIAM SHERER, with the assistance of accomplished female Teachers.

THE course of instruction pursued at this Seminary comprises all the useful, and most of the ornamental, branches of female education. The daily exercises are Orthography, Reading, Writing, Arithmetic, English Grammar, Rhetoric, Geography, and History, ancient and modern, with constant reference to the best maps and charts; Construction of Maps; Use of the Globes; Natural History; Natural Philosophy, including Astronomy and Chemistry; Elements of Moral Science.

WEEKLY EXERCISES.—Biblical Recitations; Evidences of Christianity; Letter Writing, and other species of Composition; Recapitulations.

TERMS.—Board, and Tuition in any of the foregoing branches, \$32.50 per quarter; or if paid in advance, \$50. Music including the use of a Piano, \$12. French, by one of the best masters, \$6 per quarter. Moderate extra charges for Drawing and other ornamental branches.

The discipline of the School is mild, parental and Christian. Particular attention is paid not only to the manners of the young ladies but to their moral and religious instruction. They are regularly conducted to such places of worship and Sunday Schools, as their parents or guardians approve. Exercise and recreation being essential to the preservation of health and of mental energy, occupy the intervals of time not devoted to study. The institution, in all its departments, is conducted in a manner which, it is hoped, will meet the entire approbation of its patrons.

References.—Wilmington—Rev. E. W. Gilbert; Hon. Willard Hall; Hon. Louis M'Lane; Philadelphia—Rev. Dr. Wilson; Rev. Dr. Janeway; Mr. William Janvier, Merchant; James G. Thompson, Esq. Professor of Languages, University of Pennsylvania.

## To the Democratic Republicans of NEW CASTLE COUNTY:

THE undersigned is induced by the solicitations of many of his friends, to offer himself to your consideration as a Candidate for the Office of CORONER, at the next Election. He flatters himself that his long acquaintance with public business of a nature similar to the duties of that office, would enable him (if successful) to discharge those duties with credit to himself and benefit to the Public.

Very Respectfully, yours, &c.

HENRY VINING.

New Castle, March 1, 1827.

## Western Transportation Line,

From Philadelphia to Baltimore via Wilmington and Elkton.

THE Subscribers have established a line of Packets for the transportation of goods from Philadelphia to Baltimore, by way of Wilmington and Elkton, to leave C. Pusey and Co's. Wharf, Philadelphia, on 5d and 6th days, (Tuesdays and Fridays) every week, and Light street wharf, (opposite Gerard T. Hopkins and Moore's store) Baltimore, twice a week regularly. First rate Boats are provided, with experienced captains. Merchants residing at a distance by consigning goods to the Agents at either end, may rely on their being forwarded by the first Packet. Goods will be taken in store at Wilmington and forwarded to the Packet at Elkton; and at Elkton and forwarded to the Packet at Wilmington, and in all respects the local business will receive the usual care.

It is the conclusion of the proprietors to devote much personal attention to the faithful conducting of the Western line, and having the assistance of the most respectable and able Agents at each end thereof, they feel confident of succeeding in giving satisfaction to their friends and the public.

C. PUSEY & Co. Philadelphia.

GERARD T. HOPKINS & MOORE,

## TO ALL TEACHERS AND PARENTS.

NEW SCHOOL BOOKS, and improved editions, just published and for sale by JOHN CRIGG, No. 9, Fourth street, Philadelphia, and for sale by booksellers and country merchants generally.

Torrey's Primer, or First Book for Children. Torrey's Spelling Book, or Second Book for Children. I have examined Mr. J. Torrey's Familiar Spelling Book. I think it a great improvement in the primitive, and no less important branches of education, and shall introduce it into the Seminars under my care, as one superior to any which has yet appeared.

IRA HILL, A. M. A Pleasing Companion for little Girls and Boys, blending instruction with amusement; being a selection of interesting stories, dialogues, fables, and poetry. Designed for the use of primary schools & domestic nurseries. By Jesse Torrey, Jr. Preferred generally to Murray's Introduction, and works of that class. Torrey's Moral Instructor, and Guide to Virtue—This work is getting to be generally adopted in schools and academies, in place of Murray's Reader and works of that class.

Smiley's Geography and Atlas, and Sacred and Ancient Geography for schools. The increasing demand for these books, is the best evidence of their value as elementary works.—Smiley's Arithmetic, or the New Federal Calculator in dollars and cents. This work contains, among other important improvements, Questions on the rules and theory of Arithmetic, which are considered by teachers generally very conducive to the improvement of the pupil.

The sums being altogether in dollars and cents, will give it a decided preference over any other arithmetic in use. The future editions will be found very correct. A Key to the above Arithmetic, in which all the Examples necessary for a learner are wrought at large, and also solutions given for all the various rules. Designed principally to facilitate the labor of teachers, and assist such as have not the opportunity of a tutor's aid. By T. T. Smiley, author of the New Federal Calculator, &c.

The United States Speaker, compiled by T. T. Smiley—preferred generally to the Columbian Orator and Scott's Lessons, and works of that kind, by teachers who have examined it.

Grimsbow's History of the United States.—Also, questions adapted to the above History, and a Key adapted to the questions, for the use of teachers.

Goldsmith's England improved by Grimsbow, with questions and a key.

Goldsmith's History of Greece, improved by Grimsbow, with a Vocabulary of the proper names contained in the work and the prosodial accents, in conformity with the pronunciation of Lempriere—with questions and a Key, as above.

Goldsmith's History of Rome improved by Grimsbow, with Vocabulary, &c. and questions and key, &c. as above. Teachers generally, who have examined Grimsbow's History of the United States, and the improved editions of Goldsmith's England, Greece, and Rome, having given them a decided preference to any other histories in use as School Books—and any person who will examine them will find about 1000 errors in each corrected; and Teachers ordering these works will do well to say, 'Grimsbow's improved Edition.'

An Etymological Dictionary, or Analysis of the English Language, containing the Radicals and Derivations of Words derived from the Greek, Latin, and French languages, and all the generally used technical and polite phrases adopted from the French and Latin. By William Grimsbow, author of the United States, England, &c.

The second edition is greatly improved, and will be found a very valuable class book for academies and schools. Conversations on Natural Philosophy, in which the elements of that science are familiarly explained; illustrated with plates. By the author of 'Conversations on Chemistry,' &c. With considerable additions, corrections, and improvements in the body of the work, appropriate questions, and a glossary. By Dr. Thomas F. Jones, professor of mechanics in the Franklin Institute of the state of Pennsylvania.

Lives of Marion and Washington, by Weems. With a general and extensive assortment of all the school books in general use; all of which will be sold on the most reasonable terms.

\* Teachers are particularly requested to examine the above school books.

April 12th 1827.

R. Porter & Son keep all the above Books for Sale at the Publishers price.
