BEHIND THE SPANISH BARRICADES

By John Langdon-Davies

Reviewed by Helen I. Godfrey

Loyalty was the watchword of the early American Revolutionary War, before the Ashby Taylor, presumably, had his excellent idea that taxation without representation was a God-given right.

We were a bunch of good old boys, so to speak, then and we knew that we could sacrifice a daughter or two for the cause, and that we knew that if we were captured, we would be hanged as traitors and that the British would not spare us. So we never hesitated for a moment, and we all rushed out to fight for the Independents and against the Stamp Act.

In our day, there were no such things as light troops to fight against the British, but we had a good many of them, and we could hold our own with the best of them. We were a fighting people, and we knew that we could stand up to the British and that we could win.
