

A hassock, pushed and pulled from behind by Buddy's father, simulates the motions of a horse.

50.

Men accustomed to the vagaries of Washington's climate know that the mercury jumps quickly and without warning. We suggest early selection of your tropical worsted suits. Our new arrivals are tailored from fine quality fabrics in very handsome tones and patterns. They keep you cool and keep their shape. They are designed to hang rather than cling to the figure. Regulars, shorts, longs.
