

The Washington Monument, its beauty enhanced by a foreground of delicate blossoms. Star Staff Photos by Elwood Baker and Gene Abbott.

MOTHER WARNED ME...

MARION: She said marriage isn't all peaches and cream... that Dick and I would tiff once in a while. And this is it. He's hardly spoken all day. Of course, I have been kind of crabby lately. H-m-m... maybe he doesn't know why...

HONEY, MY STOMACH'S SO UPSET. AND I CAN'T SLEEP NIGHTS. WHAT SHALL I DO?

DICK: So that's what's wrong with her! Poor kid... no wonder she's been so short with me lately! She's probably been eating the wrong kind of food—and as a result has acid indigestion. Well... we can fix that in no time!

HERE, DEAR. SWALLOW THIS AND SEE HOW FAST YOU GET RELIEF!

NEXT DAY...

DICK: Years ago, my doctor told me that double-action Phillips' Milk of Magnesia is not only a marvelous laxative, but one of the fastest, most effective antacids known to science. So Phillips' Milk of Magnesia is what I gave Marion.

MARION: Phillips' is simply wonderful! Almost by the time my head touched the pillow, I felt better! Slept like a kitten... awakened this morning with a smile, not a scowl... and, as you can easily see, everything's peaches and cream again!

Scotties
are softies!
