YESTERDAYS in Washington.

By MARY S. LOCKWOOD.

Copyrighted, 1899, by THE NATIONAL TRIBUNE.

Organization and Growth of the Society of the Daughters of the American Revolution.

The Society of the Daughters of the American Revolution has its place as a "Yesterday in Washington." Ten years have passed since its organization.

The bugle call was sounded, and an appeal was made to the women of this country to organize for patriotic work, through a letter written by Mary Smith Lockwood, which appeared in the public press July 13, 1890.

Further activities were entered into in August by Mary Desha, Mrs. Ellen Hardin Walworth and Eugenia Washington. Others signified their desire to unite in answer to the call of the above letter, and when the day seemed ripe for the launching of the ship the call was made, and on October 11, 1890, at two o'clock p. m., in the parlors of the Strathmore Arms, 810 12th street, Washington, D. C., the National Society of the Daughters of the American Revolution was organized.

The gathering was an enthusiastic one. Eighteen members signified their willingness to become members by giving their signatures, and 11 paid their membership fee and became members that afternoon.

MRS. CAROLINE SCOTT HARRISON, FIRST PRESIDENT GENERAL, D. A. R.
From painting by Daniel Huntington, presented to the United States by the Daughters of the American Revolution.

It was decided that the Society should be National, with its headquarters in Washington, and that the head of the organization should be a woman of national reputation. A constitution was provisionally adopted, and officers elected.

Mrs. Caroline Scott Harrison, wife of the President of the United States, was elected President-General. Other officers were elected as follows: Vice President in charge of Organization, Flora Adams Darling; Vice-Presidents General, Mrs. David D. Porter, Mrs. Mary Virginia E. Cabell, Mrs. Henry V. Boynton, Mrs. A. W. Greely, Mrs. Lelia Dent St. Clair, Mrs. G. Brown Goode, Mrs. Wm. T. Winlock; Secretaries General, Mrs. Ellen Hardin Walworth, Mrs. Wm. E. Earle; Treasurer General, Mrs. Marshall McDonald; Registers General, Miss Eugenia Washington, Mrs. A. Howard Clark; Historian General, Mrs. Mary Smith Lockwood; Surgeon General, Miss Clara Barton; Chaplain General, Mrs. Tennis S. Hamlin.

It was a small body of loyal-hearted women that run up the old flag on that October day, and called the patriotic women of the Nation to order. The signal was cited, the rallying force was at hand, and to-day from the rising sun to its golden setting the name Daughters of the American Revolution means love of country, fidelity to her institutions, veneration for her flag, honor to her name. Now, in the 10 years gone, what has this society accomplished? From a membership of 11 they tip the scales at 30,000. They publish an historical and biographical magazine. It is the news letter of the Society. In it are recorded the proceedings of their Congress and the gigantic work of the Board. Through its pages and the Chapter work, each month, the Chapters are put in touch with each other. All vital questions in its pages can be discussed weekly. Chapter after Chapter is springing into being, until historical research and patriotic endeavor have become charged with a new spirit.

Mrs. Letitia Stevenson was the second President, Mrs. John W. Foster third, followed by Mrs. Daniel Manning.

The marvellous advance of this Society is largely owing to the character of the women who have stood at its head. No year since the organization of the Society has there been such opportunity to show what such an organization means as the one gone by (1898).

When the first cloud of war was seen in the horizon a resolution to be sent to the head of the Government was passed at a meeting held at the Strathmore Arms of this import: "The Daughters of the American Revolution have an organization in every State, and will hold themselves in readiness for their country's needs when called upon."

This was followed by a meeting of the National Board in April, when specific action was taken.

It resulted in the Society being commissioned by the War Department to provide all hospital nurses sent to Cuba and the camps in this country. The result was that no year has this Society accomplished so much that was so vital to the country, and the Daughters of the American Revolution have interwoven themselves into the fiber of National activities and will share in its glories.

The committees and the personnel named by the President, Mrs. Daniel Manning, and confirmed by the Board, at once entered upon their arduous task. A loyal patriotism that is ever the under-current of action with the Daughters controlled the self-sacrificing devotion and work through the long days and nights of that Summer.

Faithfully they labored under the orders of the Government, and as a result 1,700 trained nurses, who had passed through their rigid examination, were sent out to the various hospitals at home and to the islands of the sea. Money was sent to the different hospital sugeons and supplies to every hospital.

The War Committee and the Hospital Corps, by the united efforts of the Chapters in the different States, forwarded to the hospitals some $300,000, 60,000 garments, tons of food supplies, instruments, delicacies of all needful kinds, estimated at $60,000 more. Needy families, whose men had gone to the front, were provided for, rents paid, and supplies of food sent regularly.

A hospital launch, D. A. R., was given by the Daughters of the American Revolution to the Government Hospital Ship Missouri, which was found of great value in transporting the sick and wounded from shore to ship.

The trained nurses of this country gladly assert that they owe their standing and relation to the United States Government to the Daughters of the American Revolution, a brave class of women banded together for heroism and humanity.

Under its direction and care a work of great promise has been inaugurated. "The Society of the Children of the American Revolution." Mrs. Daniel Lothrop, its first President, has made a signal success of this Society. The systematic training of the children in love of country can not be too highly estimated.

This Society will also keep fresh in the minds of the American people all the events of this Nation that have welded it into a glorious Republic.

The distaff and spindle of their insignia tells its story. It whirs to the songs of patriotism, and the woof that is woven from its threads covers the motherhood and womanhood of the Nation, and the Stars and Stripes, with the old emblematic eagle over all, no longer represents a faction, but the "household troops" and the Life Guards of the Nation.

They will watch over and care for the home of Paul Revere; for Fort Crailo, where "Yankee Doodle" had its birth; for Jamestown, and the holy spots in the "Old Dominion," where our history first began, of the "Wolf's Den," of Putnam fame; of the school house out of which walked brave Nathan Hale; the Block House of Fort Pitt, and the restoration of the room in Continental Hall. Meadow Garden, under their fostering care, will always be enveloped in the patriotic atmosphere of a signer of the Declaration of Independence.

This Society was invited by the Lafayette Memorial Committee of the United States Paris Exposition to assist in raising funds toward the erection of a monument to Lafayette in Paris in 1900.

This Commission, under the auspices of the Commissioner-General of the United States to the Paris Exposition of 1900, indorsed by the President of the United States, and composed of the Secretary of State, the Governors of all the States and Territories, and other representative men throughout the Union, in giving this invitation, assured the Society that they would receive full and official recognition in this work, and that one of the four tablets on the monument will be reserved for proper inscription by the Daughters of the American Revolution. Actuated by the same principles of perpetuating the names of Revolutionary soldiers, helped them in the work of erecting a monument to Lafayette as a proof that his help in an hour of need had not been forgotten.

* * * * * * * * * *

A few years ago a few patriotic women conceived the idea of presenting, in the name of the Daughters of the American Revolution and the women of America, a statue of Washington to France.

It is to be a bronze equestrian statue by the sculptor Daniel French. It will be presented to France during the Paris Exposition of 1900.

The committee appointed by the President of the Society for the year did good work, notwithstanding the large drafts made for relief work.

The Lafayette fund for the year was $1,603.89; the Washington Statue, $917.20. Total, $2,521.09.

The Lafayette monument will be unveiled July 4, 1900. It will be placed in a beautiful part of the Tuileries. This Society will be officially represented by its President.

This is but the alphabet of the history whose first pages are being written. Mrs. Manning's administration will carry the organization over into the next century. With the executive ability she has already displayed, the hand writing is on the wall.

The great object in hand for this Society is the building of a Continental Hall, an object near at heart with the first President, Mrs. Caroline Scott Harrison.

The need of a permanent home for the organization was apparent from the beginning. Records and relics were accumulating, and no place to protect them. On the 14th of December, 1891, it was, therefore, declared by vote that all fees derived from Life Memberships and Chapter Charters should be set aside as a permanent building fund. This fund is not to be used for any purpose until a sum sufficient has accumulated to begin the erection of a fire proof building of sufficient capacity to accommodate the records, the relics, and in which the meetings of the Society can be held.

The idea has grown, year by year, until to-day a building of fair proportions has developed and taken on more and more the features of a Memorial building, with capacity for committee rooms, Board room, and for the work of the active officers and their assistants.

A Continental Hall Committee has the welfare of the project in hand, and has been before Congress and sought to obtain a site for the building. In fact, a site was appropriated at one session of Congress, but it was afterward found that this particular piece of ground was under prohibition of transfer, and Congress had no jurisdiction or power over said piece of land.

It would hardly be possible to conjecture that Congress will not transfer another site, over which they have power, for the Daughters have in hand about $50,000 toward the building, and this is the first step ever taken to carry out the proposition of Congress of an early day, that memorial buildings be erected throughout the Capital City, to represent the different States.

This Continental Hall will be a Memorial Hall for all the States, for every State in the Union will be represented therein.

The building will be a reality, monuments will be raised, historic spots will be protected, unwritten history recorded, and the country will always have a hand-maiden in this Society, and the old flag never more greatly honored than when representing the Daughters of the American Revolution.

Lincoln Day Sentiment.

In an address at Brooklyn, N. Y., Feb 12, on "Lincoln and the Civil War," Comrade N. G. Cooper, Co. F, 24th N. Y., after paying a deserved tribute to the great Martyr, mentioned the following facts to his audience: "Many young people have a slight conception of the terrific cost in human lives, and the suffering incident to the great conflict; 371,063 died during the war, and in addition to that immense loss 275,175 were wounded; 222,535 were discharged for disability. Is it any wonder that 742,467 of the gallant survivors of 2,261 battles and skirmishes are on the pension roll? Does it seem queer to you that 223,127 widows and dependents are drawing $8 or $12 a month? Who begrudges $2 a month pension for clothing and feeding the children of heroes who devoted the best years of their lives to the cause of the Union they loved. Our dead comrades had a right to expect that their loved ones should not be left to suffer hunger and cold, and in the name of humanity I plead for them. The Grand Army of the Republic is opposed to fraud, but it stands solid as a rock for justice."

A Plague of Cuttlefish.

The fishermen on parts of the coast of Northern Queensland are complaining of the ravages committed by immense numbers of cuttlefish, which have suddenly made their appearance in northern Australian waters. To such an extent is the sea infested with the cuttlefish that the fishermen often bring up as many as 300 or 400 of them in a single haul of the net. Not only can nothing be done with the cuttlefish, but their weight, attaining in the case of the bigger specimens to as much as 12 pounds to 15 pounds, breaks the nets. The presence of the cuttlefish, too, makes it very difficult to haul the nets on board. The fish cling so tightly to the side of the boats with their tentacles that to make them loose their hold the ax has to be used or boiling water has to be poured over them. Even when on board they still give much trouble, as the only way to kill them is to cut off their heads. A similar visitation was recorded about 40 years ago.

Substitute for Celluloid.

A Consular report from Freiburg states that a new substance closely resembling celluloid has been produced by boiling untanned leather in oil. It has the property of being a good electrical insulator, and can be used for many purposes. This new material, to which the inventor has given the name "marbold," can be polished on both sides, and in its structure resembles horn, and can be pressed or worked into any form whatsoever, either directly after the boiling process, or later, after the hardened hide has been made soft and elastic by being dipped into a salt or alum bath. By means of polishing this material can be made almost transparent, and it can be given different degrees of hardness, so that a substance is obtained which can be kneaded, embossed, stamped, pressed, drawn, and twisted into any desired shape, style, or design.

Makes Its Own GAS

$250 A Month AND EXPENSES MADE.

MAGIC LAMP Makes Its Own Gas.

Gives 90 to 100 Candle-power light at a cost of ONLY 1 cent for 10 hours

No danger, no risk, no trouble, no smell. The Magic Lamp is made a standard by fire Insurance Underwriters.

AGENTS make $250 and upwards a month selling these Lamps. They sell on sight to stores and families. Write today for territory and sample lamp.

THE MAGIC LIGHT CO., Factory, 9 to 11 River St., CHICAGO, ILL.

Cures Any Skin Disease.

Sufferers from Eczema, Tetter, Chronic Sores, Ulcers, Fistula, etc., Can be Permanently Cured at Their Own Homes.

Everyone who suffers from any of the above complaints should write at once to Drs. Reynolds, 528 Odd Fellows' Temple, Nashville, Tenn., and learn about their original method of treatment. They are skilled specialists, and in their years of experience have applied their treatment to thousands of cases with remarkable success. If you will write them a full description of your case, they can treat you at your own home, sending you remedies specially prepared for your case. Chronic old sores of years' standing are promptly cured, as well as the worst forms of eczema, eruptions, or any other form of skin diseases. It is but a waste of time to rely upon the various advertised nostrums for these diseases when your case can have the attention of the most skilled and successful specialists. Write them fully to-day and they will give you without charge a complete diagnosis of your case.

CHAT OF THE CORRIDORS.

The House Committee on the Library has favorably reported House bill 8072 appropriating $50,000 for the preparation of a site and the erection of a pedestal for a statue of the late Maj.-Gen. George B. McClellan in the City of Washington, the site to be selected by and the pedestal to be erected under the supervision of the Secretary of War, the Chairman of the Joint Committee on the Library, and the Chairman of the McClellan Statue Committee of the Society of the Army of the Potomac.

Gen. John McNulta, of Chicago, well known throughout the West because of his identification with the receiverships of railroads and other great corporations, died suddenly shortly after 6 o'clock Thursday evening at the Hamilton House, of angina pectoris. Gen. McNulta, who was about 60 years of age, had been apparently in the best of health during the day and had returned to the hotel only a short time before he was stricken. Medical aid was hastily summoned, but it was evident to the physician that his case was a hopeless one, and he died within an hour after the attack. Gen. McNulta was born in New York City, but removed to Illinois and engaged in the practice of the law at Bloomington. He entered the 1st Ill. Cav. as a Captain, and then raised and commanded the 94th Ill. and was brevetted a Brigadier-General for gallantry at Spanish Fort. He was severely wounded. He was a member of the 43d Congress. The deceased leaves a wife and two children in Chicago, a son in Montana and another son, who is a Lieutenant in the Regular Army, in the Philippines.

* * *

Benj. H. Snell, the Pension Bureau clerk who foully murdered little Lizzie Weissenberger, has been sentenced to be hanged May 11. He maintains a stolid demeanor, and refuses to say anything.

* * *

By direction of the President the new military post at Magnolia Bluff, near Seattle, Wash., will hereafter be known and designated as Fort Lawton, in honor of the late Maj.-Gen. Henry W. Lawton, U. S. V. (Colonel and Inspector General, U. S. A.), who was killed in action at San Mateo, Philippine Islands, on the 19th day of December, 1899.

Chairman Babcock has appointed the Executive Committee of the Republican Congressional Committee, as follows: Representative John A. T. Hull, of Iowa; Representative Joseph G. Cannon, of Illinois; Representative David H. Mercer, of Nebraska; Senator Redfield Proctor, of Vermont; Senator J. H. Gallinger, of New Hampshire; Senator George W. McBride, of Oregon; Representative H. C. Loudenslager, of New Jersey; Representative Charles A. Russell, of Connecticut; Representative Wm. C. Lovering, of Massachusetts.

* * *

The City Directory shows 327 men and women bearing the name of Washington. Most of them are colored, and the only plain "George Washington" is a hostler. Martha Washington is a washerwoman; John Adams now runs an oyster depot; Patrick Henry is a Representative from Mississippi; Thomas Jefferson digs sewers; Robert E. Lee is a policeman; Winfield Scott is a clerk in the War Department; the 20 Andrew Jacksons are coachmen, butlers, etc.; Jeff Davis is a carpenter; John Wesley a brick layer; Phil H. Sheridan, a truck gardener; Sir Walter Scott drives a cab; Franklin Pierce is a porter; James Buchanan is a lawyer; Henry Clay a chairvoyant; and Edwin M. Stanton a bartender. There are 10 Andrew Johnsons, one of whom is a Chief of a Division in the War Department; and the other nine, machinists, cooks, laborers, etc.

* * *

With the assistance of Gen. Ludlow, Secretary Root is trying to work out a plan by which a Reserve List shall be constituted of young men fitted for instant military service.

Briefly stated the purpose is to have the military schools and colleges of the country brought into close touch with the Regular Army. The work of officers detailed as instructors in these institution is to be watched and a progress roll of the pupils under their instructions is to be kept.

After the boys go out into civil life it is intended that they shall be kept track of; if they go into the National Guard they will be given opportunities for special courses of military study and thrown as much as possible into the military atmosphere. The result of all this is expected to be that in time of war or emergency necessitating the sudden increase of the army there will be a long roll of available men for appointment.

* * *

Ex-Speaker Thomas B. Reed was in Washington on business one day last week. In the morning he called at several of the Executive Departments and paid his respects to the Secretaries. Later he was at the Capitol, and met some of his former colleagues. He held quite a reception in the Ways and Means Committee room.

* * *

The annual report of the Commissioner of Patents for the year ended Dec. 21, 1899, shows that the total receipts of the office amounted to $1,325,457, a sum but twice exceeded since 1836. After deducting the expenditures for the year there was a surplus of $113,673. The Patent Office has now paid into the Treasury $5,086,649 more than it has drawn out. The number of patents issued, including designs and reissues, was 25,527, a number but once exceeded. The number of patents expiring during the year was 18,135. In proportion to population, more patents were issued to citizens of Connecticut than to those of any other State, one to every 945 inhabitants.

* * *

Senator Hoar is supersensitive and irritable on the subject of his age and feebleness. Recently as he got onto a car, the conductor, noticing his aged appearance, assisted him, whereat the venerable senior Senator from the old Bay State fell into a rage and expostulated vigorously at the audacity of the conductor and the suggestion that he could not take care of himself. The next day, much to the poor employe's despair, Mr. Hoar wrote to the railroad company and demanded his instant dismissal, which request the company very promptly granted, but gave the polite conductor "something quite as good" elsewhere.

* * *

The Secretary of War has ordered the establishment of a regular semi-monthly line between San Francisco and Manila. It is probable that a monthly line will be established between New York and Manila, via the Suez Canal.

* * *

Gen. Ellis Spear, of the Board of Education, called the Senate Committee's attention last week to the fact that the District pays many of its teachers less than the Government does its messengers.

Free to the Ruptured

Dr. W. S. Rice, the Well-Known Authority, Sends a Trial of His Famous Method Free to All.

Out of the chaos of old-time failure comes a new and startling cure for rupture. Dr. W. S. Rice, 329 N. Main St., Adams, N. Y., has invented

MR. CHAS. LANGE.

a method that cures without pain, danger, operation, or an hour's loss of time from the day's work. To avoid all questions of doubt he sends free to every sufferer a free trial of his method, and there can be no earthly reason why any one, rich or poor, should not avail themselves of this generous offer. As an instance of this remarkable method, the cure of Charles Lange, Morrison, Ill., is a welcome piece of intelligence.

Mr. Lange is a well-preserved old gentleman, 72 years of age, and for 18 years had a bad double rupture which no treatment could cope with. After a short use of the Rice method the left rupture healed entirely, and the right was almost closed in a few weeks. To-day he is as sound as a dollar, wears no truss or other support, and his cure is only one of hundreds of similar cases reported by those who use the Rice method. Send for this free trial. Don't be backward. It will surprise you with its wonderful power to heal. And if you know of other ruptured people ask them to write or write for them. Do not fail to write at once. Do so to-day.

A GOD-SEND TO ALL HUMANITY.

Invention of an Ohioan That Guarantees Perfect Health, Strength and Beauty to Every User, and Cures Without Drugs All Nervous Diseases, Rheumatism, La Grippe, Neuralgia, Blood and Kidney Troubles, Weakness, and the Most Obstinate Diseases, by Nature's Method of Steaming the Poisons Out of the System.

Ministers and Those Who Have Used It Declare It to be the Most Remarkable Invigorant Ever Produced, Better than Any Treatment at Hot Springs, Sanitariums or Health Resorts.

A genius of the Queen City has placed on the market a Vapor-Bath Cabinet that has proven a blessing to every man, woman or child who has used it.

Our recent investigation of this remarkable invention was so very satisfactory we have no hesitancy in indorsing the same as just what all our readers need.

It is an air-tight inclosure, in which one comfortably rests on a chair, and with only the head outside, enjoys at home, for three cents each, all the marvelous cleansing, curative and invigorating effects of the famous Turkish Bath, Hot Vapor, or Medicated Bath, with no possibility of taking

cold afterwards, or in any way weakening the system.

Hundreds of well-known physicians have given up their practice to sell this Cabinet—such eminent men as Emerson McKay, Detroit, who has already sold over 700, and John C. Wright, Chicago, who sold 125 last month.

Thousands of remarkable letters have been written the makers from users, some of which, referring to

Rheumatism, La Grippe, Kidney Troubles,

will be interesting to those who suffer from these dread maladies. W. L. Brown, Oxford, O., writes: "My father was down in bed for months with rheumatism. This Cabinet did him more good than $50 worth of drugs." G. M. Lafferty, Covington, Ky., writes: "Was compelled to quit business a year ago, being prostrated with rheumatism and kidney troubles, when your Cabinet came. Two weeks' use cured me. I have never had a twinge since." Rev. Geo. H. Hudson, Okemos, Mich., says: "I gave up my pastorate on account of nervous prostration and lung troubles. My editor so highly recommended your Cabinet I tried it. From that day I have steadily grown better. Am now well. Nervousness gone. Lungs strong. Am a new man." Mrs. Ober, No. 994 Broad St., Columbus, O., writes: "It is grand for curing colds, la grippe, inflammation, aches, pains. It cured my uncle of neuralgia and sleeplessness, with which he had long suffered. A neighbor cured herself of la grippe in one night; her little girl of measles, her son of croup. Another neighbor cured eczema of many years' standing." Hon. A. B. Strickland, of Bloomington, writes that the Cabinet did him more good than two years' doctoring. Entirely cured him of catarrh, gravel, kidney trouble and dropsy, with which he had long been afflicted.

Hundreds of Ministers

write, praising this Cabinet. Rev. H. C. Roernaes, Everett, Kan., says: "It's a blessing. Made me full of life and vigor. Should be in use in every family." Rev. J. C. Richardson, N. Fifth St., Roxbury, Mass., was greatly benefited by its use, and recommends it highly, as also does R. E. P. Kline, of Ottawa University, who says: "I find it a great benefit. No Christian should be without it." Hon. V. C. Hay, St. Joe., Mo., writes: "Physicians gave me up to die. Was persuaded by friends to try this cabinet, and it cured me. I can not praise it enough." Rev. Baker Smith, D. D., Fairmont, N. J., says: "Your Cabinet rids the body of aches and pain, and as cleanliness is next to godliness, it merits high recommendation."

Congressman John J. Lentz, Mrs. Kendricks, Prin. of Vassar College, John T. Brown, Editor "Christian Guide," Rev. C. M. Keith, Editor "Holiness Advocate," as well as hundreds of clergymen, bankers, governors, physicians and influential people recommend it highly.

It Prevents Disease,

and physicians are unanimous in claiming that colds, la grippe, fevers, smallpox, consumption, kidney trouble, Bright's disease, cancer—in fact, such marvelous eliminative power has this Cabinet that no disease can gain a foothold in your body if you take these hot Thermal Baths weekly. Scientific reasons are brought out in a very instructive little book, issued by the makers. To

Cure Blood and Skin Diseases

this Cabinet has marvelous power. Dr. Shepard, of Brooklyn, states that he has never failed to draw out the deadly poison of snake bites, hydrophobia, blood poison, etc., by this Vapor Bath, proving that it is the most wonderful blood purifier known. If people, instead of filling their systems with more poisons by taking drugs and nostrums, would get into a Vapor Bath Cabinet and steam out these poisons, abt assist nature to act, they would have pure blood, and a skin as clear and smooth as the most fastidious could desire.

The Important Feature

of this Cabinet is that it gives a hot vapor bath that opens the millions of pores all over the body, stimulating the sweat glands, drawing out all the impure salts, acids and effete matter, which, if retained, overwork the heart, kidneys, lungs, and cause disease, debility and sluggishness. Astonishing is the improvement in health, feeling and complexion. The first bath makes you feel like a new being—10 years younger.

With the Cabinet, if desired, is a

Head and Complexion Steamer,

in which the face, head and neck are given the same vapor treatment as the body, producing the most wonderful results; removes pimples, blackheads, skin eruptions, cures Catarrh, Asthma and Bronchitis.

O. C. Smith, Mt. Healthy, O., writes: "Since using this Cabinet my Catarrh, Asthma and Hay Fever, with which I have been afflicted since childhood, have never returned. Worth $1,000 to me. I have sold hundreds of these cabinets. Every one was delighted. My wife finds it excellent for her ills."

Whatever

Will Hasten Perspiration

every one knows is beneficial, but other methods are crude and insignificant, when compared to the convenient and marvelous curative power of this Cabinet, known as the new 1902 style

Square Quaker Folding Thermal

Bath Cabinet. We find it to be a genuine Cabinet, with a real door, opening wide as shown in cut. When closed it is air-tight, handsomely made of best, most durable, water-proof goods, rubber lined. A heavy steel frame supports it, making it a strong and substantial bathroom within itself. It has top curtains; in fact, all the latest improvements.

The makers furnish an excellent stove with each Cabinet; also valuable recipes and formulas for medicated baths and ailments, as well as plain directions. It folds flat in one inch space, when not in use; easily carried; weighs but 10 pounds.

People don't need bathrooms, as this Cabinet may be used in any room, and bathtubs have been discarded since this invention, as it gives a far better bath for all cleansing purposes than soap and water. For the sick room its advantages are at once apparent. There have been

So-Called Cabinets

on the market, but they were unsatisfactory, inconvenient, simply cheap, flimsy affairs.

After investigation we can say the Quaker Cabinet made by the Cincinnati firm is the only practical article of its kind, and will last for years. It seems to satisfy and delight every user, and the

Makers Guarantee Results.

They assert positively, and their statements are backed by a vast amount of testimony from persons of influence, that this Cabinet will cure Nervous Troubles, Debility, Purify the Blood, Beautify the Skin and cure Rheumatism. (They offer $50.00 reward for a case not relieved.) Cures the most obstinate cases of Women's Troubles, La Grippe, Sleeplessness, Neuralgia, Malaria, Headaches, Obesity, Gout, Sciatica, Eczema, Scrofula, Piles, Dropsy, Blood and Skin Diseases, Liver and Kidney Troubles. It will

Cure the Worst Cold

with one bath, breaks up all symptoms of La Grippe, Fevers, Pneumonia, Consumption, Asthma, and is really a household necessity. Gives the most

Cleansing and Refreshing Bath

known, and all those enjoying health should use it at least once or twice a week, for its great value is its marvelous power to draw out of the system all impurities that cause disease, and for this reason is truly a God-send to all humanity.

HOW TO GET ONE.

All our readers who want to enjoy perfect health, prevent disease, or are afflicted, should have one of these remarkable Cabinets. The price is wonderfully low. Space prevents a detailed description, but it will bear out the most exacting demand for durability and curative properties.

Write the World Mfg. Co., 1400 World Building, Cincinnati, Ohio, and ask them to send you their pamphlets describing this invention. The price is wonderfully low, only $5.00, complete, with heater, directions and formulas. Head Attachment, if desired, $1.00 extra, and it is indeed difficult to imagine where one could invest that amount of money in anything else that guarantees so much health, strength and vigor.

Write to-day for full information; or, better still, order a Cabinet. You won't be disappointed, as the makers guarantee every Cabinet, and agree to refund your money after 30 days' use if not just as represented.

We know them to do as they agree. They are reliable and responsible. Capital, $100,000.

The Cabinet is just as represented, and will be shipped promptly. You can remit safely by express, P. O. money order, bank draft, or certified check.

Don't fail to send for booklet, anyway.

The Cabinet is a Wonderful Seller

for agents, and the firm offers special inducements to both men and women upon request, and to our knowledge many are making from $100 to $150 every month, and expenses.

New York Union Veteran Union.

EDITOR NATIONAL TRIBUNE: W. B. Cushing Regiment, No. 1, U. V. U., New York City, celebrated the anniversary of the battle and capture of Fort Fisher by a joint installation on Monday, Jan. 15. The installation ceremonies were ably conducted by Maj.-Gen. H. Stewart, commanding Army of New York and New Jersey, U. V. U., assisted by his efficient staff, Ass't Adj't Gen. Hall, Ass't Q. M.-Gen. Jas. K. P. Garrison, Chief of Staff Robt. Muir, and Aids M. Brennan, Jno. A. Lawton, E. N. Mabie, Solso Dean, C. A. Brown. All in full uniform. The objects of the Order were very fully explained by Gen. Stewart.

Gen. Stewart on the 19th proceeded to Middletown, N. Y., to install the officers of the 11th Regiment. Capt. W. D. Fuller, accompanied by Col. Geo. Hall, Col. Jas. K. P. Garrison, and other members of the staff, were met on arrival in Middletown by Col. A. B. Wheeler, Col. Keeler and Col. Dayton, Postmaster of the City of Middletown, and a large delegation of the comrades, and were escorted to the hotel. The General and his staff were later escorted to Regimental Headquarters, where Maj.-Gen. Stewart, with an able and very impressive service, installed the officers. Speech-making then being in order, Maj.-Gen. Stewart was called on and very ably explained the objects of the Union Veteran Union. During the course of his remarks he paid a high tribute to Commander-in-Chief R. G. Dyrenforth for his labors in behalf of the comrades of the Order, and his deep interest in the welfare of the Union Veterans' Union. On the 30th of January Gen. Stewart installed the officers of the 15th Regiment (Hancock) and the officers of Hancock W. V. R. U.—COL. GEO. HALL, Assistant Adjutant-General.

Reunions.

The 65th Ill. will hold a Reunion in Chicago, Ill., during the National Encampment in August, 1900. All members of that regiment are requested to send their present address to the Secretary, Reunion Association, C. B. Bristol, 315 North Third street, Monmouth, Ill.

BRIDGEPORT, CONN., Jan. 15, 1900.
EDITOR NATIONAL TRIBUNE: Last week I received the Cook Book, which you so kindly sent, and I am very much pleased with the contents. I appreciate your favor and shall work for your interest whenever I can. MRS. F. O. SMITH.

FERRY'S SEEDS

Always cheaper in the end than any seeds that only cost half as much. Tested, true to name, fresh and reliable. Always the best. Ask for Ferry's—take no others. Write for 1900 Seed Annual.

D. M. FERRY & CO., Detroit, Mich.
