

A HEMP ENQUIRY RECESS.

The Senate Sub-Committee Adjourns Until November 18.

General Corbin Again Called—Major Hawks' Emphatic Testimony—Judge Mackey Threatens Proceedings to Impair Secretary Root.

Excepting the testimony of two witnesses, the hemp investigation was concluded yesterday afternoon at 3:30 o'clock. The sub-committee of the Committee on Military Affairs, which, since September 23, has been conducting the investigation of the charges preferred by Major F. L. Hawks against Lieut. Col. H. O. S. Helstand, will meet again November 18. Senator Hawley, chairman of the sub-committee, states that probably three or four days will then be consumed in examining the remaining witnesses. The committee will then complete its report.

The resolution directing the Committee on Military Affairs to investigate Major Hawks' charges was introduced in the Senate by Mr. Pettigrew last March. The charge includes as being associated with Lieut. Colonel Helstand in the alleged formation or efforts to organize a combination for the purpose of controlling the hemp output of the Philippine Islands, the names of George D. McKeljohn, then Assistant Secretary of War; James E. Boyd, Assistant Attorney General; Charles F. Allen, then Assistant Secretary of the Navy; and H. C. Corbin, Adjutant General, United States Army.

The name of Secretary Root not having been included in the resolution, all efforts on the part of Major Hawks to connect his name with the affair have been investigated have been persistently rebuffed by the sub-committee.

After adjournment yesterday Judge Mackey, counsel for Major Hawks, stated in the latter's presence that as soon as Congress met he intended having offered in the Senate a resolution directing an investigation of Secretary Root's connection with Helstand & Co. in their operations in the Philippines.

Plut, Edgely & Co., of New York City, are the largest hemp dealers in the world. They are rated at millions and their ships ply many seas. Judge Mackey says the Secretary of War has a personal interest in the matter, and that he, Mackey, has in his possession positive proof that this Helstand-Hawley enterprise was squashed by Secretary Root at the request of the latter.

From the testimony of many of these witnesses (referring to those examined in the present investigation) there should be more help in the country.

The investigation was resumed yesterday at noon. Major Hawks took the stand and was questioned as follows: Q—By Judge Mackey—State whether you demanded to know the cause of your removal, and by whom you had been removed.

A—I did. Q—Of whom? A—Of the Secretary of War. The day after my return I called on the Secretary of War.

Q—Did you see him? A—Yes, I did. Q—What was the cause of the removal? A—That was the purpose of the investigation.

Q—Did you see him? A—Yes, I did. Q—What was the cause of the removal? A—That was the purpose of the investigation.

Q—Did you see him? A—Yes, I did. Q—What was the cause of the removal? A—That was the purpose of the investigation.

Q—Did you see him? A—Yes, I did. Q—What was the cause of the removal? A—That was the purpose of the investigation.

Q—Did you see him? A—Yes, I did. Q—What was the cause of the removal? A—That was the purpose of the investigation.

Q—Did you see him? A—Yes, I did. Q—What was the cause of the removal? A—That was the purpose of the investigation.

Q—Did you see him? A—Yes, I did. Q—What was the cause of the removal? A—That was the purpose of the investigation.

PREPARING HIS MESSAGE.

The President Engaged in Transcribing Matters of Minor Import.

To Be a terse but exhaustive document—Matters Wait Upon Mr. Roosevelt—Complaint of Discriminating Rates for Export Flour.

President Roosevelt has begun the preparation of his message to Congress. He is now taking up certain matters upon which he has gained sufficient information to form definite views. The length of the message is as yet uncertain, but it is understood that it will be a very lengthy one. As he is now taking up certain matters upon which he has gained sufficient information to form definite views.

As Mr. Roosevelt is a concise and practiced writer, it is to be expected that he will express his views exhaustively, but tersely. The subjects upon which he has the greatest importance are those of the greatest importance. Affairs in which conditions will scarcely change between now and the opening of Congress, and which if now prepared, will be practically out of the way, are those with which he is dealing.

Subjects of greater moment, the Cuban election law, reciprocity and reciprocity treaties, the Nicaragua canal, have the attention of the President, and will be taken up until they have been thoroughly discussed in Cabinet meetings. Four members of the Cabinet have been absent from Washington for some time, and will not return for perhaps a fortnight. The President has not yet taken up the cable matter, which has been touched on in a general way.

In the preparation of his message, Mr. Roosevelt will refer to the fact that he has not yet taken up the cable matter, which has been touched on in a general way. The President has not yet taken up the cable matter, which has been touched on in a general way.

The trouble as explained by M. H. Davis, of the Winter Wheat Millers' Association, is that the millers had to carry nearly 10 cents less per hundredweight to carry wheat in the raw to the seaboard for export than they do to carry flour for export the same distance. This, of course, affects seriously the ability of American millers to compete with foreign millers on an equal basis with flour manufactured in foreign countries from American wheat.

The millers think that the Interstate Commerce Commission should have the authority to remedy the existing unsatisfactory condition of affairs. President Roosevelt may make mention of the subject in his message to Congress. He announced the matter yesterday that he would give this matter careful consideration.

The delegation to the Illinois State Convention, which was held at Chicago, Ill., Oct. 9, consisted of M. H. Davis, of Shelby, Ohio, of the Winter Wheat Millers' Association; C. H. Scott, of the St. Louis Millers' Association; and E. J. Bacon, of Milwaukee, the President of the National Association of Millers, which has numerous connections with the milling industry.

Factors Mason & Culbertson of Illinois called together at the White House yesterday. The President for half an hour yesterday afternoon. The President for half an hour yesterday afternoon.

Costa admits having been sleeping in the office of the railroad company and the officers believe that his sources of supply deserve investigation. The Treasury Department officials are engaged on the case, their activity being occasioned by the discovery of the lost revenue stamps. Costa is charged with receiving stolen property, while several charges of petty larceny stand against Turner.

BOERS TO BE DEPORTED.

Thirty-four Prisoners on Their Way to Bermuda.

Bloumfontein, Oct. 8.—Thirty-four prisoners who were allowed to reside in the refugee camp at Brandfort lately attending to the matter to be deported to Bermuda.

A troop of constabulary and burgher police, while making a night march from Myburgersfontein to the Modder River, surprised and captured ten of Boster's commandos at Waterford. They also captured five horses, rifles, carbines, saddles and carts. One of the prisoners acknowledged that he killed Lieutenant Coetzee, of the burgher police, a month ago, but said that the killing was done by order of the Commando leader.

The weather being unusually good, the boatmen of the Harvard eleven throughout the children of whom there are a dozen or more in the command, particularly Captain Hilliard, of the Old Dominion Line, was in charge of the vessel. The men helped each other in the rowing, and they were in comfortable bunks were provided. They drew travel trunks before being allowed aboard, but meals were supplied them by the ship company also.

Each morning on board delightful concerts were given by the band of the Harvard eleven, which consists of twenty-four pieces and is said to be one of the best army bands in the service. The leader is Julius Kaminsky. Regular guard mount was held each day.

The unloading of the baggage and the school equipment began immediately after the ship's arrival. It was completed just before daylight this morning, when the steamer would start for Norfolk. The school equipment includes that of the cadets and electrical equipment and consists of a full pontoon bridging outfit, engineers' wagons, surveyors' instruments and tools, and a large quantity of books and maps.

BARRACKS' NEW TENANTS.

Engineer School Takes the Fourth Artillery's Old Quarters.

Arrival of Officers and Men by Boat From New York—Wives and Children in the Party—The Battery Ordered Temporarily to Fort Myer.

Washington Barracks, which up to yesterday was the post of the Fourth Battery of Field Artillery, commanded by Captain Parkhurst, is now the station of the United States Engineer School.

The steamer Gyandotte, of the Old Dominion Line, carrying the officers and their families, and the men and their families, of Companies I, K, and L, of the 10th Battalion of Engineers, and the equipment of the Engineer School, arrived at the Government wharf at Washington Barracks yesterday afternoon at 3:30 o'clock, about five hours earlier than expected. The steamer, which had been chartered by the Government to transport the Engineer School to Washington, left Willet's Point, L. I., Tuesday morning at 6 o'clock. The battalion was under the command of Major William Murray Black, Corps of Engineers. He was accompanied by Mrs. Black and their four children. The other officers of the command were as follows: Capt. Francis Rawn Shunk and Lieut. Thomas Jackson, Company A; Capt. C. H. McKinstry, and Lieut. E. C. Boggs and H. C. Jewett, of Company K; Captain McIndoo and Lieut. T. L. Smith and P. W. Poole, of Company L; Adj. W. P. Wooten and Quartermaster John Conroy, Quartermaster Commandant and arrived several days before Captains McKinstry and McIndoo were accompanied by their wives and children. Major Carter, surgeon, U. S. A., accompanied the command as medical officer.

The weather being unusually good, the boatmen of the Harvard eleven throughout the children of whom there are a dozen or more in the command, particularly Captain Hilliard, of the Old Dominion Line, was in charge of the vessel. The men helped each other in the rowing, and they were in comfortable bunks were provided. They drew travel trunks before being allowed aboard, but meals were supplied them by the ship company also.
