**A Great Exhibit of**  
**Fine Tapestry**

In our Upholstery Department. The work of A. M. Pellinsky, who claims it to be worth \$100,000.00. It required the maker six years almost constant work to complete this wonderful piece of human art. It represents America from the discovery by Columbus up to the year 1892. It is impossible to describe this piece through the medium of printer's ink, because the details are too great and numerous. On exhibition third floor, in our Upholstery Department, where it can be seen and explained by Mr. Krohn, who will be pleased to demonstrate every little part of this most wonderful masterpiece.

It is your chance to save many dollars, and, too, if the purchases are large enough.
