National Republican.

NEWSPAPER PUBLISHERS HAD THEIR PERPLEXITIES A HUNDRED YEARS AGO.—A very well-conducted newspaper, called THE BOSTON CHRONICLE, "Printed every Monday & Thursday, (Price only Six Shillins & Eight Pence Lawful, Per Annum) by Mein & Fleming, at their Printing Office in Newbury-street, where, & at the London Book-store North side of King Street, Subscriptions, Advertisements, Articles & Letters of Intelligence, are gratefully received,——," in its issue of March 23-27, 1769, makes the following appeal to its subscribers, which is copied for its historical value:

☞ Tho' The Boston Chronicle is the only Newspaper in America published twice a week, & for the small price of 5s. sterling or 6s. 8d. Lawful money, per annum, yet several of our Subscribers have lately sent Letters informing us, that one of their week's papers has miscarried, the postage of which we must charge to their accounts; for it would be unreasonable to be obliged to pay from six pence to a shilling Sterling postage (which we have lately done) for what we are to receive only one copper, which is about the price we receive from our Customers for each Chronicle. We therefore desire that, for the future, they would either pay the postage of their letters, or send them by a private conveyance.

In the same issue is recorded the death of Col. Henry Dassal, "at his seat in Cambridge," on Friday night the 17th instant. Also reward of eight dollars to any one who, who on or when he went away "a gray bear-skin double-breasted jacket, with large white metal buttons, and striped under ditto, long striped trowsers, with leather breeches under them, a sailor's Dutch cap, tells a very plausible story upon any extraordinary occasion." It appears from the same advertisement that Cato ran away from George Watson of Plymouth, and was supposed to have taken with him a "molattoe wench" named Kate Daniel.

THE Dubuque *Times* of the 26th gives an account of a murderous riot at the little town of Alma, on the Upper Mississippi. It appears that a party of lumbermen, on their way down the river, stopped at Alma, and, being refused whisky at the stores, set themselves about "cleaning out" the town, plundering houses, etc. The Sheriff and his deputy attempted to arrest the desperadoes, and both were shot dead. The citizens, mostly Germans, thereupon armed themselves, and after a vigorous fight, drove the murderers from the place. Full particulars of the affair have not been received, but it is supposed that several of the lumbermen were killed.

POSTAL RULES.

Many errors occur by persons not observing the following regulations in depositing letters, papers, or miscellaneous publications for mailing:

All drop letters must be prepaid by postage stamps.

Prepayments by stamps required on all letters to places within the United States.

Full prepayment by stamps required on all transient printed matter, foreign and domestic.

All letters not prepaid by stamps; all such as are received in the office with stamps cut from stamped envelopes, or with such postage stamps as were in use prior to 1861, or with revenue stamps on them, are "held for postage" and sent to the Dead Letter Office.

An impression seems to prevail that letters for Georgetown only require two cents, or local rates of postage. Georgetown being a separate office, full prepayment by three cent stamp is required.

By inserting the county in which the office is located upon all letters, many errors in superscription might be detected and mistakes in mailing be avoided.

TERRITORIAL.

All matters conveyed by mail westward, beyond the western boundary of Kansas, and eastward, from the eastern boundary of California, except one newspaper to a bona fide subscriber, and franked matter, must be prepaid at letter rates.

Postage Stamp Depots—Local agents for the sale of postage stamps and stamped envelopes, have been established at the following places, where the public can always be supplied:

C. M. Robinson, corner of Tenth and N streets; D. P. Hickling, corner of Third and Pennsylvania avenue; P. H. Heller, corner of Seventh and N streets; R. D. Entwisle, corner of Twelfth street and Pennsylvania avenue; R. B. Clark, corner of Four-and-a-half and M streets south; E. B. Bury, corner of Third street east and L street south; R. B. Ferguson, corner of First street east and Pennsylvania avenue; Brown & Co., corner of Seventeenth street and Pennsylvania avenue; C. H. Haup & Co., corner of Fourteenth and N streets; W. S. Thompson, corner of Fifteenth street and New York avenue; W. H. Fearson, No. 114 Pennsylvania avenue; F. D. Bowling, corner of Four-and-a-half and C streets south.

Registry Office—Valuable letters for any part of the United States, Holland, United Kingdom, Italian States, Africa, East Indies, Egypt, Falkland Islands, China and Australia, will be registered on application at the office.

Money Order Office—Especial attention is called to the money order system as a safe and cheap method of transmitting small sums through the mails. Orders are issued in sums of not more than $50. Larger amounts can be transmitted to the same person at the same time by additional orders.

RATES.—On orders not exceeding $20, 10 cents; on orders over $20 and up to $50, 25 cents.

Free Delivery—On the first day of July the letter carriers will make four deliveries and five collections, daily, in the central portions of the city, and from two to three deliveries on the outside districts.

No necessity exists for persons calling for their mail at the office, as this change will accommodate those who desire to receive their mail with promptness and dispatch.

The carriers are honest and capable, and the public can rely upon being served faithfully.

The collections from street boxes will be made frequently enough to accommodate those who desire to send local letters from one section of the city to another, and they will find it greatly to their advantage to use the carrier system for this purpose.

The deliveries will be made at 7, 8:30 a. m., and 1 and 5 p. m.

The collections at 6:30, 9, 10 a. m., and 2 and 5:30 p. m.

Collections from outside districts will be made in time for mails going North, South, and West.

In making the early delivery the carriers anticipate much delay. This may be obviated by householders adopting the door letter box.

It is hoped that the citizens will immediately provide letter boxes. By that means, at a very moderate expense, they can promote the convenience of themselves and the neighbors, and at the same time render an important aid to the public service.

A request for the return of a letter to the writer, if unclaimed within thirty days or less, written or printed, with writer's name, post office, and State across the left end of the envelope, on the face side, will be complied with.

Letters bearing such endorsements will be returned to the writer free of postage.

Persons wishing their mail matter delivered by carrier will please leave orders at the post office, or with any carrier.

Instructions have been given to the clerks in sons renting the same, or on their written orders, or to those known by the clerks to be authorized to receive them.

The rules of the office, made in pursuance of instructions from the post office department, forbid persons not in its immediate employ, or otherwise connected with its official transactions, from entering upon the floor. It is hoped that no one, whatever his position, will attempt to violate these rules, as they will be hereafter rigidly enforced. The chief clerk will answer the calls of such as have business that cannot be transacted by the clerks at the windows.

Persons having grievances against the office on any account, will please report the fact in writing, or in person, to the postmaster or chief clerk.
