rips open army air service

By George F. Holmer

A controversy which threatens to "rip air service wide open" is on in earnest today as a result of the demand made by Maj. Gen. Charles T. Mencher, chief of air service, that Brig. Gen. William Mitchell, his first assistant, be relieved of his duties.

The controversy is over a proposed method of the payment of the air service, which is a part of the Army which is to be given a separate budget. This budget is to be separate from the Army budget, and is to be paid for by the Treasury.

The controversy is over the payment of the air service, which is a part of the Army, but is to be given a separate budget. This budget is to be separate from the Army budget, and is to be paid for by the Treasury.
