Speer's Sambuci Wine.

A gentleman in New Jersey, named Speer, cultivates the Portugal grape, a rare fruit, from which he makes an excellent wine, without the use of sugar or spirit, that is becoming celebrated among medical gentlemen in our large cities, and used in hospitals as a superior article. Phy-icians recommend it as an invaluable article for weakness and general debility. It is a very gentle stimulant, and at the same time a rich, nutritive wine, possessing the virtues that make it valuable for weakly persons and for general family use. Some of our doctors say it it is superior to port, or other wines.—*New York Express Post.*

Our druggists have been getting some that is four years old, direct from the vineyard in New Jersey. It is called Speer's Sambuci Wine, and the price is low, which brings it within the reach of all classes. It is said to be excellent for females, and has already been ordered by parties in Europe, who regard it superior to French wines.

A Snow Storm.

Yesterday our city was very unexpectedly visited by a regular old-fashioned snowstorm, the first of the season, which commenced about 7 o'clock in the morning and lasted until night. It is a strange scene to witness the green trees covered with a mantle of snow. Housetops, streets and yards were covered with the sheeted drapery. Overshoes and overcoats were in great demand yesterday. Stoves and other warming apparatus met with prompt sale, and a general "winterish" appearance pervaded the city. This will soon disappear, and our streets will become a pool of filth, slop and mud, as usual. "Our poor soldiers, in camp and on the march, will have to suffer," was the oft-repeated remark of the thoughtful and patriotic, whom we met on the streets and elsewhere. "God bless and preserve them," say we.

Sick Soldiers.

Arrangements are now being made by Dr. Smith, our excellent medical director, to provide for the large number of sick soldiers left by the divisions of the army now in motion. The men are left in uncomfortable tents on the field, and will be brought here as rapidly as possible. The hospital accommodations of this city will be greatly extended in a few days, by the opening of the two new hospitals now building. These hospitals are to be named respectively "Lincoln" and "Stanton." The former is located east of the Capitol and the latter opposite Douglas hospital. This last is now called Federal hospital. The medical director deserves great credit for his untiring fidelity in the discharge of his onerous duties.

Fire Yesterday.

About 4 o'clock yesterday afternoon, fire was discovered in the upper part of house No. 484 Tenth street. An alarm was raised and in a few minutes the Perseverance and Franklin Fire companies were promptly on hand and commenced work in real earnest. By their united efforts the building and furniture was saved although the fire had obtained considerable headway on the roof. The building was damaged to the amount of only about $400. It is owned by Antonio Best, and was occupied by Miss Huffman and other German women. The police were present and prevented the loss of property by keeping the rabble out of the house.

Expressing Secesh Sentiments.

On Thursday last as our citizens were visiting the Monitor at the navy yard, a drunken man by the name of Compton, said to be a clerk in one of the departments, came on board of the vessel, and after examining her as much as he wanted, he went into one of the offices in the yard, and declared that he was a Southern man and he hoped the South would be successful, and that the Monitor was a d—d humbug, and talk of that sort, until he was arrested and placed in the guardhouse until he could be transferred to the Old Capitol prison, to which place, we understand, he was transferred yesterday. Served him right.
