HURRICANE TOLL 1,000 DEAD, 2,500 INJURED

German Fliers Greeted By President ROBBERS RETURN ALL BUT \$1,453

LAWYER SAYS ALL WILL BE RESTORED

Men Say They Were Too Drunk to Recall Where or How Missing Money Was Spent

A check-up on the money returned by Roy Beall and Fred E. Nalley, which they admitted taking from the office of the Southern Dairies, Inc., Sunday night, showed they had spent \$1,453.

Records of the company office showed there was approximately \$15,000, of which \$3,000 was in checks, in the safe.

According to Attorney F. Joseph Donoghue, who represents the two men, full restitution will be made. He is endeavoring to secure the release of his clients on a nominal bond.

Answer Questions Freely
Representatives of the company, headquarters detectives and Donoghue questioned Beall and Nalley today. The attorney instructed both men to talk freely, but to sign no statements until he had an opportunity to read them.

Both men said they had been intoxicated and were vague in their stories as to where they spent the money or what places they stopped in the few days between the robbery and their voluntary surrender to local authorities yesterday.

Mrs. Mary Beall, mother of one of the accused, is prostrated at her home. She had been ill for several weeks and when told of her son's complicity collapsed. Just what arrangements will be made between officials of the company and the bonding firm which went on security for Beall, the assistant cashier, are not known.

Hope for Leniency
Donoghue expressed belief that when restitution is made the company officials will not press charges against the men too strongly. Neither had ever been in trouble before and according to their sketchy stories, liquor was responsible for their act.

William J. Whalan is still being held on a grand larceny charge. He was given \$100 the night of the robbery to keep quiet about the visit Beall and Nalley paid to the office. His story of his part was borne out by the two men who have practically exonerated him of any actual participation in the theft. Another interview is to be held this afternoon between Donoghue and headquarters detectives.

Colombian Ex-Consul Missing From Boat

NEW YORK, Sept. 5 (I.N.S.).—Dr. Genaro Payan, on his way back to Colombia after serving here as consul general, disappeared from the Panama mail liner Santa Rita, according to a message received here today. He was missed early yesterday while the liner was steaming through a calm sea, according to word from the ship's commander. Dr. Payan sailed for home with his wife and three children.

German Fliers Meet Hoover Today

ALBRECHT HACK ZIMMER VON GRONAU
THESE FOUR GERMAN FLIERS, one an instructor, and the others his students, will be greeted today by President Hoover. The four airmen, who flew to America by way of Iceland and Greenland, are making a hurried trip to the Capital for that purpose. They are Fritz Albrecht, radio operator; Franz Hack, mechanic; Edward Zimmer, student, and Capt. Wolfgang von Gronau.

COSTE TO STOP IN LOUISVILLE

DALLAS, Tex., Sept. 5 (I.N.S.).—Refreshed with a full night's sleep and richer by \$25,000, Capt. Dieudonne Coste and Maurice Bellonte, arose, early this morning and began preparations for their return to New York. En route they propose to stop overnight at Louisville, Ky.

Captain Coste planned to take off from Love Field, where he and Bellonte were greeted yesterday afternoon by 20,000 Texans after a nonstop flight here from New York, at about 8 o'clock this morning. He expected to arrive in Louisville about mid-afternoon, pausing there for the night before going on to New York.

The Frenchmen arose at dawn and went to Love Field where Coste superintended the refueling and inspection of the big red sesquiplane Question Mark.

He and Bellonte hovered close around the machine which brought them over the Atlantic Ocean from Paris, watching every minute detail of its refueling and adjustment for today's long flight.

Both felt much better than they did last night after a 1,200 mile non-stop flight and half a night of being fêted by hundreds of Dallas people. It was the first real rest they had had, Coste said, since they landed in New York Tuesday. Captain Coste said:

"Our flight to Dallas was per-

Widener Pays \$1,000 a Day to Keep Rain Away

BELMONT PARK, Sept. 5. Joseph E. Widener has authorized the installation of what is called a radio-control machine at Belmont Park by which its inventors promise they can control the elements.

Under the agreement of this new insurance for fair weather the Westchester Racing Association is to \$1,000 a day, while there will be a forfeit of \$2,000 a day for days on which it rains.

This weather control company claims it is able to absolutely prevent rain for a radius of 25 miles from any given point. It also promises to bring rain to any given place where the machine is installed and in fact submitted a proposition to President Hoover to relieve the drought that wrought such havoc to the farmers of the West.

Widener is willing to be convinced and the work of installing the machine at Belmont Park is nearly complete.

Double-Crosser Slain By Lifer in Prison

OSWING, N. Y., Sept. 5 (I.N.S.).—A grudge of the underworld was blamed today for the murder of Joseph R. Klune, 28, a long-term Sing Sing prison inmate.

Harry Lipschitz, 26, a lifer, confessed he had stolen a bread knife and killed Klune because, he charged, his victim had double-crossed him in dividing a bank robbery loot.

IRIGOYEN HOLDS ANOTHER DAY

BUENOS AIRES, Sept. 5 (I.N.S.).—The political situation in the Argentine reached a crisis today when the cabinet ministers in a body, confronted President Hipolito Irigoyen with a request that he resign. It was learned from a reliable source.

The President, it was reported, met his ministers in the presidential palace and was secluded with them most of the night. He listened to their pleadings quietly and did not utter a word until the spokesmen presenting the demand for his resignation had finished.

BOYD AND CONNOR LIFT ATTACHMENT

MONTREAL, Sept. 5 (I.N.S.).—Capt. J. Erroll Boyd and Lieut. Harry P. Connor who are planning a hop from Harbor Grace, Newfoundland, to London, in the monoplane Columbia, said today they probably would not start for several days. They are waiting favorable winds.

John O'Brien, backer of the flight, has posted bond to lift an attachment on the plane. The attachment was made by Roger G. Williams, noted American aviator, as agent for its owner, Charles A. Levine.

The flyers expect the hop from Harbor Grace to London will take 22 hours.

BANDIT FOUND DEAD

DETROIT, Sept. 5 (I.N.S.).—William Butler, alias Banner, 38, alleged by police to have been an internationally known bank robber and confidence man, was found dead in his cell at police headquarters here today. Police said that death was due to heart disease.

GERMAN FLIERS GREETED BY HOOVER

Gronau Dinner at Embassy To Be Informal Affair; Mechanic and Pilot Along

Capt. Wolfgang von Gronau, and his three companions who recently crossed the Atlantic in a giant Dornier Superwal flying boat, are visitors in Washington today and were received by President Hoover at the White House at noon. Arrangements for the visit to the White House were made by Clarence M. Young, Assistant Secretary of Commerce, who introduced the fliers to the President.

While here, the fliers will be guests of Dr. Otto C. Kiep, German charge d'affaires, at an informal dinner this evening at Dr. Kiep's residence.

It was announced at the German embassy yesterday that the trip to Washington had not been originally planned and that arrangements had been made very quickly and will therefore not admit of a formal reception, the chief purpose of the visit being the White House reception.

The other fliers, besides von Gronau, to be received are Edward Zimmer, aviation student; Franz Hack, mechanic; and Fritz Albrecht, wireless operator.

FIRE AND WINDS HALT SEA HOPS

BOSTON, Sept. 5 (I.N.S.).—Undaunted by the destruction by fire of the fuselage and right wing of his monoplane, Russell N. Boardman, the American Legion aviator, was making plans today to start on his round-trip transatlantic flight within two weeks.

The \$25,000 plane, which had been damaged to the extent of \$6,000 on the eve of Boardman's take-off to Newfoundland, was en route to the Newcastle, Del., factories of the Bellanca Company for repairs and the airman went to New Bedford, en route to Delaware, to request speed on the repairs.

Boardman, who plans to hop from Harbor Grace, Newfoundland, said he hoped to start repair work on the plane at once.

CARL PANZRAM SCOWLS AS HE IS EXECUTED

Murderer From D. C. Pays Extreme Penalty; Issued Threats to Court Heads

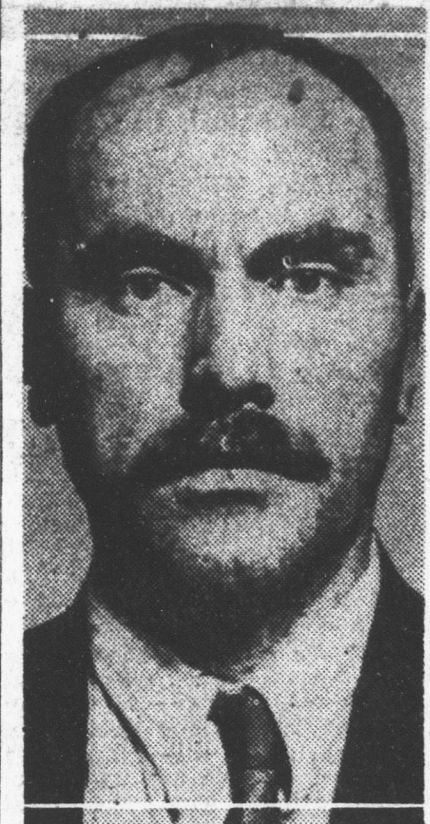

Surly and defiant until the end, Carl Panzram, 45, met a murderer's death with a scowl on the gallows at Leavenworth (Kan.) penitentiary, today.

The first man to pay the supreme penalty in Kansas in 40 years, Panzram was put to death for the murder of Robert Warnke, foreman of the prison laundry, early in the summer.

Panzram, who boasted of committing more than a score of murders during his life of crime, attacked Warnke in the prison laundry and clubbed him to death.

Confessed Murders

Arrested here in September, 1928, on a housebreaking charge, Panzram startled the nation with confessions of brutal murders of

CARL PANZRAM

several children in Eastern States. Hauled into the District Supreme Court on the housebreaking charge, Panzram was sentenced to a 25-year term by former Chief Justice Walter I. McCoy, following one of the most thrilling trials in the annals of the court.

Classified as the most dangerous prisoner ever incarcerated in the District Jail, Panzram was transferred to the Kansas penitentiary on January 30, 1929.

Panzram spent his last hours on earth reading "continued" stories in a woman's magazine. He declined religious solace and

Science Says Gideon's Foes Were Slain By Meteors

CHICAGO, Sept. 5.—The tenth chapter of Joshua tells of the defeat of the five hostile kings who had launched a campaign against the royal city of Gideon. The Gideonites had made peace with the children of Israel, and Joshua himself rallied to the defense of the city.

"And it came to pass, as they (the allied armies) fled from before Israel . . . that the Lord cast down great stones from heaven . . . and they died; there were more which died with hailstones than they whom the children of Israel slew with the sword."

Despite the fact that the translators seem to have agreed on hailstones, scientists assembled for the annual meeting of the

A NEW FEMINE solo flying endurance record is claimed by Maryse Bastie, French aviatrice, who landed at Le Bourget field after 37 hours and 55 minutes in the air.

BROWNLEY LEFT \$1,200,000

Walter Brownley, candy manufacturer and real estate owner, who died March 20, left an estate valued in excess of \$1,200,000, according to his will, which was admitted to probate today.

Justice Joseph W. Cox, of the District Supreme Court.

The estate comprises cash, bank stocks, stocks in the candy firm and principal ownership of the Brownley Investment Company, the real estate business sponsored by the testator.

Although Mr. Brownley in his will provided that his wife, Mrs. Emma Brownley, should inherit his entire estate on September 7, 1923, he entered into a trust agreement with the National Metropolitan Bank, James H. Johnson and Edward R. Brownley, whereby annuities of \$12,000, \$2,000 and \$1,500 were to be paid to his wife, a sister, Clara Bailey, and a brother, William C. Brownley, respectively.

The agreement provided that on the death of the beneficiaries the entire estate would then be distributed among a number of hospital, asylums and charitable institutions, with a further provision that Edward R. Brownley and E. J. Leenitzer were to continue in the candy business.

Jesse C. Adkins, today however, set the trust agreement aside on consent of the parties at the same time the will was admitted to probate. This action followed a petition on the part of attorneys Frank J. Hogan and Edmund L. Jones, on grounds that it was deficient in law.

The bill to certify the agreement was in the nature of a friendly proceedings and the legal proposition was submitted to the court in the answer filed by the trustees' attorneys, the firm of Peele, Ogilby and Lesh.

It was explained by counsel that the parties had entered into a new trust agreement which extended legal benefits to the widow and other relatives and at the same time comply with the charitable intention of the testator.

Relief Fund Sought

Chairman John Barton Payne authorized chapters along the Atlantic coast to accept contributions for the relief fund.

The Red Cross cabled an additional \$10,000 to Governor Roosevelt in Porto Rico for medical supplies, raising total expenditures to \$25,000.

Hurricane Blown Out

Forecasters of the United States Weather Bureau who have followed the hurricane since it originated earlier in the week, said the latest reports from the storm area are greatly encouraging.

Although they cannot predict, with any degree of accuracy, whether the disturbance will gain increased intensity, they believe it will inflict no further damage.

Forecasters Charles L. Mitchell and R. Hanson Weightman issued the following warning:

"The tropical disturbance is apparently central this morning (Continued on Page 2, Col. 1)

U. S. LEGATION IS DAMAGED; OFFICIALS UNHURT

Red Cross Cables \$25,000 For Relief; 30,000 Homeless In Santo Domingo, Report

One thousand persons were killed and 2,500 were injured by the tropical hurricane which swept through the city of Santo Domingo, capital of the Dominican Republic, Wednesday afternoon, an official announcement of the Red Cross said today.

The report said the terrific winds destroyed 4,700 homes in the city, inflicted serious or slight damage to 200 others and 29,000 residents of the city are homeless.

Legation Damaged

The American legation in Santo Domingo was unroofed by the hurricane, but the personnel escaped injury, Minister Charles B. Curtis cabled the State Department today.

He added that all records were saved.

Capt. Antonio Silva, chairman of the Red Cross Chapter at San Juan, Porto Rico, and an experienced disaster relief worker, cabled the report here today after he made a survey of the devastated sections of the city. He flew to Santo Domingo from San Juan yesterday afternoon.

A copy of his cablegram was submitted to the White House.

Silva reported that Theodore Roosevelt, governor-general of Porto Rico, has sent a group of physicians and nurses along with a supply of food, tents, and cots, but declared this is not enough to cope with the needs of the refugees.

Relief Fund Sought

Chairman John Barton Payne authorized chapters along the Atlantic coast to accept contributions for the relief fund.

The Red Cross cabled an additional \$10,000 to Governor Roosevelt in Porto Rico for medical supplies, raising total expenditures to \$25,000.

With advices indicating that thousands in the Dominican Republic are homeless, the Red Cross announced that 2,000 children's dresses and infants' garments would be shipped on Saturday by the New York City Red Cross chapter and 1,000 children's dresses will be sent by the Red Cross in Philadelphia on a Porto Rican liner on the same day.

Reports received today from Haiti and vessels off the Haitian coast, indicated the storm apparently has spent its force and may not endanger the Florida coast.

Hurricane Blown Out

Forecasters of the United States Weather Bureau who have followed the hurricane since it originated earlier in the week, said the latest reports from the storm area are greatly encouraging.
