

“HOW DOES SHE KEEP
**HER CHILDREN'S
 CLOTHES** LOOKING SO
FRESH AND DAINTY?”

THERE isn't anything quite so charming as the dainty freshness of your children's clothes, nor anything in which a mother takes more pride.

Every mother knows the trouble to keep the little dresses and suits looking fresh and dainty. One reason for this is that ordinary starch does not give a smooth surface, nor does it resist the dust and dirt and permit the fabric to stay clean.

Here is truly good news! All this trouble is a thing of the past. Starch with Linit, the remarkable new starch discovery. It will keep your children's clothes fresh and dainty—with a soft, cool, pliable finish.

You will also be surprised to know that Linit makes even ordinary cotton fabrics look and feel like pure linen.

Because Linit is made by a new, scientific process, it quickly dissolves in water and makes a THIN solution which easily penetrates the fabric, strengthens it and prevents wear.

Begin tomorrow to use Linit for every kind of fabric in your household—whether lawn, cotton, linen, gingham, lace or curtains.

And don't envy the neat appearance of your neighbors' children. *Starch with Linit!* Now on sale at all first-class grocers.

Notice The Economy of Starching
With Linit

For the following use ½ cup Linit to 14 cupfuls of water:

- | | |
|---------------------------------------|-----------------------------------|
| <i>Shirt waists</i> | <i>Dotted Swiss dresses</i> |
| <i>Fancy aprons</i> | <i>Fine laces</i> |
| <i>Pillow cases</i> | <i>Sheets</i> |
| <i>French blouses</i> | <i>Cotton handkerchiefs</i> |
| <i>French or cotton voile dresses</i> | <i>Handkerchief linen dresses</i> |

Just a very little Linit used with your cotton sheets, table covers or napkins will give the "cool," smooth finish found only in fine linen. You'll be surprised and delighted with the results.

For the following use ½ cup Linit to 12 cupfuls of water:

- | | |
|------------------------|---------------------------|
| <i>Table cloths</i> | <i>Dòilies</i> |
| <i>Bureau scarfs</i> | <i>Gingham aprons</i> |
| <i>Gingham dresses</i> | <i>Children's rompers</i> |
| <i>Boys' suits</i> | <i>House dresses</i> |
| | <i>Men's soft collars</i> |

For the following use ½ cup Linit to 10 cupfuls of water:

- | | |
|---------------------------|--|
| <i>White linen skirts</i> | <i>White uniforms</i> |
| <i>Uniform aprons</i> | <i>Doctors' or Dentists' white coats</i> |
