ONE DAY LATER FROM EUROPE.

Dates one day later from Europe are published this morning per Canada. FRANCE—Paris, Oct. 18.—Paris papers con-

stantinople has renewed his representations respecting the Hungarian refugees, and insists that Austria has a right to demand their being delivered up. It is said that the Porte will alter them no longer, but give them their passports.

Whig Nominations in Massachusetts.

The Whig Convention of the Eighth District found their rejection of Horace Mann, on the ground that he is not the man for the times; that they wish to get the Fugitive Slave Bill altered or repealed; and that Mr. Mann's course has been so rabid, he would exercise but little influence in Congress. There were some other nominations, but they were not taken up. The Whig papers all accede to the nomination of Mr. Wiley.

Attempt at Bank Robbery—One of the Robbers Shot Dead.

At 4 o'clock this morning an attempt was made to break into the Village Bank, North Danvers, Mass. The robbers began the attempt to burst the door in, when the watchman of the bank, named Aaron Bateman called upon them to desist, which they refused to do. He then fired a gun loaded with ball, hitting one of them in the side, who staggered a few paces and fell dead. He proved to be John C. Papp, brother-in-law of the Cashier of the bank. His father, who lived in the restaurant building to the bank, was aroused by the noise of the gun and coming out stumbled over his dead son's body.

It appears that the Bank Directors have had warning that an attempt would be made to rob the bank, and have had a watchman there for a week past, which fact was generally unknown. The deed was committed by a generally unknown person to have been regular robbers, and to have drawn Papp, who was of rather bad habits, into the attempt. They all escaped in a carriage they had brought with them.

The Fugitive Slave Hunters at Boston.

A constable proceeded to the United States Hotel this forenoon armed with a warrant for the arrest of Hughes and Knight, on a criminal charge of attempting to kidnap Crafts and his wife, with orders to take him before the police court. The keeper of the hotel, assisted the officer that they left for home yesterday afternoon.

Delay of Mails.

The cars from Washington this morning were detained until 10 o'clock by the bursting of a line of the locomotive. The mail consequently failed to connect Eastward. No serious damage was sustained.

Slave Hunters—The Sugar Crop, &c.

A number of Baltimoreans are engaged preparing documents for the purpose of proceeding to Philadelphia, New-York, Boston and other cities in quest of Fugitive Slaves. The New Orleans papers of the 24th, say that the new crop of sugar is coming in rapidly. The bark Rose Standish cleared from the port of New-York with a cargo of new sugar, being the first shipment for the North this season.

The Charleston Sun says that Aiken, the successful candidate for Congress from the Charleston District, is as great a disunionist as Eliott.

The Manchester Affair.

Raymond Montague has been pardoned by the Governor of Missouri, on the ground that he took no part in the homicide.

Thins in Havana.

MISSRS. GREENEY & McELRATH: The Diario de la Marina, a few days since, when assigning reasons why Cunard was willing to sell two steamers to the Spanish Government, said "The insolent Yankees had so much advanced in their style of building, size, strength, adaptation of power and consequent speed, that he was compelled to build new boats to compete with them. The quoted words and others like them, of every day repetition, ever escape the Government censorial observation, wherefore the ill feelings that exist and the troubles that in the course of time may be engendered by them.

We have in port to-day four American Steamers, whose flags flanking the breeze, in the face of Spanish insolvency, and as to the Pacific, I think she reaches about the Spanish sense of Yankee power. The Georgia, Ohio, and Falcon, from New-York, New-Orleans, and Chicago, came in within three hours of each other, yesterday morning. No disease among the passengers from the Pacific side, this time, and the reports slow abatement if not cessation of the Cholera.

THE NEW COMET.

In Schumacher's Astronomical Journal, published at Altona on the 10th of October, are published the Elements of the Comet now visible, as determined by the celebrated Mauvais, of Paris, from observations on the 9th, 13th, and 17th of September, and by Mr. Bond, of Cambridge, on the 23rd of August, and in Europe on the 5th of September. It is still visible, through a telescope, in a strong twilight, but cannot be seen by the naked eye.

POTATO ROT.

From all quarters of the island we hear of the extensive destruction of the potato crop. It is no longer a matter of fear or doubt, but an absolute fact, that a very small proportion of the potatoes sown will be fit for human food. Coupled with this calamity, the catch of fish this season, though perhaps not below an average, will prove miserably deficient in some localities. There can, therefore, be no doubt that from both these causes there will be a large amount of destitution to be provided for, and the cost will of course be thrown upon the resources of the Government. [St. Johns Newfoundland.]
