To free your skin from blemishes —the right way

ASK a skin specialist why it is that your skin is continually breaking out with disfiguring little blemishes. He will almost certainly tell you that this condition comes from an *outside infection*.

Authorities on the skin now say that skin blemishes are generally caused by *bacteria and parasites* which are carried into the pores from outside, through dust and soot in the air. By the following simple treatment, you can gradually but thoroughly free your skin from blemishes:

**EACH** night just before retiring, wash your face with Woodbury's Facial Soap and warm water, finishing with a dash of cold water, and dry carefully.

Now dip the tips of your fingers in warm water and rub them on the cake of Woodbury's until they are covered with a heavy, creamlike lather.

Cover each blemish with a thick coat of this and leave it on for ten minutes.

Rinse your face thoroughly, first with clear hot water, then with cold.

Supplement this treatment with the regular use of Woodbury's Facial Soap in your daily toilet, to keep the *new skin* which is constantly forming free from blemishes.

Get a cake of Woodbury's today, at any drug store or toilet goods counter. A 25-cent cake will last for a month or six weeks of this treatment and for general cleansing use. The Andrew Jergens Co., Cincinnati, New York and Perth, Ontario.
