to any reasonable point they may select. Governments are strong and in good investment demand. New-York 6s rose ¼. In Border State Stocks, no change. Railway Bonds and Bank Shares all strong. Fourth National sold up to 109; Central Coal rose 1¼, and Wilkesbarre 1. Union Navigation rose 1¼. The Butler Coal Co. sold at 17, an advance of 4 per cent. on the scheme price. New-York Central rose 1. Erie preferred rose 3½, and sold largely. It is understood that 7 per cent dividend will be declared for 1866. Hudson River rose ¼, and Michigan Central 1. Cleve. land and Pittsburgh rose 1½. North-Western Common 1¼, and North-Western Preferred ¼. Toledo and Wabash rose 3½. Fort Wayne ¼. Alton and Terre Haute, 3½. Chicago and Alton, 1. Milwaukee and St. Paul Common, 1½, and Preferred 2 per cent. After the call there was a slight reaction, but at the one o'clock Board there was a renewed disposition to buy, and New-York Central sold at 118, and Erie Preferred at 86½. At the Second Board the market was buoyant, and there was an active demand for all the leading shares. After the call the excitement continued, and at an advanced price all stocks were in demand. North Western shares were very active and strong, and the Common sold at 47½ and the Preferred at 75½. The closing prices were: Ohio & Miss., 34½@34¾; Canton Co., 56½@56¾; Cumberland Pref., 58½@58¾; Quicksilver, 55¾@56; Mariposa, 13½@13¾; do. Pref., 30@30½; W. Union Tel., 54½@54¾; N. Y. Central, 118¾@119; Erie, 84½@84¾; Hud. River, 125; Reading, 116¾@116¾; Mich. South., 91¾ @91¾; Ill. Central, 128@128; C. & Pitts., 93¼@93¾. C. & Toledo, 127¼@127½; Rock Island, 108¾@108¾; N. Western, 47¾@47¾; do. Pref., 75¼@75¾; Ft. Wayne, 109¾@110.

Money is abundant as ever, and, at 4@5 per cent, leading houses are readily supplied. In Commercial bills no change. Short bills pass at 5@6 per cent. The disposition of money-lenders is to make short engagements, and to keep capital under close control—a state of affairs which promises to continue up to the time when the Treasury statements are prepared for Congress, and an idea obtained of the temper of the Secretary and Congress in regard to specie payments. At present, and for a long time, the Secretary leads and strengthens the expansionists, with what success the advance in stocks indicates very clearly.

Conversions of the 7.30 notes falling due August, 1867, into 5-20s, continue to be made to the Treasury Department at the rate of about $4,000,000 per week. There are now outstanding about $270,000,000 of this issue of 7.30s. These notes, owing to the labor involved in their examination, can be redeemed by the department at only about the average rate of $5,000,000 per week. Parties holding 7.30 notes of the above issue will therefore do well to forward them to the Treasury for conversion into 5-20s as soon as possible, as hereafter, in case of the presentation of large quantities near the period of the full maturity of the notes, great delay will ensue before the bonds in conversion can possibly be furnished by the Department.

The Chicago and North-Western Road is pushing its extension to Omaha with energy, to connect with the Pacific Road, of which 230 miles are now in operation. By May, 1867, 100 miles more will be in running order, and have for its eastern outlet for several months the North-Western Road alone. It will give the latter route all the traffic it can accommodate with all the rolling stock the North-Western can put in use by May. With the Pacific route in use to the extent of 330 miles, the friends of the North-Western express confidence in the ability to make regular dividends upon the common stock.

The Boston Traveller of yesterday says:

"The demand for money is a little more active to-day, in some few needy quarters, but not generally, and temporary loans are readily obtained on good security, at six, and in exceptional cases at five per cent. The best commercial paper is passed at the same rates; with few transactions outside of the bank parlors, and almost nothing doing in notes of the second class. In the stock market there are constant calls for solid securities, such as government bonds, bank, factory and railroad shares, for permanent investment. The supply for sale is rather limited, and prices are firmly maintained. Land stocks are not very active, and mining stocks continue dull and depressed. A good many high-priced contracts have matured lately, and buyers have had a decided advantage over those who have sold."

Exchange is inactive and is quoted as follows: London prime bankers' 60 days, 106⅞@107¼; London, prime bankers', sight, 107¼@108; Paris, bankers', long, 5.26¼@5.25; Paris, bankers', short, 5.22½; Antwerp, 5.30@5.26¼; Swiss, 5.30@5.26¼; Hamburg, bankers', 35¼@35½; Amsterdam, bankers', 40½; Frankfort, bankers', 40½; Bremen, 77½@78; Berlin, bankers', 71.

The suit against the Michigan Southern Road, brought by guaranteed stockholders, has been settled at the request of the plaintiffs, who preferred the very reasonable terms offered to all guaranteed stockholders to litigation. The injunction against a dividend upon the common shares of course falls with the suit, and as the $800,000 of bonds held by the Company for dividend purposes have been sold there is now no apparent obstacle against the resumption of dividends in the opinion of parties dealing in the stock.

The Chicago and North-Western Road earned the first week of October:

FAMILY MARKETS.

OR LIVING EXPENSES IN NEW-YORK.

FRIDAY, Oct. 12, 1866.

Fresh fish are generally scarce and high. Scollops have been plenty, selling in the street as low as 30c. per quart. Wheat flour is higher, and if the present advance in gold is maintained, sugar and other groceries will go up. Grapes are scarce and high, if we except those injured by the frost. Thirty to forty cents per pound is certainly a high price for this fruit, and should lead every owner of even a city lot to see if he cannot put in a few vines. Apples are not plenty, and pears are getting to be scarce, with few varieties in market. Fine quinces have sold as high as 4c. per 100. Lemons are very scarce and high. Meats are a shade lower if we except bacon, which has advanced. The poultry season has now commenced in earnest, and with a good supply prices are easier. There is a large list of vegetables from which to select, among them green peas, the last of the season, at 75@80c. per half peck. Chestnuts and hickory nuts have made their appearance, but are very high.
