### WINDOWS MUST BE OPEN

Excise Board Notifies Barkeepers of Evasions of Law.

#### VIEW OF INTERIOR REQUIRED

Dixon Crematory Company Has a Hearing Before the Commissioners. Attorney Waters' Fine Will Not Be Returned—Suit Threatened Against Brown Crematory Company.

The excise board has notified saloon keepers, by circular letter, that barrooms must be left with the interiors exposed to view from the street during the hours in which it is unlawful to sell liquor. Blinds and curtains in show windows and openings must be wide open between the hours of 12 midnight and 4 a.m. It is not stated that all proprietors have been disobeying the requirement, but investigation has proved that many do disregard it, hence the notice.

The Dixon crematory representatives were given a hearing by the Commissioners yesterday, in order that they might present an argument for the introduction of their system in Washington. The company officials present were Gen. S. S. Yoder and Mr. E. J. Totten, and the spokesman was Attorney Andrew Wilson.

Mr. Wilson presented a lengthy argument, setting forth the claims of the company, and Gen. Yoder and Mr. Totten each made a statement.

Briefly stated, the position of the Dixon representatives is that their crematory will do an complete work upon an economical basis as any other; that their company will assume all the risk of giving satisfaction, and that the process will dispose of all refuse without creating a nuisance.

NOW MR. WATERS MAY SUE. Attorney Joseph J. Waters, of No. 1235 Thirty-first street, whose protest against payment of a fine imposed by the police court for a violation of the garbage regulations, and his subsequent request for remission of the penalty, was noted in The Times at the time, was notified yesterday that the Commissioners fail to see any reason for favorable consideration of the request.

At the time of his arrest Mr. Waters announced that in case the board declined to order the refund he would institute a suit for recovery of the money, for the reason, as he alleged, that the officers did not proceed according to law, either in the matter of his arrest or trial.

Gomer Jones has employed Attorney Edwin Willets to institute a suit against the Dixon Crematory company for alleged infringement of his patent for a gas generator and burner, and the attorney yesterday addressed a letter to the Commissioners protesting against the use of the device in the destruction of garbage. Mr. Willets was informed in response that while a Dixon crematory may be employed by the city, the Commissioners have not yet ordered nor accepted such system.

The Commissioners yesterday addressed a letter to National Commander Tanner, of the Union Veteran Legion, extending a cordial invitation to the national organization of the city to hold its annual convention in 1906 in this city. The letter concludes with:

"The people of the National Capital would deem it a special honor to have their city chosen as the place of that meeting, and would spare no pains to render the visit a pleasant occasion to those who may attend."

Changes in the engineer department were made yesterday as follows:

W. T. Boyd, roddman in the sewer department, transferred to computer and draftsman in same department, with compensation at the rate of \$3 per day.

A. S. Fortman, roddman, transferred to roddman, at \$2.50 per day.

J. A. Neville, now foreman in the sewer department, transferred to inspector in same department, with compensation at the rate of \$4 per day when employed.

J. J. Condon, appointed foreman, vice Neville, with compensation at the rate of \$4 per day when employed.

George M. Harris' pay as chairman was increased from \$1.50 to \$2.25 per day.

OFFICIAL ORDERS ISSUED.

Orders were issued yesterday as follows: That water main assessments be canceled as follows, on account of the decision in the Burdorf case:

Against part of lots 38 and 39, square 500, and part of lot 4, square 499; east of 25-11 feet of lot 4, square 1095; east of lot 3, square 832, part of lot 5, front 600 feet on Wisconsin avenue; lots 12 and 13, square 104, Georgetown; last installment of water main assessment against lot 6, block 16, Brookland; remaining installments against lot 83 and subplot 121, plot 9, Wright and Dole's subdivision; remaining installments against lot 11, block 11, and lot 32, block 2, Meridian Hill.

That a sewer be constructed in the south side of L street northeast between Twenty-first and Twenty-second streets, under the permit system.

That the 15-inch cement sewer in the east side of Nineteenth street northwest between E and F streets be replaced. 400 feet of 15-inch sewer be replaced. That Fred A. Walters be registered and licensed as a master plumber and gasfitter, after filing proper bond.

That an allotment of \$200 from the appropriation for main intersecting sewer for use in the current quarter of the fiscal year be approved.

That \$200 feet of 6-inch water pipe be laid in Ninth street southeast between I and K streets.

That 461 feet of 6-inch cast iron water pipe be laid in the Smithsonian grounds and four fire hydrants be erected, the work to be done by the water department at the expense of the Smithsonian Institution and United States National Museum.

MINOR DISTRICT NOTES.

That M. L. Roberts be licensed as a first-class steam engineer.

The Commissioners have appointed Chapman J. Gilbert and Jesse Given additional privates on the police force.

The resignation of J. Lewis, of the fire department, was yesterday ordered to be accepted, and William F. Lanahan was appointed to succeed him, the appointment being upon the usual probationary condition.

The Commissioners are still of the opinion that the revenues of the district for 1896-97 will stand an appropriation of \$650,000 for street paving, but until the report of the committee appointed to estimate is received nothing will be done as a preliminary to action by the board. Commissioner Powell said yesterday that the matter had not yet been taken up for consideration.

TWO COUPLES SUNDERED. Both Wives Won the Suits and Deserter Was the Cause. Judge Cox yesterday signed orders in two cases, granting divorces to the petitioners. Jennie Gordon brought suit for divorce against William Gordon November 14, 1894, on the ground of desertion and infidelity. The two were married October 17, 1887.

Annie Waters was granted a divorce from William Waters, to whom she was married April 30, 1890, by Rev. Mr. Richardson, in Anacostia.

She accused her husband of cruelty and said he deserted her May 29, 1893.

### FATHER GILLESPIE'S BIRTHDAY.

Made the Observation of Festivities at Gonzaga College.

It was a gala day at Gonzaga College yesterday. Rev. Cornelius Gillespie celebrated his birthday and gave the students a holiday to commemorate this happy event. Father Gillespie was pleasantly surprised by receiving visits from the presidents and several of the faculties of Georgetown University and Loyola College, Baltimore.

An elaborate dinner was given in the college, and Rev. Father Barnum, the noted missionary from Alaska, made a pleasant congratulatory address.

Among the guests were Rev. J. Havana Richards, Georgetown; Rev. Thomas Morgan, of Loyola; Fathers McGilvery, Colgan, Conway, of Washington; Daugherty and Richley, of Georgetown.

A large number of Father Gillespie's parishioners called in the evening to pay their respects.

## BEACHERS' BATH HOUSE

Supt. Stevens' Suggestions Respecting Its Future.

### NEW SITE RECOMMENDED

More Than Twenty-nine Thousand Bathers Registered—Increase in Number of Lady Patrons—Nuisances Pointed Out—Policemen Needed All the Year.

Superintendent Stevens, of the bathing beach, has submitted his annual report to the Commissioners, in which, among other things, he says:

"The beach was opened to the public June 8, and will close September 22. In the three months already past, 29,100 bathers have registered on the beach books.

"One death has occurred at the beach this year, that of Carlton Snell, who died of heart disease while swimming. So far in the history of the bathing beach there has never been but one drowning of a registered bather, that of young Keith, three years ago."

After a reference to the tournament of August 21, and the award of medals, the superintendent says:

LADY BATHERS PLEASED. "A gratifying fact to state is that the number of lady bathers is continually increasing. All who come once come again and often.

"It becomes my painful duty to report a source of annoyance to ladies. George Tasker asked my permission to rent boats near the beach. Knowing that, if properly conducted, this would accommodate a portion of the public, I consented for him to make a trial, but it soon proved to be very objectionable.

"He rented boats at a very low price, and boys would hire them and go into the water naked within sight but beyond jurisdiction of the beach. His wharf floor is directly beside the ladies' premises, and crowds of low characters often gather there and make objectionable remarks.

IMPUDENT AS A SQUATTER. "I have repeatedly notified Tasker to move away, and such notice has been served on him by government officials, but with the impudence characteristic of squatters, he defies all authority."

The superintendent is of the opinion that the three policemen granted for the beach by Congress nearly three years ago, at Major Moore's solicitation, should be kept in charge of the beach and its neighborhood all the year.

The superintendent renews his recommendation of a pool system, as the only means of securing reasonable safety—a broad bathing area and water always at one depth—and although all things are not yet ready for occupancy of the inner basin, certain plans are maturing which render immediate action necessary, if the ideal spot is to be secured.

SUPERINTENDENT'S SUGGESTIONS. The superintendent makes the following recommendations: That rules be made to preserve order, not only at the beach but in the surrounding neighborhood; that a police boat be located on the line of Seventeenth street and the shore fronting on the Potomac and extending from B street north to D street south; that no person shall be permitted to rent boats or other water appliances within one hundred yards of the bathing beach without the written consent of the superintendent; that a telephone, connecting with the city system, be located at the beach; that whatever shall be deemed indecent exposure in daytime shall be adjudged as such if committed at any time upon the bathing beach or within fifty feet of any public highway or resort.

Also that the Commissioners shall strongly recommend to the proper authorities the immediate burial of the Seventeenth street sewer; that the "little basin" referred to in his report be preserved; that Congress be asked to exchange the grant of the present bathing beach for a grant of the little basin and sufficient grounds around it for driveways, and that an appropriation of \$10,000 be asked for the expense of removal to the new premises and to fit up the latter in permanent shape.

FOR THE POPE'S FREEDOM. Mass of Penance to Be Sung Friday Morning.

A unique service will be held in all the Catholic churches of this city on Friday morning. It will be a mass of penance and expiation, and will be said in accordance with the following letter, which has been received by every parish priest in the city:

Cardinal's Residence, Baltimore, Md., Sept. 16, 1895.

Dear Rev. Father: On September 20 the Italian government will celebrate the twenty-fifth anniversary of the annexation of the Roman provinces to the kingdom of Italy. While public demonstrations are thus being carried on in memory of this occupation of what had for centuries been papal dominions, the Holy See desires that the faithful children of the church throughout the world should unite in praying for the freedom and independence of the Pope.

You are therefore requested to publicly recite on that day in your church, at the mass which is most fully attended, the litany of the saints, praying, according to the intentions of the sovereign pontiff, that Providence may soon vouchsafe to grant to the church and her visible head the liberty so necessary for the exercise of their divine mission. Faithfully yours,

J. CARDINAL GIBBONS.

At St. Aloysius' Church the services will be very solemn, the vestments being purple and the litany will be chanted by the full vested choir. At St. Matthew's, being the diplomatic church of the city, it will be a more quiet affair. The Italian ambassador, Baron Fava, and his family attend St. Matthew's, also all the members of the legation who are Catholics. A solemnity of any note would not be very courteous to those sojourners on our shores who are necessarily in sympathy with King Humbert's celebration.

LAMONT THEIR PAYMASTER. Officers and Soldiers Get Their Pay for June From Him.

Owing to a deficiency in the appropriation for the pay of the Army for the fiscal year ending June 30 last, certain officers and a number of enlisted men have not received their pay for the month of June, the last in the year. Secretary Lamont interested himself in the matter.

He has now directed the paymaster general to transfer certain unexpended balances and to pay the enlisted men. Officers will receive their pay on properly certified checks on the National Bank of New York City.

The later payments, it is thought, will probably be met by advances from the Secretary's private account, to be refunded as soon as a deficiency bill, making good a year's shortage, can be passed by Congress.

City of Richmond for Fort Moore and Norfolk Saturday night at 6 p. m. Sec. ad.

## "The Defender"

\$1.25 School Shoes For Boys and Girls are way ahead of any other Shoes at the Price for Durability and Shapeliness.

FREE—Useful School Souvenirs for the Children this week.
