Little Tales of Motherhood

By JULIA CHANDLER MANZ.

"All that I am, or ever hope to be, I owe to my mother."—ABRAHAM LINCOLN.

THE PURSEPROUD.

Working hard at doing nothing all through the winter had made Mrs. Purseproud ill. She had been so busy fitting from one party to another, or getting the child ready for parties, that it had worn her out. So, when the doctor told her that she must have a quiet summer in the country she chose a little Virginia village nestling at the foot of the mountains.

She walked between rows of mud pies on garden walls, drawing her lacy skirts daintily aside, snubbing the village children whenever she passed them. But, oh, the heart of her ached, as the hearts of Purseprouds must.

SIMPLE CONSTRUCTION THAT HAS FINE EFFECT

In this charming little frock we have quite an elaborate effect, although the construction is quite simple. The dress is made like many others, with the waist plain, a small box pleat filling the center of the front and full length tucks from shoulder to belt in both front and back.

Such simple fabrics as lawn, organdy, marquisette, linen and gingham will make up appropriately in this style. The pattern, 5427, is cut in sizes 6 to 12 years. Medium size requires 2 yards of 36-inch material and three-fourths of a yard of 18-inch all-over to trim as pictured.

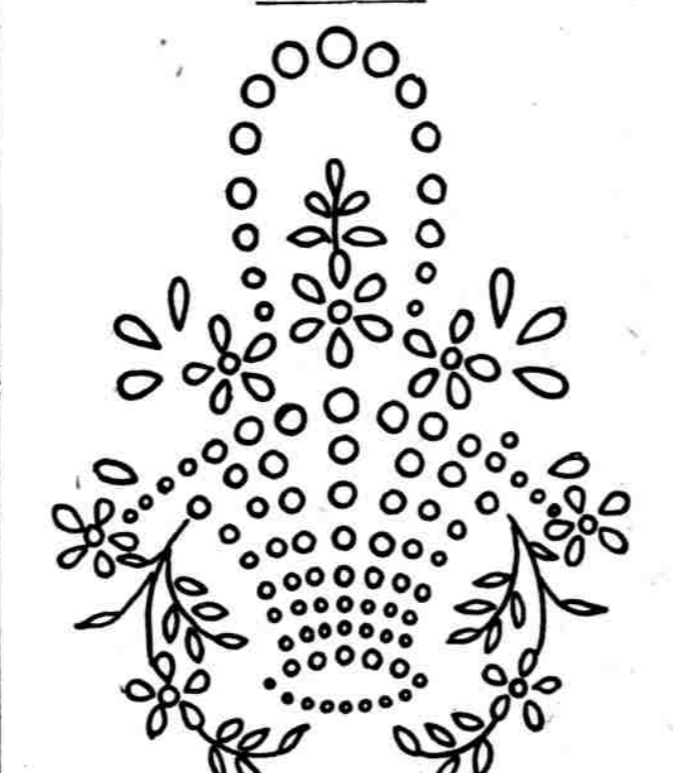

NEWS NOTES OF WASHINGTON SHOPS

Paraols of Persian silk, striped black and white silk and the solid colored tafetas have black velvet borders that are very effective, and they cost \$6. A pink sash and girde finished with gold roses sells for \$2.50, and is exceedingly dainty.

DOGS WITH SKIN DISEASES SHOULD BE TREATED FOR WORMS

The dog afflicted with goiter does not suffer much, in some instances the enlargement appears to grow in a week, in other cases it is a month before the glands are of any size. Weakness, debility, and hard water are the chief causes of this disorder, but it sometimes makes its appearance in the strongest dog.

FASCINATING DESIGN FOR A HANDKERCHIEF CASE

This little basket makes a fascinating design for sachets or handkerchief cases. The flowers and leaves should be worked solid, with the stems in the outline stitch. The dots are worked as eyelets, and if mounted over colored satin the effect is charming. Mercerized cotton No. 30 should be used.

ANSWERS TO QUESTIONS ASKED BY EVERYBODY

To Scent a Room. Dainty Woman—If you wish to scent a room, do as the French women do and dip lamp wicks into a solution of nitrate of potassium (saltpeter), and then soak them in aromatic tinctures, after which they must be dried. Any ornamental device provided with a lamp burner, in which the wick can be inserted, will make a good holder.

INDIVIDUALITY MARKS THIS LITTLE SUIT

We illustrate a design which is both simple and rich in effect. The blouse portion of the suit has a double-breasted closing in front, cut away at the upper part to display a shield, the edges of the opening being trimmed with a broad sailor collar. The sleeves have a few tucks at the wrist instead of a cuff.

TWO DAYS REMAIN TO SOLVE PUZZLE

Of What Is Found on Two-cent Stamp.

LISTS CANNOT BE CORRECTED

After They Have Been Once Submitted, Nor Is It Permissible to Send More Than One Solution of the Puzzle, Nor Telephone Lists into The Herald Office.

Have you submitted a solution of the syndrom given in The Washington Herald both Sunday and Monday of what is found on our two-cent stamp?

I am, therefore, only reminding those who are still working over their solutions of the two-cent stamp puzzle that the contest closes at noon on Friday, and that their solutions will not be in the running if received after this hour.

LENGTH OF TIME FOR ROASTING MEATS

Many young housewives are puzzled as to the length of time it takes to cook the roast for dinner, simple meats or game proving difficult.

THE HERALD'S BOOK OF TESTED RECIPES

German Roast Pork. Boil the pork until tender, drain and roast in the oven with three onions and three carrots sliced thin, a little minced parsley, thyme, and two cloves. Add one cupful of boiling stock, and baste frequently for the first half hour. Then strain and skim the gravy, and reduce by rapid boiling until there is just enough to coat the surface of the meat.

AMMONIA ADDS TO SOFTNESS OF WATER

Let her try the magic results of putting enough ammonia in the water to render it soft. Then add the usual amount of common soap, and the labor will be rendered much easier. Care should be taken not to use too much ammonia—only enough to make the water feel soft.
