INＩＤＩＡＮＡ ＩＮ ＤＡＮＧＥＲ.

Battleship, Threatened with Destruction, Saved by Crew.

Washington, Sept. 13.—The battleship Indiana was constructor at the naval dockyard at New York harbor, Philadelphia, recently received notification that the ship had been declared a menace to the United States by the Secretary of the Navy, who ordered her to the Indian Ocean. Five in the ship, however, using a motor lifeboat, managed to escape from the deck and were found at sea.

The crew of the ship, overwhelmed with the danger, decided to try to save the vessel. They climbed aboard a lifeboat and set sail for the horizon. The ship's command then issued an order to abandon the vessel and go ashore. The lifeboat was launched, and the crew of the ship, including the captain and his officers, boarded the lifeboat and sailed for safety.

The ship was then abandoned, and the crew was safely brought to shore.

The incident highlights the importance of preparedness and quick decision-making in situations of crisis. It also demonstrates the bravery and dedication of the crew in the face of danger.

THE BATTLESHIP INDIANA.

A vessel of the United States Navy, the Indiana is a battleship of the Iowa-class. She is equipped with six 16-inch guns and has a displacement of 35,000 tons. The ship was built for the purpose of protecting the United States from naval threats.

The Indiana is currently based in New York harbor, where she is available for duty in the event of a crisis. The ship is regularly maintained and inspected to ensure its readiness for combat.

The incident is a reminder of the importance of military preparedness and the dedication of those who serve in the armed forces.
