

Reds Hurl Tear Gas At West Berlin Crowd

BERLIN, Sept. 7 (AP)—Communist police showed increasing determination today to break up demonstrations by jailing West Berliners who gather close to the Red barricades. The Communists threw firecrackers, tear gas and water jets at hundreds of demonstrators on the West side of the border in three incidents during the night.

One crowd of about 80, demonstrating along the border in Neukölln in the American sector, was angered when the Reds threw a tear gas grenade which struck a newsstand and smashed a neon sign.

The crowd grew to about 200, including some drunks. The Communists attacked the demonstrators with a water cannon. West German police finally pushed the crowd back and arrested three of the demonstrators.

Crowd Dispersed

In the tough industrial district of Wedding, in the French sector, the Communists hurled five tear gas grenades at a crowd of about 500 whistling, booing West Berliners. West Berlin police dispersed that crowd, too.

The third incident also occurred in the Neukölln border area where the Communists used tear gas grenades and firecrackers and ran out fire hoses in an effort to scatter several dozen persons on the Western side.

A controlled Communist East German student newspaper published an article telling East German students they must be prepared to shoot fellow Germans.

"There are good Germans and bad, even barbaric, and on such, who represent German imperialism, we will shoot if they get fresh," said the article written by a chemical student named Werner Witte.

Two U. S. Students Held

East Berlin police were disclosed by United States officials to have detained for several hours yesterday two American medical students.

The police charged the students—Howard Emery, 24, of Glendale, Calif., and Jim Phang, 23, of Alhambra, Calif.—had illegal currency with them on a sightseeing trip.

Touring Europe by car, they arrived in West Berlin yesterday.

day, parked their car and took the subway to the East zone. They planned to stay only an hour but were gone five.

The young men said after looking around they returned to the Friedrichstrasse station to take the subway back to West Berlin and were questioned about their money.

Left Only Carfare

The students said the questioning was confined to their identity and the origin of their East currency. There were no questions about whether they were looking at military objectives or anything of that nature, they said.

Finally the police confiscated their remaining East marks, leaving them with only the subway fare back to the West and a few souvenir coins they asked to keep.

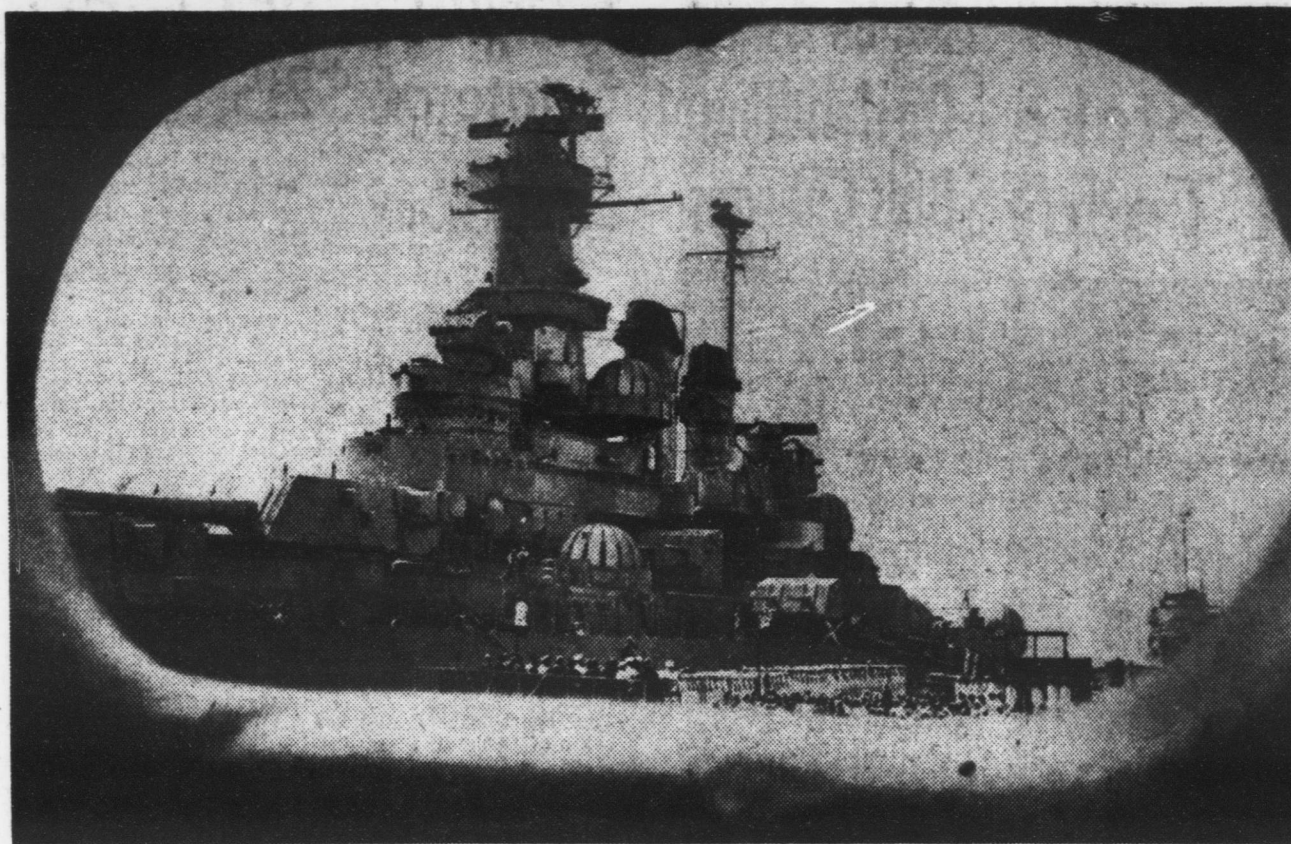

Daring Escape

A brother and sister made a daring escape from a house on the East Berlin side of Dresden Strasse. The street and its sidewalks are in West Berlin, but the houses on one side are in Communist territory and the Red police had nailed up doors opening on the street.

The couple flung some of their possessions out of a third floor window. West Berliners quickly scooped them up and carried them to safety. Then a rope snaked down from the window, and the man and woman slid to the Western sidewalk.

They came down fast, were slightly hurt and were taken to a hospital.

Red Cross officials reported that about 1,000 children have been exchanged between East and West Berlin since the border was closed. About equal numbers from each part were on the other side of the border staying with relatives or friends when they were prevented from traveling home.

The retired battleship USS North Carolina is shown in ceremony at Bayonne, N. J., yesterday in which it was presented to Gov. Terry Sanford of North Carolina for use as a permanent memorial. The picture was taken from aboard the battleship USS New Jersey.—AP Wirephoto.

Paratroopers To Be Flown To Turkey

By the Associated Press

A force of 1,884 paratroopers will be flown to Turkey starting Saturday for NATO maneuvers.

The Pentagon said today that is the strength of the reinforced 1st Battle Group of the 327th Infantry, 101st Airborne Division, which will be carried overseas in 230 transport planes.

Announcement of the move was made last night by the Pentagon.

The battle group will return to its base at Fort Campbell, Ky., after the maneuver, the Pentagon said.

In all, more than 2,000 Army, Navy and Air Force personnel will take part in Checkmate II, the name given to the NATO exercise announced last Friday by Gen. Lauris Norstad, supreme allied commander in Europe.

The transport planes will be drawn from the 9th Air Force headquarters at Shaw Air Force Base in South Carolina, the 12th Air Force headquarters at Waco, Tex., and from the Military Air Transport Service.

Checkmate II is scheduled for September 15 to 25. Also taking part will be Navy ground and Air Force elements from Greece, Italy and Turkey.

Britain will chip in with units from the Royal Air Force. This exercise in Turkey will follow immediately after another NATO maneuver called Checkmate in which four squadrons of United States jet fighters, 72 planes, will have a role.

The four squadrons will fly from bases in the United States, and there was a possibility they may remain in Europe to beef up United States tactical air strength there.

Senate Ready to Debate Bills on New Agencies

By J. A. O'LEARY

Star Staff Writer

The Senate will begin debate today or tomorrow on the bill to convert the Housing and Home Finance Agency into a Department of Urban Affairs, one of the four major Kennedy administration measures Congress is trying to pass before adjournment.

Another is the creation of a semiautonomous disarmament agency, and Senate Democratic Leader Mansfield was undecided today whether to make the urban affairs or the disarmament bill the next order of business.

The Senate has passed the other two administration measures to give permanent status to the Peace Corps and to retrain workers whose skills have been rendered obsolete by automation.

Retraining Bill Held Up

Yesterday the House Rules Committee cleared the Peace Corps bill, but refused to clear for House action the job retraining bill. The bill could be brought up under emergency procedures in the dying days of the session, but such a step is considered unlikely.

Several Rules Committee members objected during a hearing on the bill that private industry already is providing adequate job training and no Federal program was needed.

Four appropriation bills also must be put through one or both houses before Congress can adjourn, probably during the week ending September 23. These carry funds for foreign aid, public works, the District of Columbia, and a catch-all supplemental bill for various agencies.

Robert C. Weaver, present head of the Housing and Home Finance Agency, is slated to become the first Negro to serve in a cabinet position if the Department of Urban Affairs is created.

The way was cleared for consideration of the measure today when Senator Muskie, Democrat of Maine, filed the favorable report of the Government Operations Committee last yesterday.

Senator Muskie's report pointed out that two-thirds of the American people now live

in urban centers and need a spokesman at the cabinet table to present the mounting problems of these densely populated areas.

The bill will encounter opposition, but has a good chance for passage. Two Republicans and two Southern Democrats filed a minority report, warning that creation of the new department would result in further Federal encroachment on local control.

The minority report was signed by Republican Senators Mundt of South Dakota, and Curtis of Nebraska, and by Democratic Senators McClellan of Arkansas, and Ervin of North Carolina.

"Every pressure group in the Nation looking for Federal funds wants to have its representative crowding to the President's cabinet table, not to advise and guide him on the problems of government, but to push for special favors and special interests," the minority report said.

Amendments probably will be offered to include in the new department the separate veterans' housing program now under the Veterans' Administration, and the Federal Home Loan Bank Board. These amendments will be resisted by the leadership.

In addition to the remaining legislation, the Senate faces a last-minute battle to strengthen its rule against filibusters, but Senator Mansfield said today the rules fight will not start until all major legislation has been handled.

Battleship Gets Museum Berth

By the Associated Press

BAYONNE, N. J., Sept. 7 (AP)—The 35,000-ton USS North Carolina, her once-mighty engines silent, is scheduled to begin her final voyage Tuesday under tow to Wilmington, N. C.

Saved from the scrap heap by a State-wide fund-raising drive in North Carolina, the World War II relic will be berthed at Wilmington as a war memorial and museum.

Two ocean-going tugs will supply the power and the guidance as the big battleship moves from the Bayonne Navy Base to the mouth of the Cape Fear River.

Seven more tugs will hook on there at sunset September 18 for the delicate task of guiding the ship across a sand bar and up the river to its permanent resting place.

North Carolina received the famed battleship for its own yesterday at a dockside ceremony at the Navy base here.

Gov. Terry Sanford pledged North Carolina "will hold it and enhance it as a lasting warning to those who would attack human liberties."

A handful of persons showed up for the ceremony. A throng of 54,000 viewed the ship's launching in June, 1940. The vessel has 12 battle stars from World War II's Pacific campaigns.

The fund drive which spared the ship raised some \$230,000. Admiral James S. Russell, vice chief of naval operations, said the North Carolina would become a "magnificent memorial to all Americans who gave their lives in past wars."

Goulart Set to Assume Powerless Presidency

BRASILIA, Brazil, Sept. 7 (AP)—Leftist Joao Goulart prepared to take on the virtually powerless job of Brazil's President today and the nation seemed headed for a middle of the road government that may turn a cold shoulder to Fidel Castro and retreat from close ties with the Communist bloc.

After a 12-day crisis that began with the resignation of President Janio Quadros August 25, the 42-year-old south Brazilian rancher, Brazil's vice president since 1956, was to be inaugurated this afternoon as chief of state. But Congress has stripped the office of virtually all power to satisfy military leaders who feared the leftist Goulart would open South America's largest nation to Communist takeover.

Congress awaited Mr. Goulart's nomination for its approval of a Prime Minister, who will hold the real power in the new parliamentary form of government voted by Congress to trim Mr. Goulart's influence.

With middle-of-the-road and rightist parties in the majority in Congress, it seemed certain his choice would be of that political leaning.

Possible Choices

Two leaders of former President Juscelino Kubitschek's middle-road Social Democratic Party were most frequently mentioned: Tancredio Neves, former Labor Minister, and Ernani Amaral Peixoto, former Ambassador to Washington.

Both played key roles in the Kubitschek administration, which quickly cooled on the Castro revolution after it turned sharp left and which kept clear of close ties with the Communist bloc.

In his seven months in office, Mr. Quadros reversed this policy, became Latin America's leading protector of the Castro regime and pushed headings for diplomatic and trade relations with Russia and possibly

Red China. A swing back toward the former policy now appeared to be in prospect.

Approval Seen Assured

Financial conservatives felt the best choice would be another Social Democrat, Gov. Carlos Carvalho Pinto of Sao Paulo state. But after meeting with acting President Ranieri Mazzilli and Mr. Goulart, he said again he felt he could "serve the interests of Brazil best by remaining in my post as Governor of Sao Paulo."

Congressional approval of either Mr. Neves or Mr. Amaral Peixoto appeared assured by the agreement of the Social Democrats and the rightist National Democratic Union to vote as a bloc if Mr. Goulart named one of their members.

The two parties held 172 of the 338 seats in the chamber of Deputies and 40 of the 63 in the Senate. In a showdown, the coalition could possibly muster a high of 215 votes.

Trooper Searches Lake for Bodies, Treated for Bends

A Kentucky State Trooper, stricken with the bends while searching for two bodies in a lake near Lexington, was flown here yesterday for emergency treatment by the Navy Experimental Diving Unit at the Weapons Plant.

A spokesman said he is scheduled to remain in the recompression chamber until 2 p.m. tomorrow.

Listed in serious condition was John Tripp, 25, who was flown to Bolling Air Force Base yesterday morning.

The Navy said Trooper Tripp was one of two State officers called in to skin dive for two bodies, victims of a speedboat accident, on Lake Farrington.

Larry Crider, 23, of Athens, Ky., a Lexington city policeman, and Charles Stennet, 25, of Lexington, drowned when they fell from their moving boat Sunday.

Trooper Tripp was 145 feet down when his mask suddenly filled with water. He made an emergency 40-second ascent to the surface. Shortly after he was suffering pain and convulsions.

Haiti Plot Brings Military Shakeup

PORT AU PRINCE, Haiti, Sept. 7 (AP)—A sweeping military shakeup occurred two days after the government disclosed the smashing of a new plot to assassinate President Francois Duvalier.

Mr. Duvalier replaced Army Chief of Staff Brig. Gen. Pierre Merceron with Col. Rene Boucaut who was promoted to the rank of brigadier general.

The chief of the palace guard, the Port au Prince police chief, and the commander of the national prison were reported replaced and eight Army colonels were reported retired.

Gen. Merceron attended the ceremony appointing his assistant as his successor. It was reported he will go to France as Haiti's Ambassador.

New U. S. Envoy Arrives in Congo

LEOPOLDVILLE, The Congo, Sept. 7 (AP)—New United States Ambassador to the Congo Edmund A. Gullion arrived yesterday to take up his post as fresh East-West diplomatic rivalry in the Congolese capital seemed imminent.

Said Mr. Gullion at the airport: "I just want to see The Congo get on its feet."

Hurricane, at 100 MPH, Now in Gulf of Mexico

MIAMI, Fla., Sept. 7 (AP)—Hurricane Carla's punch rose to 100 miles an hour today as she moved into the Gulf of Mexico and the Weather Bureau forecast rising tides along the South Florida coast.

Small craft operators in the Southeastern Gulf area were advised to move to safe harbors and vessels in the Northeastern Gulf were warned to keep in close touch with the hurricane advisories.

At noon (EDT), Carla was centered near latitude 21.6 north, longitude 86.2 west, or about 90 miles west of Cape San Antonio, Cuba, and 340 miles southwest of Key West.

The hurricane had curved slightly northward and was moving on a course between north and north-northwest. Any additional curve would increase the threat to Florida.

Gales reached outward 275 miles to the north and east and 125 miles to the southwest of the eye. A further buildup of the storm's power was forecast.

Carla's far-flung winds pounded the Yucatan Peninsula on one side and Western Cuba on the other as the storm passed through the channel between the two countries.

The storm was born in the Caribbean Sea.

Tides of 5 to 7 feet, heavy rains and winds of gale to possibly hurricane force had been forecast for the northeast tip of Yucatan and extreme Western Cuba during the storm's 10-mile-an-hour passage through the channel.

A reconnaissance plane flew through the hurricane's 12-mile "eye" and the pilot reported he was unable to maintain a low-level flight because of the large number of birds trapped inside the swirling winds.

The Navy ordered all its ships out of Key West Harbor as a precautionary measure.

Panel to Discuss Diabetic Teenager

The diabetic teenager will be the subject of a half-day meeting for parents and professional workers, to be held from 1 to 4 p.m. September 14 in the auditorium of the National Institute of Health.

Dr. Simon Auster of the Children's Hospital psychiatry department will appear in a panel discussion with doctors and nurses from Montgomery, Anne Arundel and Prince Georges counties.

Mayor of Taipei Denies Kickback

TAIPEI, Sept. 7 (AP)—Mayor Huang Ch-jui or Taipei and his wife pleaded not guilty today to charges of accepting \$16,500 in kickbacks on purchases of automobile parts for the city's bus lines.

The couple was indicted July 15 together with Mayor Huang's secretary and eight officials of the bus administration.

Mayor Huang and his wife also were indicted on charges of accepting \$25,000 in kickbacks on a big housing project sponsored by the city government. The mayor was suspended from office after the second indictment.

3d Official Quits District RLA For Federal Post

A third official of the District Redevelopment Land Agency has decided to resign in order to take a new post.

George Brickelmaier, RLA urban renewal programmer, plans to join the Federal Urban Renewal Administration's technical standards division as soon as processing of papers is completed.

Mr. Brickelmaier is the third RLA official to announce his resignation.

John R. Searies, Jr., executive director of the RLA, plans to leave in about 10 weeks for a Syracuse (N. Y.) urban renewal post, and his deputy, Gordon E. Howard, will leave in a few weeks to join the Area Redevelopment Administration.

Mr. Brickelmaier has been with RLA since April, 1958. He said he made his plans to leave his RLA post prior to his chief's announced resignation.

Mr. Howard said he decided to resign from the RLA post to give the new RLA executive director, as yet unnamed, a free hand in choosing a deputy.

Mr. Searies told the RLA board yesterday that he feels Mr. Howard's resignation is a "tough blow" to the RLA and praised his work with the agency.

Airport Taxi, Limousine Drivers Strike

Limousine and taxi drivers working from National Airport went on strike today.

Moe Lerner, owner of Airport Transport, Inc., whose cab and limousine drivers are on strike, said that of 30 cars scheduled to operate in the morning hours, all were being driven.

Joseph Danzansky, attorney for the firm tied up over a wage and commission salary dispute, explained that management and non-union personnel, as well as "several" of the union drivers who volunteered to work, were operating the service.

Walter Saunders, a shop steward at strike headquarters, the Merrimac Motel, 1530 Jefferson Davis highway, Arlington, close to the airport, said, however, that only 10 of the normal strength of 40 limousines were running, and that "taxicabs were 100 per cent off."

About 240 men were on strike, he said.

Mr. Saunders added that 10 pickets were on duty at the airport terminal. Picketing strength is limited by airport authorities.

Mr. Danzansky said "it is possible" that a bus would be operated from the airport to downtown locations, if the strike situation warrants it. This could lead to "roving picket lines," he said, in which cars of strikers follow the buses and picket them at unloading points.

No meeting between the two sides has been scheduled although Federal Conciliator James A. Holden said he would "take a look" at the strike and attempt again to bring both sides together.

Bernard Dunau, attorney for the drivers, members of Local 606 Air Transport Union, said the group is "sticking by" its latest demands: A 41 per cent commission rate instead of the current 39.25, for taxi drivers, and a boost from \$1.63 to \$1.75 for salaried hourly limousine drivers. He said the firm had offered to increase in the taxi rates and 2 cents more an hour for the limousine drivers.

Mr. Danzansky said that current costs, which included 14 per cent of the gross revenues earmarked for the Government, and 42 per cent devoted to salaries and fringe benefits, made the airport transport operation among the most expensive in the Nation.

GM Stock Divestiture Bill Gains

By the Associated Press

A bill to ease the tax impact of a \$3-billion divestiture of General Motors stock held by E. I. Du Pont de Nemours & Co. was approved today by the House Ways and Means Committee.

Sponsors were confident the bill will move quickly through House and Senate in the remaining days of this session. Du Pont, as a result of an antitrust case, is under court order to begin promptly relinquishing ownership of its GM holdings, which amount to about 23 per cent of the big automobile manufacturing company. The divestiture is to be completed within 10 years.

Basically, the committee-approved bill would provide that GM stock distributed by the Du Pont company to Du Pont stockholders shall be treated, not as income, but as a return of capital.

Du Pont officials testified at hearings before the committee that under such an arrangement most stockholders would have no immediate tax to pay, but that tax would be due on more than half the stock divested—in other words, that many larger holders of Du Pont stock would have a tax liability.

Committee sources said the bill agreed on is acceptable to the Treasury. The tax revenue expected to result from the divestiture is estimated as somewhat in excess of \$310 million.

Yarborough Asks Rayburn Medal

Senator Yarborough, Democrat of Texas, today asked Congress to coin a medal in recognition of the long service of Speaker Sam Rayburn in the House.

Senator Yarborough reported that Mr. Rayburn's health is improving since he returned to Texas last week, and predicted he will be back. He urged both Houses to act on his resolution quickly because if "Mr. Sam" were in Washington he would doubtless put his foot down" on the movement.

Senator Yarborough pointed out that Mr. Rayburn has served in the House more than 48 years, longer than any other person. He also has been Speaker longer than anyone else.

Minnesota, Texas Win Miss America Rounds

ATLANTIC CITY, N. J., Sept. 7 (AP)—Miss Minnesota and Miss Texas have won first honors in preliminary judging at the Miss America pageant.

Miss Minnesota, Nancee Ann Parkinson, 18, a 5-foot-6 blond charmer from West St. Paul, Minn., won the swim suit contest in the first competitive event last night.

Winner in the preliminary talent honors was Miss Texas, Linda Jacklyn Loftis, 19, of Fort Worth, Tex., who sang the aria, "Sempre Libera" from Verdi's opera "La Traviata."

She wore a gold lame and lace ball gown loaned her by a theater.

The opening rounds of the 35th Miss America pageant drew an audience of 6,781.

"I was shocked. I was too excited to shed tears," said Miss Minnesota, who appeared in a white, one-piece swimming suit.

The chorus, mid-Atlantic champions of the Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America, Inc., is directed by Robert Johnson.

The concert is sponsored by the Baltimore West District Woman's Auxiliary to the board.

winners do not necessarily advance to the semifinals, since all girls are also judged on over-all poise, charm and personality.

Judging the third category, evening gowns, also got underway last night, but the winner was not announced to heighten the mystery of who will be named Miss America of 1962.

The winner will succeed Miss America of 1961, Nancy Anne Fleming of Montague, Mich.

Champion Chorus Will Give Concert

The famed Chorus of the Chesapeake barber shop singers will present a concert to benefit the Baltimore Methodist Conference Board of Child Care at 8:15 p.m. tomorrow in the Edmondston (Md.) High School Auditorium.

The chorus, mid-Atlantic champions of the Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America, Inc., is directed by Robert Johnson.

The concert is sponsored by the Baltimore West District Woman's Auxiliary to the board.
