Market Tips for Housewives.

Prices to retailers and general market information furnished by Bureau of Markets, United States Department of Agriculture; fair prices to consumers, by the District food administration.

ABUNDANT—Cabbage, string beans, eggplant, peppers, potatoes, cooking apples, kale, tomatoes, sweet potatoes, sweet corn.

THE COMBINATION of the late summer fruits and vegetables, and the early arrival of the fall crops insure to Washington consumers a wide variety from which selections can be made.

Housewives should arrange with their dealers for a supply of cabbage, as at the present prices it offers an excellent opportunity to prepare a quantity of sauerkraut at a minimum cost for use during the winter.

The fair prices to consumers given below cover those charged by both "cash-and-carry" and "credit-and-delivery" retailers. "Cash-and-carry" retailers should sell near the lowest figure given. Unless otherwise stated, all prices are for produce of good average quality.

KEPT 'BARON'S' BODY TOO LONG

Miss Case Arrested After Strange Action and Sent to Asylum.

When a girl gets married, she cuts her hair and changes her name. And there's no doubt that they are very dangerous seas in wartime. I am driven one way by my doubts, another by my fears, and another by my hopes.

Very different is Martha Palmer. She was a lawyer's stenographer, then she studied law, and she wouldn't marry Evan until she was admitted to the bar.

And now, that he's with the army, she is working day and night and actually scrimping to save as much money as possible. She says she is probably quite as comfortable and happy as Evan is and she does not wish to be more comfortable or happier.

Now I call that perfect devotion. When I told Jimmie about her he asked, "Do you think there are many wives like that?"

"I hope so," I said, "but I don't know. Anyway, all of them have got their chance, every single girl who has a man with the A. E. F."

"A man would be proud to come home to such a girl," Jim commented. "This Mrs. Palmer is the real war heroine!"

"But what would happen if conditions were reversed?" I ventured. "If a pretty wife, working in a munitions factory, were hurt and her beauty spoiled—would her husband love and cherish her to her dying day?"

"Sure," Jim averred. "But I'm not at all sure," I protested. "I know a case. I'm going to watch it. It's about a man and a girl of my home town—you know them—Bertha Manning and Jerry Brown."

Jim recalled them: "Jerry used to send the wire at the station and Miss Manning was the town's only trained nurse."

"That's right. Well, they were engaged when Bertha went 'over there' with one of the first hospital units. Jerry is with the guns in France—a lieutenant, now."

"And I heard you telling mother this morning that Miss Manning was the victim of an air raid?"

"She was working in a base hospital, had gone to the dispensary and was handling alcohol when the Hun bombed the place. The alcohol exploded and burned her horribly, and besides, she lost a foot. Now she's coming home. They were a splendid pair—before the war—and so devoted. If she had been the saved one she would have stayed for Jerry forever and forever. But what I want to know is this: When Jerry comes home, will he marry a wreck like that?"

"Maybe he will be killed in action," suggested Jim, "apparently greatly relieved at the thought of this heroic way out."

And that solution, I am sure, would comfort most masculine minds, but it certainly isn't a woman's solution of a dreadful wartime problem.

Monday Brings Back Dear Old School Days

And Our Showing of Apparel for School Girls and Boys Is Complete in Assortment and Smart in Style.

Most girls and boys will return to school with a keener sense of duty and determination to accomplish much during the approaching term, therefore we must look to their school comforts and necessities and provide liberally the things needed to make them fit pupils.

opportunities for actors, if the seers interpret correctly. It is an auspicious date for signing contracts, leases and agreements of every sort. Leaves have an especially fortunate sign.

Broaches in political parties are indicated for more than one State. New problems for Congress are foretold. Next month may bring many severe storms on both the Atlantic and the Pacific coast.

The winter will be marked by weather that is changeable and spells of extraordinary cold are prognosticated. Cattlemen should prepare to protect their stock against most unusual storms.

Persons whose birthdate it is should guard against accidents and disputes in the coming year. They should make no changes and should take no risks.

Children born on this day may have a quick temper and be inclined to quarrel. Those subjects of Virgo have Libra characteristics, which include many talents.

NORTHWEST FARMERS SUFFER FROM DROUGHT

Mortgage Farms to Buy Seed, Says Houston.

That wheat growers of the Northwest suffer greatly from drought is the report of Secretary of Agriculture Houston and Judge Lobdell, of the Federal Farm Loan Board, who have just made a trip through the stricken district.

"The banks in the stricken district are doing all they can to care for the obligations of the farmers who have heavily mortgaged their crops in order to buy seed through the Federal Farm Loan Board," said Secretary Houston last night.

The relief furnished by the President's \$5,000,000 fund to aid farmers to continue their farming activities through this trying period.

WOMAN ROBBED OF \$140. Thieves Enter Apartment Bedroom and Find Hidden Cash.

Entering the home of Mrs. M. B. Atkinson on the second floor of 606 B street northeast, last night, thieves stole \$140.

Mrs. Atkinson reports that the house was broken into between 7:30 and 8 o'clock, when she was away visiting some friends. The money was hidden in a willow bag on the top of a wardrobe in her bedroom.

"The stars incline, but do not compel."

HOROSCOPE.

Saturday, September 21, 1918. This is a rather uncertain day, according to the readings of the stars, but the dominating influence is good. Neptune rules strongly in benefic aspect, while Venus and Mercury are friendly Jupiter is strongly adverse.

There is a sign read as a naval victory. The planets presage conflicts on the water with surprises, new inventions of missiles and craft and great compensations for past losses. Ours and their products come under a sway that makes for much anxiety and brings profit.

Stars that encourage superstition gain force during the next few months when talismans, charms and incantations will attract attention. This day is favorable for love affairs. It is a lucky wedding day. Love letters should be lucky while this away prevails. A proposal or answer comes under a direction that is most promising for happiness. Theaters have the best sort of forecast for today. There will be reforms in management, improvement in the character of plays and larger oppor-

You Can't Eat Meat 100 Miles Away

Preparing meat is only a part of Swift & Company's usefulness.

The finest meat in the world wouldn't do you any good one hundred miles away from your table.

Swift & Company efficiency has made it possible to place complete lines of products in the smallest and most remote communities.

To be sure the work is done well Swift & Company, through its branch houses and car routes, brings the meat to the retail dealer for you.

Swift & Company lays out car routes covering towns—big, little, medium size—which are not served by a Swift branch house.

Salesmen find out in advance what is wanted by the dealers in every town.

They are followed by refrigerator cars loaded with retailers' orders, which are delivered at each town—fresh, clean, and sweet—once or twice each week.

Swift & Company operates a large number of car routes like this, from fourteen distributing plants.

This is a necessary and natural part of the packer's usefulness. It fits into the industry in an orderly, effective way. It makes better meat cheaper from one end of the land to the other.
