A WINNER

on the Battle Field

Because of its dependable performance throughout four years of war service—
Its low consumption of fuel in countries where gasoline had to be rigidly conserved—
Its sturdy construction which required little attention to keep going at times and in places where drivers were inexperienced and field mechanics were scarce—

The White is the most widely used 11/2-2-ton truck in army service here and overseas. It has been adopted as the standard U.S. Army truck of this capacity.

Now Produced for Industry
As the urgency of government demands has decreased, we are now in a position to resume commercial delivery of the 11/2-2-ton model. Shipments can be made to all industries.
