Big Bargain Saturday

"Smoke Sale."

The sneers of jealous competitors do not affect us---"the truth is mighty and shall prevail."

The crowds are headed this way---and as long as we can treat them to such luscious bargain plums they will continue to come.

We expect today to be the busiest day in the history of this house---and we have made all preparations to handle a big crowd with the least possible delay.

The damage done was only slight—a little smell of smoke here and there—and after a twenty-four hours airing every trace of smoke will be removed from any goods you may buy.

Every article in the house is reduced—and as we only handle the finer grades, you may come expecting the biggest bargains of your life.

No alterations—no exchanges.

Men's Suits, $5.

COR. 7TH AND E

MORE PAY FOR BREWERS

A Dispute of Two Years' Standing Amicably Settled.

The Employers Increase Wages From 5 to 20 Per Cent—Federation Men and Knights of Labor to Work Side by Side—Overtime and Sunday Work Abolished—Six Half Holidays

The differences which have existed between the brewery workers and the proprietors of the local breweries for two years or more were amicably settled yesterday. The agreement reached fixes ten hours as a day's work in the local breweries and stipulates that the wages of the employes shall be increased from 5 to 20 per cent, according to the nature of the labor performed by the employe.

The prime movers in the settlement of the differences were Samuel Gompers, President of the American Federation of Labor, and Charles F. Bechtold, Secretary of the National Union of Brewery Workers. The local brewery workers were represented at the conferences which have been held looking to a settlement of the matter by Milford Spohn, N. C. Sprague, and Samuel Ingle, of the Central Labor Union, the local central body affiliated with the American Federation of Labor, and Alexander H. Bell, Leon Tobriner, and Henry F. Woodward, attorneys, respectively for the Capital Brewing Company, Heurich's Brewing Company, and the Washington Brewing Company.

The understanding with the Consumers' Company was reached several days ago. Two conferences were held with the representatives of the Heurich and National Capital companies. The first of these conferences was held from 4 until 7 o'clock on Wednesday and another from 8:30 a. m. till 4 p. m. Thursday. Every matter in dispute was amicably adjusted and organized labor is well satisfied with the result.

The agreement, besides providing for increase in wages, abolishes overtime and Sunday work, excepting in emergency cases. When overtime and Sunday work is demanded, it is to be paid for at the rate of time and a half. The brewery workers are to have half holidays on July 4, Decoration Day, Christmas, New Year's Day, and Thanksgiving, and all of Labor Day shall be a holiday.

Two matters have been the stumbling block to the agreement up to this time and the unions gave way concerning them yesterday. The principal of these difficulties was that some of the brewery workers are not members of the union. The breweries insisted that it would be unfair to compel the men now working for them to join the union if they do not desire to, and that on the other hand it would be out of the question to discharge the non-union men. The question was finally decided in favor of the breweries. They bind themselves, however, not to employ any non-union men in the future. All vacancies are to be filled by union employes.

Another circumstance which has caused much trouble in the arriving at an amicable settlement between the representatives of the American Federation of Labor and the brewery proprietors is the fact that some of the employes of the breweries are affiliated with the Knights of Labor. In entering into an agreement, however, the brewery owners refused to discriminate against the Knights of Labor and stipulated that union men, no matter whether affiliated with the Knighs of Labor or with the American Federation of Labor, would be treated alike.

There will be no pressure used to compel the employes at any of the breweries to connect themselves with any labor organization and their refusal to do so will not be considered as a just cause for their discharge.

NEITHER CONCEDES ANYTHING.

The Strikers and Contractors Hold a Fruitless Conference.

There was no change yesterday in the situation with regard to the electrical workers' strike. It was expected that a settlement of the differences would be reached last night, but in this the strikers and the contractors were alike disappointed.

During the day the members of the union held two meetings at their headquarters, 1204 Pennsylvania Avenue. Reports were received from the different committees delegated by the union to watch the progress of the work by the contractors, and also to note the arrival of electrical workers from other cities. The reports, especially in reference to the coming of both union and non-union men from other cities, were to the effect that very few had been seen. Of the union men who came, all, when they learned the condition of affairs, refused to work for the local contractors, while the non-union men were either persuaded to join the local union or to return whence they came.

A conference, composed of representatives from the Central Labor Union, Electrical Workers' Union, and many of the large contractors for electrical work was held last night at the office of the National Electrical Supply Company, in New York Avenue. The labor representatives were Milford Spohn, W. J. Feeny, E. A. Malone, John G. Wolf, N. C. Sprague, and E. Wolf. The contractors who participated in the conference were J. R. Galloway, John Rau, Hill & Miller, C. Schneider's Sons, Mr. Leonard, for J. H. Keely, Talmage & Wilson, and others. The consultation began at 8 o'clock and continued for three hours. Nothing was accomplished. Proposition after proposition, it is said, was submitted by each side, but all were rejected as promptly as announced. Neither side, it is said, would grant any concessions nor deviate, except in the matter of details, from the demands originally made by both the workmen and the contractors.

The strikers are very indignant about a statement published in an afternoon paper yesterday and credited to one of the local contractors to the effect that electrical workmen have been guilty of stealing the material and tools of their former employers. The statement, they say, is maliciously false.

THE FOURTH GENERATION.

The Elder Rear Admiral Selfridge's Great-Grandson a Cadet.

Thomas E. Selfridge, of San Francisco, has been given a cadetship at the West Point Military Academy. He is the son of Lieutenant Commander J. R. Selfridge, and the fourth of a direct line of Selfridges to enter the fighting branch of the Government service. His grandfather, Thomas O. Selfridge, jr., is a rear admiral, retired, as is also his great grandfather, Thomas O. Selfridge, both of whom reside in this city. The family has quite a fighting record. Rear Admiral Selfridge, the elder, is ninety-five years old. The great grandson, like the other Selfridges, was exceedingly anxious to enter the Navy, and about two years ago sought to enter the Naval Academy from California. The opportunity did not offer itself, but being determined to enter some branch of the fighting service of the country, he decided to follow the other alternative and endeavored to enter West Point.

The President has finally recognized the young aspirant and given him an appointment in the great military school. There will soon be four generations of the Selfridge family on the pay rolls of the country, something that no other American family can boast of.

No other family has ever had father and son among the retired rear admirals at the same time. The elder admiral saw active service for over forty-eight years, having entered the Navy January 1, 1818, as a midshipman. He cruised around the world, was in the Mediterranean in 1822. His first smack of war came in 1847, during the Mexican War, when he helped to capture Mazatlan and Guaymas. He was seriously wounded and had to return home in 1848. He was placed in charge of the Boston navy yard and remained in command until 1861. At the opening of the Civil War he was assigned to the steam frigate Mississippi in the Gulf Squadron. His old wound began to cause him trouble again and he was assigned to the Mare Island navy yard as commandant. He was retired on his birthday, April 24, 1866, on account of his age.

The son has even been more active than the father. He graduated with highest honors at the Naval Academy in 1854, and became a lieutenant in 1860. He was on the Cumberland when the Merrimac rammed and sunk her in Hampton Roads, and after the wounding of Admiral Worden, during the fight between the Monitor and Merrimac, he was placed in command of the Monitor. He was on the ironclad Cairo when the Confederates blew her up on the Mississippi River. After the war he was detailed to survey routes across the Isthmus of Darien in connection with the Panama and Nicaraguan Canal scheme.

The young man's father was on the double turreted monitor Puritan during the Spanish War. That vessel engaged in the various futile bombardments practiced by Sampson. Lieutenant Commander Selfridge had no opportunity to distinguish himself.

AN INVALID MOTHER'S SUICIDE.

An Atlantic City Hotel Man's Wife Shoots Herself.

Atlantic City, N. J., July 14.—While temporarily insane Mrs. Elizabeth Nicholls, wife of a hotel man, shot herself through the heart yesterday. Death was almost instantaneous. Edward Nicholls, her husband, had arisen early and was at work in another part of the hotel, when he heard a shot. Hastening to his wife's room he found her gasping, with a large bullet wound in her left breast. Before a physician could arrive the woman died.

For two years Mrs. Nichols has been in ill-health, and has been watched constantly, as self-destruction had been threatened by her. Yesterday morning she was left unguarded for a few moments, and she seized the opportunity. Four children, less than six years old, survive her.

FAITH HEALER TO BE TRIED.

A Woman Alleged to Be Responsible for a Patient's Death.

Richmond, Ind., July 14.—The courts here will be called upon to test the rights of faith healers to practice medicine.

Lydia W. Hazlitt, who styles herself a metaphysician, was arrested yesterday upon the charge of practicing medicine without a license. She treated a patient suffering with typhoid pneumonia by laying on of hands.

An autopsy showed that death was due to paralysis of the heart, and the doctors declared that there had been a great possibility of prolonging life by proper medical treatment.

Tossed a Coin for Railways.

Atlanta, Ga., July 14.—In the hearing in the injunction suit to restrain the Atlanta street railways from consolidating, Joel Hurt, one of the leading stockholders in the Consolidated Company, said that he and Mr. H. M. Atkinson, President of the Georgia Electric Light Company, had tossed up a coin to decide which should buy the other's interest in Atlanta's vast street railway and electric lighting systems. They are rival capitalists, and are fighting for franchises. Mr. Hurt said that he took "heads" and Mr. Atkinson took "tails." Mr. Hurt won the toss and controls the lines, but there is a fight on for new franchises to build opposition lines.

ON SWIFT BEAR'S TRAIL.

Indian Police Pursuing a Band of Warlike Sioux.

Pine Ridge, S. D., July 14.—Fifty Indian police from this agency were today started in pursuit of Swift Bear and his band of warlike Sioux, who seem determined to start an incipient Indian war. This is the band that yesterday defied Sheriff Demming and his posse on Buck Creek to arrest them for killing game out of season, and declared they would start a war in which all the Sioux nation would engage unless left to themselves. The sheriff, knowing the determined spirit of this band, retreated and called for re-enforcements.

Several hundred police are in hot pursuit of the Indians, who are retreating into the Ruby Basin country of Wyoming. The Pine Ridge officials believe there is real danger of an outbreak. These Indians have been slaughtering big game in great quantities recently.

Amos Demming, deputy sheriff of Converse county, and posse left Lusk on Wednesday with warrants for the arrest of the Indians, and overtook them at Buck Creek Thursday morning. After reading the warrants the Indians refused to go with the sheriff, drew a line, and told him that if he crossed it there would be war. They backed up their assertion by a display of Winchesters.

Being outnumbered, the sheriff went to Edgemont to get help and papers for the arrest of the Indians in South Dakota, as they crossed the line. Deputy Sheriff George Miller, of Edgemont, will go out with them in the morning with an increased force. Sheriff Demming telegraphed the Indian agent at Pine Ridge to have a force of Indian police to go out to intercept the Indians if they got away from Edgemont.

It is expected they will be overtaken somewhere near the agency as they crossed Cotton Wood creek, near Edgemont, this afternoon, and are traveling as fast as they possibly can. The Indians have traveled over sixty miles today, but their ponies are still going seemingly as fresh as ever, although the deputies are nearly exhausted.

The Indians went through the sheepherd of N. S. Tubbs this afternoon and stole all the herders' bedding and food.

BROWN FOUND GUILTY.

The Jury Reaches a Verdict Within Five Minutes.

Frederick, Md., July 14.—At the conclusion of the argument of Mr. Etchison, of Frederick, for the defence, State's Attorney Hinks, of Frederick county, commenced the closing argument for the prosecution, lasting one hour and forty minutes. The court then made its charge to the jury. The jury then retired to its room at 3:18 p. m., reaching a verdict at 3:23, being out just five minutes. The court asked, "Foreman of the jury, has a verdict been reached?" Foreman Sanner arose and spoke in a clear voice, "Guilty of murder in the first degree."

Brown was seen to tremble and presented a wrecked appearance, shaking very badly. He sank down on one side but he gained strength and when he was taken to the jail he walked fairly well for a man to receive such a verdict when he expected to be acquitted. The jury took two ballots, first standing eleven to one for conviction, reaching a vote of guilty on the second ballot.

The court room was crowded and expressions of approval were heard on every side. The argument of State's Attorney Hinks is regarded as one of the ablest ever heard in this county.

THE KILLING OF DR. ALSOP.

An Explanation of the Cause of His Murder.

Louisville, Ky., July 14.—The man Williams who yesterday surrendered himself to the authorities at Cleveland, Miss., saying that he was one of the assassins who shot Dr. W. N. Alsop, refuses to discuss the case further than to say that he had cause to kill the physician.

The cause of the shooting of Dr. Alsop dates back several years ago. Some years ago Dr. Alsop was conversing with an old man who conducted a grocery store near Shaw. The son of a rich old planter, with two companions, came into the store, and after a quarrel with the old man assaulted him. Dr. Alsop interfered and administered a severe chastising to the young planter. The latter left the store, swearing vengeance. Early next morning he called on the doctor and informed him that one of the two "would eat breakfast in hell." At this both drew their revolvers and opened fire. The shot fired by the doctor struck his antagonist and killed him instantly. At the trial which followed the physician was acquitted.

The young man's father said that he would yet be revenged, and yesterday's killing resulted.

Iglehart, secretary; Dr. Albert K. Hadel, register, and J. Appleton Wilson.

A LAND PIRATE IN SKIRTS.

Capture of a Highwayman Disguised as a Woman.

Louisville, Ky., July 14.—Residents of Crescent Hill section of Louisville, who have for two years been agitated over the existence of a mysterious "woman in back" were amazed yesterday to ascertain that this person was a man. Early this morning the woman in black held up Martin Schuffler as he was riding along on horseback. He cried for help and spurred his horse, getting away.

Persons who responded to his calls, captured the figure in the long black robe, who proved to be a man well-known to the police here until about two years ago.

Four Skeletons Unearthed.

Windsor, Ontario, July 14.—Workmen excavating a building at Church and Sandwich Streets yesterday unearthed four human skeletons, each enclosed in black walnut coffins of rude pattern. The government of Oldenburg has issued a similar order.

The tugboat Minerva, which was reported last night as having blown up on her way to Indian Head with two barges in tow, arrived at this port this morning at 11 o'clock. The tug, instead of landing at Indian Head yesterday afternoon, proceeded to Occoquan. When she failed to return to Alexandria last night, enquiry was made by telephone at Indian Head, and the operator there reported that the tug had not reached its destination. This fact, doubtless, gave rise to the rumor that the tug had been lost.

In the Corporation Court today a decree was entered in the suit of Worth Hullish, administrator of D. A. Windsor, against Richard S. Windsor, empowering the plaintiff to institute proceedings in the District of Columbia, and also to execute a mortgage on property at 1742 P Street northwest, Washington, for $5,000, with which to liquidate existing incumbrances on the property.

CONDEMNING AMERICAN IDEAS.

The Government's Policy Assailed by Germans at Canton, Ohio.

Canton, Ohio, July 14.—Canton Germans are out in a set of resolutions expressing themselves opposed to the policy of the Government in prosecuting the Philippine war. A translation of a resolution adopted at a mass meting of the German organizations of the convention Wednesday was forwarded to the President. Copies have also been ordered sent to Senators Hanna and Foraker and to every German society in Canton.

The resolutions say in part:

The German-Americans of Canton, Stark county, Ohio, here assembled, have, with exalted indignation, for the last twelve months followed the unjust attacks of the so-called yellow press against Germany and against the German-Americans, as well as the attempts made to entice our country into a treaty with England. We urge the wise council at Washington not to form alliances with England or any other nation, the result of which would entangle the country with useless wars. We condemn the Philippine war, and declare it a disgrace to our adopted country to meddle with the rights of other nations. We declare ourselves to be true and loyal citizens of this Republic, whose true interest and welfare we are always ready to defend with word and deed. We shall endeavor with all lawful means to oppose at the elections all those who will continue the miserable slanders and unwise alliance.

Cervera's Cabin Boy Enlists.

Pedro Orizar, fourteen years of age, who was a cabin boy and bugler on the Vizcaya, Admiral Cervera's flagship, is disgusted with Spain, and has entered the service of Uncle Sam. He applied at the navy yard in New York to enlist in the United States Navy and was accepted. He will be sent to the training school at Newport. The Spanish bugler of the Vizcaya was accepted because he was qualified to enter the service of the United States Navy, and Heurich's beers are accepted because they are the best and most wholesome. From the analysis made by the chemist of the United States Agricultural Department and the investigation of the "American Journal of Health," one is convinced that no other beer is at an equal with this high-grade beer. If you want to know Heurich's order a case from the Arlington Bottling Company by phoning six-thirty-four.

A Discharged Volunteer and Former Yale Student in Custody.

Orange, N. J., July 14.—Fred Robinson, of Buffalo, who claims to have served during the late war in the Second Volunteer Engineer Corps, and to be a member of the class of '91 of Yale, was arrested here last night for begging. Robinson wore a canvas uniform and showed papers to prove his story of who he was. He went last night to the home of I. N. Burdick, in Highland Avenue, who was a corporal in the Astor Battery, and demanded money. It was given him, but later he returned and demanded more.

Corporal Burdick then had the man arrested. Robinson was arrested in East Orange two nights ago for the same offence, but was discharged on his promise to leave town.

APPROVED BY ENGLAND.

Transvaal Franchise Measures Acceptable to Great Britain.

London, July 14.—The "Central News" says that the London office of the "Standard" and "Diggers News" has received a cable despatch from Johannesburg under today's date saying that the British Government has cabled to the Government of the Transvaal approving the franchise proposals now before the Rand, but suggesting some minor alterations in the measure. Consequently the consideration of the bill has been deferred.

This, the despatch says, is claimed as a triumph by the peace party and Lord Salisbury is acclaimed as the vindicator of moderates.
