Did y' ever think of this?
If you want the best home
made pickles next winter, you ought to speak to your wif
about putting them up now. If your "better hale" is a far-
sighted lady she ought to speak to you nowo about putting in Coal Because now's the best time
for both-if you insist on both for both-if
being good.
But if you don't speak to her and she doesn't speak to you beto be without pickles for the pantry-and she's going to be
in too many pickles about the coal bin.
