Judge McAllister, in resigning his position as Associate Justice of the Illinois Supreme Court in order to accept the unanimous election of Judge of the Circuit Court of Cook County, has written a letter to Gov. Beveridge explaining his reasons for thus voluntarily taking a step downward in the scale of judicial eminence.

EFFECT OF SPECIE-PAYMENT.

Last week we published a letter of Mr. Jesse Cox, Jr., of this city, on the question of redeeming specie-payments. While approving much of the substance of the letter, we then suggested that some of the statements were untenable.

The trouble with us is that the demand for gold in the United States is comparatively so small that the supply is equally limited. Every dollar in gold we receive in excess of the small demand is shipped to other places where it is wanted more than here.

All that remains of Joseph Gurnow was yesterday committed to Mother Earth in the Catholic Cemetery at Mount. From the lapse of time—six years—since the man's spirit parted with the flesh, it is not to be supposed that much remained, but the friends of the deceased have shown their steadfastness, and the Canadian civil authorities have established a precedent.

An enterprising gamester in Washington conceived the brilliant idea of selling pools on the result of the race for the Speakership of the next Congress. The scheme was all right and projector successful, but nobody would buy.

In reply to a request by the State's Attorney for an opinion as to the constitutionality of the statute requiring judges of election to number each ballot, Judge Jameson, of the Superior Court, now presiding in the Criminal Court, has written a letter in which, after citing numerous authorities, he takes the ground that the statute is unconstitutional.

The Chicago produce markets were steadier yesterday, though not strong. Mess pork was quiet and easy, closing at \$19.00 seller the year, and \$19.20 for February.

What was more active and higher, closing at \$1.05 cash and \$1.04 for December. Corn was more active, but closed weak at 51c cash and 50 1/2c for November.

low the aggregate of our payments abroad. A remedy for this may be found in such a change of our tariff and revenue policy as would increase our manufactures; so that the latter could be exported.

The simultaneous action of the County Board and the Common Council last Monday on the Court-House building shows that public opinion has not yet lost all its force. The conviction evidently heamed upon the Commissioners and Aldermen that the people of Chicago would not tolerate a plain violation of the contract between the city and county.

AN EXTRAORDINARY SILENCE.

What ails the St. Louis papers? For weeks past the Government has been investigating and prosecuting frauds in the revenue in that city. A very generous proportion of the population of that city has been indicted, and a large number more are under surveillance.

While this arrangement will be the proper one to make, if the Aldermen and Commissioners are intelligent and honest enough to recognize it, any failure to agree upon it will not excuse a continuation of the work on the present basis of a house divided against itself.

THE ST. LOUIS WHISKY RING.

The opening speech of Assistant District Attorney Pedrick in the McDONALD case gives the best outline that has yet been presented of the operations of the Whisky Ring, so far as the implication of Government officials is concerned, and shows how bold and reckless all parties had become.

What is the meaning of all this? What has come over the spirit of the St. Louis newspapers? Their discussions of the Skuptehina, of the Herzegovinians, and of the operations of the Khan of Khokand, are able and eloquent; but why do we hear nothing of the operations of Cox, McAlister, and Cox Meaurio, and Cox Cannon, and possibly of still more?

find that they cannot be the beneficiaries to the extent which they had hoped. Mr. Hildreth is one of the disappointed. He hoped to be City Marshal, but the charter makes it an offense punishable with fine and imprisonment for an Alderman to take any other office during the term for which he is elected.

THE WIFE OF TWO HUSBANDS.

The Empress Eugenie, the match-maker of two hemispheres, persuaded Countess Valentin de Cisternay, beautiful, good, and rich, to marry the Prince de Beauvremont, handsome, bad, and poor.

Her position in France is unique. She is liable to prosecution for bigamy, and can be, it is said, extradited from any other civilized country to which she may flee.

THE WARD WILL CASE.

Eden D. Ward, when 12 years old, was a cabin-boy on a lake schooner; at 23, he was a Captain; at 38, a citizen of Detroit, with a fortune of \$250,000; at 63, an apple-pie capitalist with liabilities of \$1,000,000 and resources of \$5,000,000.

The history of the ruin that brought about the suspension a few days since of the National Gold and Trust Company, of San Francisco, is significant as illustrating how easily a panic is excited.

The complete official returns of the November election show that the Democratic party polled 12,214 votes.

in none other, and that the Young Men's Christian Association of Washington, reduced to the alternative of returning to the negro depositors the \$23,000 or of doing them out of it on a spaf-forging plan, deliberately chose the latter.

The National Association organized to secure the adoption of an amendment to the Constitution of the United States which shall recognize Christianity as the corner-stone of our political institutions held its annual meeting at Philadelphia on the 9th inst.
