ANointed of the Lord.

JERSEY DOGS WILL HAVE THEIR DAY AS WELL AS THOSE OF ANY OTHER STATE.

NEWARK DOG SHOW.

Turned a Sharp Corner.

Speaker on Chinese Question, Ex-
Threatened Herself from Flight
-Senator Jones and
The Campler.

In another case on the Pacific Coast, Senator Jones, the
Speaker, was threatened with
exile by the Chinese. He
retired to his hotel before
the Committee of the Whole
met in secret. He
remained there all night,
and finally left for the
Pacific Coast, where he
will continue his work.

Harnessing the Waves.

A Mechanism for Generating Power
From Ocean Waves.

This new mechanism has been
invented by an American
engineer, who has
recently published a
paper on the subject.

The device consists of a
series of large, flat, metal
plates, which are
attached to the
waves in the
ocean. As the
waves
move,
the plates
oscillate,
producing
electricity.

This electricity can then be
used to power various
machines, such as
water pumps or
lighthouses.

New Jersey Advertisements.

Hahne & Co.
