### MARYLAND TARIFF REFORMERS

LETTER FROM PRESIDENT CLEVELAND TO THE PUBLIC DEMONSTRATION. BALTIMORE, Md., July 15.—The conference of Maryland tariff reformers will hold three sessions to-day in the interests of tariff reform, and incidentally to boom Cleveland for the Democratic nomination. This latter they do not admit, as the organization is composed of a number of Democrats and Republicans. They are in line with Cleveland, however, on the subject of tariff reform, because he is the recognized leader of the idea.

A great many very influential men gathered together this morning to attend the public meeting. Alfred Pearce of Chestertown was made temporary president. After the credentials of the various organizations were found correct a letter from ex-President Cleveland was read, in which he said: "I am sorry that I have made such plans and engagements that it is impossible for me to accept your invitation. In common with all who are interested in the movement I am exceedingly gratified with the evidences constantly presented of activity and progress toward the reform of our tariff. It is my hope that the proposed convention will be full of encouragement to the friends of the cause."

### GOVERNOR HILL TAKES

### HE DECLARES THAT INDIANA IS OPPOSED TO THE FORCE BILL.

NEW YORK, July 15.—The World has the following special dispatch from Rochester, N. Y.: "Governor Hill passed through the city to-day (Monday) on his way from Waverly to Albany. A World correspondent met him at the station and asked: 'How would you find the people of Indiana disposed toward the Force bill on your recent visit?'"

"I am sorry that it finally repudiated the Governor," they thought. "They are so weary there that the people did not care to discuss politics."

"May I ask whether Mrs. Hendricks made the statement attributed to her that she would not forgive you if you let Mr. Cleveland beat you for the nomination?"

"It is the warm season with the newspaper boys, and it is difficult for them to fill up. There are so many reports about that it is useless to contradict any of them."

The Governor turned to interviewing on his own account asked about the population of Rochester.

He praised Rochester and its citizens. But seemed to depreciate the fact that this city is a Republican center. He asked about Mayor Carroll, who is the first mayor in twenty years who has enforced the Sunday liquor laws.

"Would not fair excise laws that could be enforced seven days in the week be the best infirmity to the people and the government," then he added: "I believe in laws that are good enough for every day in the week."

### CONGRESSMAN TAYLOR

ILLINOIS DEMOCRATS CRITICISE HIS DEFENSE OF THE FORCE BILL. CHICAGO, Ill., July 15.—Two Democratic nominations of candidates for Congress were made yesterday in this city. In the First district W. G. Ewing, United States District Attorney, was nominated, and in the Fourth General W. C. Newberry was named. The First district convention passed the following:

"We arraign the present Representative of this district in Congress, Abner Taylor, for his infamous, unchristian, and un-American conduct in his own district by declaring to Congress that the provisions of the Force Election bill were necessary to secure fair elections in this district."

"We denounce and arraign him before the people for his adherence to the principle of high and unjust taxation, and we arraign and condemn him because he has on all public occasions misrepresented the people of this district."

### AGAINST QUAYISM.

ANTI-DELAWARE REPUBLICANS WILL MAKE A VIGILANT FIGHT. PHILADELPHIA, July 15.—Plans for the Republican attack upon the Delaware ticket are now being formulated. Mr. Wharton Barlow said to a reporter yesterday:

"You ask me," queried Mr. Barlow, "whether I have received any letters from Republicans commending my step in coming out in support of Blair? In answer I will say that from all over the State letters have been pouring in from prominent Republicans stating that not only would they support Blair, but would use every honest endeavor to see that he was elected. There will be nothing short of a revolution in Pennsylvania politics in November. The Republican majority will divide away until nothing is left and the anti-Delaware majority be in its place. It will be but history repeating itself, when Foiger was snatched under his New York."

"I have received word from several exceptionally well known Republicans

telling me that they intend taking the stump this year in the interest of Pattison, but not at liberty to mention their names yet, as plans for the campaign have not yet been formulated."

"In a few days, probably a week, a conference of leading Republican politicians from the interior of the State will be held in my office, and a plan of campaign agreed upon. To each man will be assigned some particular district, and he will have sole charge of winning against Delaware in that section."

"Will you work in conjunction with the Democratic Committee?"

"No; that point we wish to make particularly apparent. We want to show that the Democratic State Committee and the Anti-Delaware Committee are totally distinct organizations. The only Mr. Pattison as Governor of Pennsylvania, of course, is the common objective point, but there will be no collusion of the Democratic and the Pattison-Republican forces."

"But why should you yield that fact in a particularly apparent?"

"For this reason, we want to show that the Democrats would have probably, no, surely, lost. The entrance of a Republican committee in the interests of the Democrats is our protest against Quayism, and we—The Republicans who will not be ruled—will elect Mr. Pattison. We draw no party line, and we are not to be trifled with. In the United States that in this State, at least, there are men who, in the interests of honest government, will rise superior to party politics, and elect the man of their own minds, in the best of the position. Mark my words: In November you will see nothing short of a revolution in Pennsylvania politics."

### THE TARIFF ISSUE.

UPON IT DEPENDS MR. BLAINE'S CONSTRUCTION WITH THE ADMINISTRATION.

NEW YORK, July 15.—Concluding a long speech from Washington, the World correspondent says: "The issue is evidently joined, and the question now lies with the friends of Mr. Blaine in the Senate and by the Tariff bill and demand its amendment and fullest consideration. That this is a duty is clearly the view of Mr. Blaine's friends, and was forcibly outlined to-day by that eminent authority on parliamentary law, Senator Carlisle."

"What the Democrats have gained by the taking up of the Tariff bill was this: they have given those Republicans who are at heart opposed to the Federal Election law a good excuse for rejecting its consideration, without having to array themselves against their party. For should a move now be made under the inspiration of a caucus to drop the Tariff bill temporarily and propose the passage of the Election bill, those Republican Senators who are adverse to it can very properly oppose such a policy on the ground that the tariff question is of paramount importance to the business interests of the country, and that being under consideration it would be unwise and impossible to drop it for a purely political measure."

Carlisle called the attention of his colleagues in the Senate to this view, and they one and all agree that the Tariff bill is now the forlorn hope of all Republicans Senators who will not take to the rear of Mr. Blaine and his ambitious political leaders."

Upon the outcome of this tariff issue, I am informed, depends the future of Mr. Blaine's connection with the Administration. He has suffered a dignity which no honorable and high-minded man can silently endure, but reasons of a personal character solely compel him now to remain in office unimpaired by the bill which has been exhausted. When he retires he will do so untrammelled by official etiquette and without restraint as to the manner in which he may use the facts he now holds for his own defense.

### ANOTHER BLAINE LETTER.

HE MAKES SOME PLAIN STATEMENTS ON HIS OWN ACCOUNT.

Senator Frye's mail yesterday afternoon contained a letter from Secretary Blaine, written at Bar Harbor, under date of Friday last. It says: "I have just received intelligence from the highest commercial authority in Havana, that American food, under the present tariff, would be sold at a price which totally excludes the American flour from the markets of Cuba and Porto Rico. Other articles of American growth are likewise taxed by Spain to such an extent that they are almost entirely excluded from the market."

"It would certainly be a very extraordinary policy on the part of the Government, just at this time, to open our market without charge or duty to the export of crops of sugar, coffee, and other products of Cuba and Porto Rico. The United States has a right to be satisfied with the sugar which it consumes, and we are far from regarding them as a free market for this immense product of the Spanish plantations at the moment Spain is excluding the products of American farms from her market, or a policy so unrepresented as it would be unwise."

"Our trade with the American republics, as well as with the West India Islands, has been for years in a most unsatisfactory condition. The aggregate balance of trade with all Latin America is heavily against us. A single illustration will suffice. Brazil to the extent of \$821,806,000, and have sold to her only \$158,133,000 of our own products. The difference, \$663,673,000, we have paid in gold, or equivalent, and Brazil has expended the vast sum in markets of Europe. You can readily see how different the result would have been if, in return for the coffee she exports, we had sold her as much of our own products as she has sold us of hers. We had secured the free admission of certain products of the United States to the Brazilian market. To repeat this error, with regard to the coffee she exports, will be as much as to establish reciprocity of trade with Latin America."

"The chance against the protective policy which has injured it most is that its benefits go wholly to the manufacturer and the capitalist, and not at all to the farmer. You and I well know that this is not true, but still it is the case. Therefore, the most liberal argument made by the free trader.

## MAGIC CHANGE.

### SURPLUS EATEN UP BY EXTRAVAGANT APPROPRIATIONS.

### A STARTLING FINANCIAL STATEMENT.

### Deficit for the Present Fiscal Year Put at \$43,000,000.

### EVEN IF THE RIVER AND HARBOR BILL

### Doesn't Pass It Will Amount to \$19,000,000.—The Force Bill Will Run It Up to \$33,000,000.

NEW YORK, July 15.—The World to-day has the following special from its Washington correspondent: The country is presented with a great reality for its consideration. The old story of the surplus from which to draw extravagant appropriations can no longer afford a theme for hopeful discussion by political economists. The patriot who is hungry and athirst for a subsidy may not point to an overflowing Treasury. The pension sharks cannot base their heavy demands on overplentiful money vaults. The surplus no longer exists. It has vanished to the four winds, so to speak, and the country knows it no longer.

### THE TARIFF BILL DENOUNCED.

### TWELVE THOUSAND BRITISH WORKMEN PROTEST AGAINST IT.

NEW YORK, July 15.—A special cablegram in to-day's World gives the following details of the mass meeting at Sheffield, England, last night: "A town meeting, presided over by the mayor, was held in Sheffield to-night for the purpose of discussing the proposed American tariff. The gathering took place in the open air and was attended by 12,000 workmen. Letters were read from the borough members approving the tariff. The Rev. John Mundella wrote that having accepted the chairmanship of the Parliamentary committee to consider the approaching expiration of the regular annual appropriations already passed and those pending, amounting to \$359,000,000. With the permanent appropriations, amounting to \$119,000,000, added, the appropriations for the fiscal year upon which the Government has just entered are swelled to \$469,000,000—a pretty sum in truth. ## ALMOND-EYED FRAUDS.

### A Sunday School Teacher Has Her Class of Children Arrested.

LOWELL, Mass., July 15.—Nearly all the Mongolians of this city have been devout members of the fold of the First Baptist Church of this city for quite a time. They have been baptized in the church, and a whole Sunday school class of pig-tailed lambs had been under instruction for the rest of the year, who had been convinced the other church members that she had the whole crew converted.

The Chinese gave long-ton concerts before the church people and told how much better they felt for being Christians and how sorry they were for their fellow-Celestials who played fan-tan and smoked opium. On the way to and from church they moved in a body and advertised their Christianity for all it was worth. For quite a while Miss Morris has been suspicious of her yellow converts, but she noticed that they were under the influence of the rest of the school. In her quiet way she did a little detective work, and she went out on Sunday night she put the police on her Bible class, the members of which were playing a quiet game of fan-tan and smoking opium.

One Chinaman jumped under a bunk and yelled: "Me no smoke opium; me no drink wine; me no play fan-tan." He was pulled in with the others, and in court last evening the Bible class was heavily fined, while Miss Morris stood by and aided the prosecution. One unexpected thing happened in the case. She was leaving court: "Oh, damn good to church, anyway." The lady nearly fainted at this ending to her religious hopes.

The celebrated English CRAIG family in their acrobatic feats, the Alpine skiers, the winners of the Alpine Cup, the wonderful male soprano from Milan, Italy, were applauded. Besides these the usual musical and minstrel entertainment was excellent. Cleveland did not get started until 10:30. The orchestra and the Colored Colossal Minstrels, have bills of equal merit.

THE LOW DOCKSTERS.—The Low Docksters of the Erie Dock Company are the only union of importers here. They possess \$50,000. Joseph B. Miller of Plainfield has ninety-seven shares and the two Docksters and William H. Fiske, the chief hotel robber, are supposed to have a general interest in business in Europe, the United States and Australia.

CHICAGO, July 15.—The excursion steamer Puritan, plying between this city and St. Joseph, encountered the full force of yesterday afternoon's storm, while in midlake. Lower Wright Exonerated.

NEW YORK, July 15.—The report of Frederick B. Condit, the referee appointed to testify to the disturbance resulting from the LEXINGTON BOOK EXCHANGE, showing that the book store was presented by the Court in General Term yesterday. The report entirely exonerates Mr. Wright, the referee, and shows that the disturbance never was so serious as it was made to appear by the report.

State Cases for Two Months.
