IN 16TH ANNUAL SESSION

District Sunday School Union Begins Its Convention.

HEARD REPORTS AND TALKS

First Congregational Church Was Crowded by Those Interested in the Work—Report of the Field Worker Submitted—Sessions Will Last Three Days.

The Sunday-school Union of the District of Columbia began its sixteenth annual convention at 7:30 last evening at the First Congregational Church, Tenth and G streets northwest.

The union is a power in the Sunday-school work of the District, though not claiming any authority or exercising any sort of supervision over the schools, nor, indeed, taking the initiative in the organization of any mission schools, feeling its field to be more particularly the elevation of the standard of teaching. To that end it has held conventions and normal institutes, and in many ways has labored to keep the work of the District schools abreast of the Sunday-schools of the whole world.

In this work it stands as the agent or representative of the International Sunday-school Association, which derives its powers from the body known as the Triennial Convention. This body, which held its eighth meeting in June in Boston, controls, through its two great committees, the executive and the lesson, the organized Sunday-school work of the United States and Canada.

The lesson committee, composed of representatives of fifteen evangelical denominations, selects the lessons of all the schools and has the work outlined two years in advance. The expenses of the international association are borne by the State and Territorial unions, among whom it is apportioned at the triennial convention. The District union is assessed $300 at present.

TO LAST THREE DAYS.

A program for this District convention, which will extend over three days, has been arranged. The exercises of last night were to some extent introductory to the work of the convention.

Mr. Pierson H. Bristow, who is the president of the local union, presided over the meeting, and Mr. Percy S. Foster directed the musical program.

The church was crowded with the delegates and interested visitors, every available inch of space being occupied. The exercises opened with the singing of "Coronation" by the entire audience, and other inspiring hymns selected from the program of the International Christian Endeavor Convention, held in this city last July, constituted the "praise service of the evening." An interpolation into the program as arranged was suggested by Mr. Percy S. Foster, in the quotation of passages from the scripture by persons in the audience of a character especially appropriate to the occasion.

After prayer by the Rev. Dr. S. H. Greene, the president's address was read by that officer. It was a short, succinct review of the year's work of the union, in which attention was called to the responsibility resting on the Washington Sunday-schools in that the shifting character of the population here gives a wider meaning and influence to work done here than in any other community.

The president referred to the excellent results that had followed the employment of Mr. Jerome F. Johnson as "field worker in the District," and mentioned among other events of the coming year in which the union was interested, the Christian convention to be held in the City of Mexico this winter, and the great international Congress of Religions in London next summer. He asked for the continuation of the "field worker," and suggested that a house-to-house visitation be made by a committee to be appointed by this convention, for the purpose of extending the scope of the Sunday schools of the District Union.

FIELD WORKER'S REPORT.

Mr. Jerome F. Johnson, the field worker of the organization, read his report which was an exhaustive resume of the union's work in the past and a forecast of its usefulness in the future. It was replete with interesting statistical information as to the condition of the union.

After Mr. Johnson's report was submitted, Mr. William Redin Woodard addressed the audience in behalf of the executive committee and asked for contributions to bear some part of the expense of the convention. A collection was taken and the audience responded generously to Mr. Woodard's appeal.

Rev. Dr. J. D. Burrell of the Marble Collegiate Church of New York city was then introduced and made the principal address of the evening. Dr. Burrell's wide reputation as a speaker of the greatest eloquence and power was sustained by his address of last night. Upon the subject, "The worker and his wage," he spoke for nearly an hour and held the rapt attention of his audience in every moment.

Rev. Dr. A. F. Schauffler followed Dr. Burrell in a very short but happy address, which he prefaced with an amusing personal anecdote suggested by his introduction. He was eminently practical in his suggestions to the delegates and teachers present as to the best methods of utilizing the ideas evolved during the convention. He asked all present to make notes of remarks of all speakers so as to compare results and systematize the work.

The singing of selections of Sunday school music and the benediction by Rev. Dr. Pitzer closed the evening's exercises. The convention will meet at 9:30 this morning to continue its program.

Arrival of Marblehead.

The cruiser Marblehead reached New York yesterday, having left Bermuda the 19th. She left Smyrna for home on October 19. The gunboat Machias has arrived at Ningpo.

HABITS.

Some Have Them and Others Are Not Without.

A man likes some hot drink for breakfast, and coffee suits his taste about as well as anything. It seems hard that so many should be denied coffee because it upsets their liver and disagrees with them in one way and another, still this condition does exist, and when a man finds it hurts him, he is generally sensible enough to leave it out of his bill of fare, for it is quite a bit pleasanter to feel well all day than to enjoy a drug two or three minutes and pay for it in aches and ails or sickness.

A new breakfast drink has come into use, difficult to tell from coffee, but made entirely of grains and which never produces any disagreeable results. It has the clean, pungent flavor so much enjoyed in coffee, but while coffee hurts the system Postum Cereal goes to work in downright good earnest to "make red blood."

It is composed only of the grains intended by nature for man's subsistence. These are skillfully blended and prepared in such a way as to produce a hot drink the facsimile of rich Mocha or Java coffee, but fattening and healthful. Stomach, liver and bowel troubles disappear when coffee and tea are left off and the food drink, Postum, taken in their place.

This toothsome drink goes about three times as far as coffee, and produces health and comfort where trouble formerly existed. It is made by the Postum Cereal Co. Limited, of Battle Creek, Mich. When a man or woman "feels mean" day after day or every few days, it can quite safely be charged to incorrect habits, and coffee and tea drinking are the real cause of more bodily disorder than any one knows. A habit is hard to get over, but when a delicious tasting article is offered which produces health instead of tearing it down, the change is easy to make. Prominent grocers say it exactly meets a want, and persons who have been kept from coffee on account of their health are now having all the enjoyment of coffee drinking and getting fat over it.

"Just as good" as Postum Cereal are words used to defraud the public.

Sold by W. H. Zeh, H. P. Beattie and Roy & Craig.

Our Forced Litigation Sale!

The clay suit we're selling just now for $5.00 is one of the best evidences of our sincerity in putting prices where they will clear our big litigation stock quickly—the stock which must be sold at once by order of the court to make cash settlement with heirs, for whom Mr. S. Friedlander was appointed trustee. The suit is made of genuine German Clay, heavy weight, with double-weight Italian lining and with satin corded seams. We used to sell this style and quality for $10.00. Now **$5.00**

A variety of other suits made of Plaid, Cheviot and Vicuna—goods which wear till you're tired of them if they're made up right. The Buffalo manufacturer knew how to make these suits up right—knew how to put the style, the fit and the wear into them—but he had to make them to sell at $15.00. We have cut the price right in half. We have in stock these $15.00 suits now—just when you need a little warmth and want a little style, and we sell them for **$7.50**

Now for a cheap overcoat, one that's cheap in price, but has all the warmth you need—one that's made in style without the stylish price—one that's made to wear well and to fit perfectly. Made of Kersey or Melton in blue or black—good Kersey and Melton, too, that will wear and look well while you're wearing it. This is the coat we used to think was very good value at $13.00—most merchants have to get that for it now. Our price **$6.50**

And still better ones, too, made of very finest All-wool Kersey or Melton—the best quality money can buy—made in just the right style—the right length—the right "hang." Just like a tailor-made coat in fact except in price—lined to the waist with satin—below the waist with all-wool clay—finely finished in all of the so-called "little things"—i. e., buttonholes, pockets and seams. Others' price $25.00. Our price **$10.00**

NEW YORK CLOTHING HOUSE, 311 Seventh St. N.W.

ALL LENT A HAND TO LABOR

Workingmen's Library Gives Its First Entertainment.

Excellent Program of Music and Recitations Followed by a Hop.

The first annual entertainment and hop in aid of the Workingmen's Library Association and Labor Bureau was given last evening at Typographical Temple and was in every way a pronounced success. The hall was crowded to standing room, so from a financial standpoint its success was very gratifying to all interested in the welfare of the Library Association.

For still another reason, however, the generous patronage received was gratifying and encouraging to those who have the best interests of the organization at heart. It was the second entertainment of the kind given in aid of the library, and the very large attendance was a double assurance of the increased public interest in the association.

Every labor organization in the city, but more especially those affiliated with the association, contributed its full quota to the success of the entertainment.

In this connection, however, the members of Musical Assembly, K. of L., who contributed so largely to the enjoyment of the evening are worthy of special mention. When the subject of furnishing music for the entertainment was submitted to that assembly the services of the whole body was offered by a rising vote. This was more than enough, so an orchestra of fifteen pieces was selected to represent the assembly last evening.

The entertainment, which was in two parts, was opened with a brief address by the Rev. Dr. Alexander Kent, who spoke of the great benefits to be derived from the library and also made an earnest appeal for its support by those most directly interested.

The other numbers were a recitation by Miss Rose C. Palmer; whistling by Miss C. M. Hurworth, song, "Love's Golden Dream," Miss Hattie Woodward; song, "Good-By," Misses Bessie Reid, Naomi Bogan, Messrs. William K. Hill and A. J. Burdine, and an interesting exhibition of mind reading by Mr. E. R. Magie and his eight-year-old daughter Hazel.

The accompanists were Mrs. Tom Owens and Miss Daisy Easterby.

After the literary and musical part of the program was concluded the hall was cleared of the chairs and the remainder of the evening devoted to dancing.

Between the regular numbers of the program there was fancy dancing. Those who contributed to this feature of the entertainment were the pupils of Miss Edith Luckett, Master Ralph Luckett, Nellie Lecain, and Miss Elna Harris.

The entertainment was in charge of the following committees: General management, Mrs. Jennie L. Munroe, Charles McIver, C. A. Maidens, Mrs. Joseph K. Potter, Mrs. W. H. G. Simmons; floor committee, Messrs. Joseph K. Potter, W. H. G. Simmons, E. Elliott and William A. Dakin.

SPAIN DOESN'T MIND.

That Delaware Flag Incident Will Pass Unnoticed.

The Spanish Legation is not likely to make any complaint to this government with reference to the action of the students at New Castle, Del., a few days ago, who destroyed a Spanish flag. There is no Spanish consul at New Castle and the incident, to that extent, was robbed of any official character.

Moreover, both the Spanish and American Governments have reached so perfect an understanding with reference to circumstances of this character that little, if any importance is attached to them. It was said at the State Department yesterday that if a Spanish flag displayed from a Spanish consulate or warship had been offered an indignity the attention of the State Department would be at once directed to the matter and a suitable apology demanded.

It is regarded as not unlikely that the "Jingo" press of Spain may attempt to magnify the incident but there is excellent authority for the statement that it will receive no official attention either at the hands of the American or Spanish authorities.

FORCE SCHOOL REOPENS.

It Has Been Fumigated and Pronounced Sanitary.

There were five new cases of diphtheria reported to the health office yesterday as occurring since Saturday, and also three cases of scarlet fever. Three recoveries from diphtheria and one from scarlet fever were noted.

It was announced from the health office that the Force School would reopen this morning, the process of disinfection having been completed.

ACCUSED OF WHEEL THEFT.

Sammy Keys Says the Loser's Son Helped Him Do It.

Samuel Keys, jr., seventeen years old, was arrested by Detectives Carter and Gallagher last night, charged with the larceny of a bicycle.

It is claimed that the boy stole a wheel from Mr. James O'Brien, No. 1024 North Capitol street, last September. Young Keys told the officers last night that O'Brien's son had stolen the wheel, and that he had assisted in disposing of it.

Solitary Confinement for a Doctor.

Philadelphia, Nov. 23.—Dr. T. Ogden Weatherly, who was convicted on Monday last of having caused the death of Mary A. Winward, aged eighteen years, by malpractice, was today sentenced by Judge Beitler in the court of oyer and terminer to five years' imprisonment at "separate and solitary confinement" in the Eastern penitentiary. He was also fined $500.

NEWS FROM ALEXANDRIA

Colored Lad Dying From Eating a Poisoned Meal.

It Is Believed to Have Been Prepared by His Sister for Her Lover.

Benjamin Quill, colored, the sixteen-year-old son of Rebecca Quill, has been in agony for the past twelve hours, from the effects, it is believed, of a dose of poison, and Lottie Quill, his sister, is locked up at police headquarters charged with being responsible for the condition of her brother.

The Quills live in a two-story shanty in the court bounded by Henry, Fayette, Queen and Princess streets. They occupy the lower floor, and Lottie Carter and Mary Rich live on the second floor. Willis Alsup has been a frequent visitor to the house and, it is stated, has divided his attentions between Lottie Carter and Lottie Quill. Yesterday morning Lottie became angry and declared that she would no longer submit to a division of the affections of Willis, and that she would "fix" him so that he would not care to see another woman.

Willis had been accustomed to eating at the Quill house, and the meal was prepared as usual yesterday morning by the Quill woman, after which she left the house. Willis became suspicious after hearing the remarks of the woman and did not partake of the meal, which, however, was later eaten by the woman's brother.

The boy shortly afterward left his home, but had not proceeded far when he fell unconscious on the street. He was picked up and taken to his home and an antidote administered. The police were not advised of the occurrence until late yesterday evening, when Officer Beach made the discovery and the matter was investigated by him and Officer Sherwood. Quill was still unconscious at a late hour last night.

Harry Candler, who was released from the county jail last week by Sheriff Palmer, returned to that institution yesterday. The sheriff was indignant at the facts, as published in The Times, and remarked that he knew his duty.

Samuel Lowry, white, and Eliza Jackson, colored, were fined $5 each, by the mayor yesterday, for indecent conduct.

Engineer Henderson and Motorman Hall, of the electric railway, who were seriously injured, are recovering.

The four-masted schooner John S. Ames has arrived here from Kennebec River with 1,400 tons of ice.

The price of bread has been advanced in this city from 4 cents to 5 cents a pound.

Capt. Samuel B. Davis will address the Sons of Confederate Veterans tonight.

Mrs. Margaret Dwyer, wife of Mr. Patrick Dwyer, died at her home on South Washington street, Sunday night.

Mr. Alfred C. Murtaugh was badly hurt yesterday while jumping from an electric train at the corner of King and Patrick streets.

Harry McDevitt, who escaped from the police station on Sunday, was recaptured in Alexandria county by Policeman Atkinson yesterday.

Rev. T. H. Rice and his sister will leave this morning for Atlanta.

The regular meeting of the city council will be held tonight.

ARMY DISCIPLINE GOOD.

Inspector General's Report Speaks Well of the Service.

The report of Gen. J. C. Breckinridge, Inspector General of the Army of the United States, made public yesterday, speaks highly of the Army as being in as good condition in respect to instruction, discipline, equipment and supplies, as ever before in its history.

Considerable attention, he says, has been given to minor tactics and training in the field, which under the present short service term have become more pressing.

He states his opinion that the growing improvement in the quality of the young men entering the Army has not abated in the least.

Much of the rest of the report consists of details not generally interesting, but he especially notices the advances made in cavalry drill.

The number of enlisted men who deserted during the year was 1,075, an average of 14.6 per post. The Pacific district has the least general average, 3.4 per cent, and the North Atlantic the greatest, 6.1 per cent. Of the three military posts having the largest number of desertions during the year, viz. Fort Warren, Mass., Fort Riley, Kans., and Fort Mason, Cal., it will be noted that the location of two of them is adjacent to large cities and the other one is in a thickly populated country.

The scope of both the theoretical and practical military instruction appears to have been more comprehensive than in any preceding year, and with promising efforts toward further improvement. In the cavalry instruction in individual horsemanship has received general attention. The course of equitation as prescribed in the cavalry drill regulations is being more thoroughly and more extensively applied than ever before. Wherever proper facilities exist this instruction has progressed systematically, with reasonable success. The good results are evidenced in the better horsemanship of the individual soldier, and improvement in the training of the cavalry horse.

The lyceums and non-commissioned officers' schools have been carried on in accordance with the regulations and orders. The orders of department commanders have been noticeably full, exacting, and detailed, and their personal interest and attention have greatly developed, systematized, and perfected both drill and practice, such as reconnoissance.

Street Department Transfers.

The Commissioners yesterday approved the recommendation of Supt. A. G. McKenzie of the street and alley cleaning department for the transfer to his office of George W. Mercer, as clerk, vice George Mellins, jr., deceased. Mr. Mercer was formerly employed under Supt. Stoutenburg at the Washington Asylum.

IT WAS MICHAEL STAHL.

Body of the Railroad Victim Has Been Identified.

The body of the man who was killed at Tacoma Park by a train on Saturday was identified at the morgue last night. He was Michael Stahl, seventy years old, and lived with his grandchildren at No. 909 Eighth street northeast.

Last night Mrs. William Wassun, the dead man's granddaughter, called at the morgue and identified the body. She said he had been away from home since Friday last. He had been in the habit of wandering away, and until yesterday they gave his disappearance no thought.

When he did not return, however, they started an investigation, and finally learned of the unknown body at the morgue. Mr. Stahl had lived in Washington fifty years.

BY GARBAGE SCOW FLEET

District Refuse Sent Down the River and Crematory Is Idle.

Citizens Preparing to Get Out an Injunction Against the Proposed Furnace in Square 63.

The District garbage is still being distributed by the use of scows to down-the-river sections, and the local situation, affecting the relations of Collector Warfield, the contractor and the owner of the South Washington plant, remains the same.

Mr. H. S. Brown, who represents the ownership of the plant, reiterates the statement that he would take out his plant before he would accept the terms offered by Mr. Warfield, but he intimated that he was not at all afraid of the threatened suit of ejectment.

Notwithstanding his confidence, it is said that the contractor will proceed to test the issue, and early developments are anticipated.

A report was in circulation yesterday afternoon that the citizens who are opposed to the construction of the Smith furnace in square 63 will apply within a few days for an injunction to stay proceedings until it can be shown whether or not under an old statute still in force a permanent injunction will lie against the establishment of such a plant within sixty feet of a dwelling.

It is understood that counsel have been retained in the case and that they are preparing the papers for presentation.

STRUCK BY A TANDEM.

Two Reckless Riders Seriously Injure Miss Cora Williams.

A serious bicycle collision occurred last evening about 6 o'clock at the corner of Fourteenth street and Rhode Island avenue, in which Miss Cora Williams was knocked from her wheel and rendered unconscious for over two hours.

The direct cause of the accident was the reckless riding of two men on a tandem. When they saw that Miss Williams was injured one of them jumped into the wagon of a passing acquaintance, while the other trundled the deboralized tandem down Rhode Island avenue.

Miss Williams was taken to Haffelfinger's drug store and Dr. Little, who was summoned, found that she had sustained a fearful bruise on the left side of the face. This, with the effects of the nervous shock, caused her to lie in an unconscious condition for nearly three hours, and it was with difficulty that she was finally restored to consciousness. She was removed to her home, No. 1015 Fourth street northwest.

All efforts to learn the names of the two reckless riders proved unsuccessful.

BEATEN BY THUGS.

Young Clarence Burger Held Up and Badly Injured.

Three unknown white men attempted to hold up Clarence Burger, of No. 508 Seventh street northeast, late Saturday night, as the young man was returning from work.

Burger, who is an employe at McLoyd's on G street northwest, is but seventeen years old.

About 11 o'clock he was passing on F street, between Sixth and Seventh streets northwest, when he was suddenly attacked by three men. They knocked off his hat, grabbed his lunch box, and attempted to go through his pockets. He resisted and managed to escape, but during the struggle his clothing was torn, his head cut and one of the thugs sunk his teeth in young Burger's right arm.

The ruffians departed empty-handed, and the affair was immediately reported at the Ninth precinct station. No arrests have yet been made, but the officers of the Ninth expect from clews they have to gather in the would-be highwaymen.

Zeigler Case Ended.

Sylvania, Ga., Nov. 23.—The jury in the case of Corrie Zeigler, after being out one hour and forty minutes, returned a verdict of not guilty. The verdict was not a surprise after Sol Zeigler was so promptly acquitted. This ends the celebrated Zeigler case.

ARMY ORDERS.

Second Lieut. Oren B. Meyer, Second Cavalry, is detailed as professor of military science and tactics at Austin College, Sherman, Tex., and will report for duty accordingly.

First Lieut. George O. Squier, Third Artillery, will proceed from Fort Monroe, Va., to New York city, via the works of Elmer G. Willyoung & Co., Philadelphia, and the Western Electrical Instrument Company, Newark, N. J., on business pertaining to the electrical department of the United States Artillery School.

Capt. R. Birnie, Ordnance Department, has been ordered to the works of the Bethlehem Iron Company on business pertaining to the manufacture of the five-inch rifles.

Major James W. Reilly, Ordnance Department, has been ordered to the Sandy Hook proving ground on business pertaining to the test of the ten-inch disappearing gun carriage.
