

and by the Lady Evelyn, a mail tender stationed at Father Point. They put out at once full steam ahead and rushed to the sinking giant's aid.

As the dawn came the government steamer Eureka and a coal steamer could be seen in the distance, but there was no trace of the Empress. The Eureka seemed to be the center of a fleet of lifeboats.

Wireless messages to Father Point declared 350 persons were saved by the Canadian government steamers which rushed to the rescue of the Empress.

It is believed that at least seventy besides the 350 on the government steamer were saved, either picked up from the water or taken from life rafts. The 350 survivors were landed at Rimouski by the Canadian government boats Lady Evelyn and Eureka, which raced to the rescue from here.

BOUND FOR LIVERPOOL.

Under command of Captain Kendall, who is a lieutenant of the British Royal Naval Reserve, the Empress of Ireland left Quebec at 4:20 p. m. yesterday for Liverpool.

The Empress of Ireland was built in 1906. She was a twin screw steamer, 548 feet long, with all modern equipment, including wireless and submarine signaling systems.

The steamer Storstad, Captain Anderson, is a vessel of 3,561 tons register, built for the coal trade, and is capable of carrying 7,000 tons dead weight. She has been engaged for some time carrying coal between Sydney, Quebec, and Montreal. She would have a crew of about forty-eight men. She was due to arrive in Quebec about noon today.

Reports from the London office of the Canadian Pacific railway say the Empress of Ireland carried 990 passengers, and a crew of 432 officers and men.

On board the Empress was a contingent of Salvation Army members bound for the international convention in London.

Last reports declare 420 had been rescued by the Evelyn, the Eureka, and the Tourke, the latter also a Canadian government steamer. This would indicate that 1,002 had perished.

FATHER POINT, Quebec, May 29.—With her bow badly smashed in where she collided with the Empress, the Storstad passed this point, bound up river, shortly after daylight. The collier wireless as she passed that she was taking survivors and bodies to port. Names of the dead or the number of those lost and saved were not given.

The Storstad's wireless read: "We are compelled to proceed slowly on account of damages sustained in the collision. The Empress of Ireland was so badly rammed that she sank in about nineteen minutes. A big hole was cut under her water line."

I. C. C. SEARCHLIGHT TURNED UPON B. & O.

Daniel S. Willard Questioned Concerning Millions Used to Acquire C. H. & D.

The searchlight which revealed the looting of the New Haven was turned on the Baltimore and Ohio today when the Interstate Commerce Commission began inquiry into the taking over of the Cincinnati, Hamilton and Dayton railroad by the Baltimore and Ohio. Daniel S. Willard, president of the Baltimore and Ohio, was the first witness to take the stand. Questioning by Louis D. Brandeis, special counsel of the Interstate Commerce Commission, brought out that the Baltimore and Ohio, in taking over the Cincinnati, Hamilton and Dayton from J. P. Morgan & Co. in 1905, obligated itself to guarantee \$24,000,000 bonds, bound itself to guarantee \$20,000,000 in December, 1912, and agreed to purchase 40,000 shares, 74,000 of which were held by Morgan, at whatever price should be decided by arbitration.

Annual Deficit Grows.
Up to May 27, 1914, the Baltimore and Ohio had advanced \$2,388,000 to the Cincinnati, Hamilton and Dayton on demand. In the face of this, the annual deficit of the Cincinnati, Hamilton and Dayton increased from \$73,000 in 1909 to \$2,630,000 for the ten months ending April 30, 1914.

William Jackson of equipment of the Cincinnati, Hamilton and Dayton was also brought out by the fact that it was necessary to spend \$1,000,000 a year for hiring equipment.

"As matters stand today," Willard in-

FILES PROTEST ON NEW TAX SYSTEM

First Formal Objection to Triennial Assessment Made by D. W. O'Donoghue.

The first formal protest against the legality of the triennial assessment of real estate in the District was made today to Assessor William P. Richards. It came from Daniel W. O'Donoghue, an attorney, who took exception to the rate at which his property had been assessed and contended that under the decision of the Court of Appeals in the Kalbus case, the board that made the assessment was not legally constituted. Mr. O'Donoghue entered an appeal from the increased rate of assessment on his property. Assessor Richards maintains that the work of the assessors cannot be successfully challenged. He states that anticipating the possibility of such a situation, he has gone to unusual pains to insure a working majority of assessors, irrespective of the presence of E. W. Oyster, and that as a consequence whether or not Mr. Oyster had a right to serve as a member of the Board of Assistant Assessors the board was qualified, according to law, to transact business.

Attorneys are prepared to cite many decisions in which it has been held that the presence upon a board of assessors of a single member who has not properly qualified invalidates the entire work of the board.

Another protest, written upon elegant paper with heavy black borders, stated that after years of taxing the petitioner wanted to ask if Mr. Rich-

Mellen Will Testify Again Next Wednesday

Charles S. Mellen will return to the witness stand Wednesday in the Interstate Commerce Commission's investigation of the New Haven to repeat testimony he gave at New Haven yesterday in the hearing for receivership of the Metropolitan Steamship Company. The first witnesses to take the stand when the probe is resumed Wednesday probably will be the examiners who are now investigating the New Haven books of J. P. Morgan & Co. They are expected to have ready a partial report by that time.

William H. Holmes, private secretary to Commissioner Sidons, will leave Washington on a vacation Monday. He is going to New Orleans for about three weeks. William F. Meyers, the assistant secretary to the Board of Commissioners, will perform the duties of his office.

CHASE SENTENCED TO PENITENTIARY

Former Secretary of Y. M. C. A. Must Serve Two and One-half Years, Says Gould.

Charles N. Chase, former business secretary of the Y. M. C. A. who pleaded guilty to a charge of embezzling \$10,000 from the association, was sentenced by Justice Gould today to serve two years and a half in the penitentiary.

Attorney John E. Laakey, counsel for the defendant, made a strong plea for leniency for his client, and urged that he be placed on probation. He said Chase had a position in New York city and was anxious to make amends for the wrong he had committed.

"I cannot conscientiously place this man on probation," declared Justice Gould. "I must impose a sentence as a safeguard to institutions of this kind, and also as a warning to persons holding similar positions."
