# Sabotage Reported on U.S. Cruiser Vincennes

### Britain Yields To Mussolini in Spanish Crisis

PARIS, Oct. 13 (I.N.S.).—Premier Camille Chautemps suddenly called an extraordinary meeting of the cabinet this afternoon-the second of this critical week. Indicating that some major move might be forthcoming, the premier also ordered the heads of the army, navy, and air force to be

Immediate reopening of the Pyrenees frontier to permit sympathizers to give aid to the Spanish loyalists is believed to be the most likely outcome, although no formal announcement is looked for before a third cabinet meeting tomorrow.

### Protest on Volunteers Delayed By KINGSBURY SMITH

LONDON, Oct. 13 (I.N.S.).—Drastic action against Italy for her continued refusal to withdraw Italian volunteers from Spain was deferred by the British cabinet today at a two-and-a-halfhour meeting.

Bowing to Premier Mussolini for

### Writer Tells Of Chinese Rout

By JOHN GOETTE Sopyright, 1937, by International News

JAPANESE ARMY ADVANCE France's demand for opening of HEADQUARTERS, PINGSHAN, her Pyrennes frontier to permit HOPEI, China, Oct. 13 (I.N.S.). China's defense of the northern front turned into a wild debacle today.

Pillaging and often killing fel- jected, however. low-countrymen as they go, the huge Chinese army of 200,000 is retreating in disorder to the south with such precipitation that the Japanese are hard put to keep up with their rear guard.

### RESISTANCE WEAK

Everything I have seen on the Pingshan front indicates Chinese resistance has been extremely slight since the last stand at the ancient walled city of Chaocho.

Japan's forces have advanced 175 miles in 30 days. Troops of General Count Juichi Terauchi are now across the Huto River on a wide front and less than 90 miles from the great Yellow River, the natural boundary line of north China.

Yet Japanese claims that 26,000 Chinese troops were slain below of the very fact that little Chinese 3 States Given resistance has been put up.

### RETREAT DISORDERLY

Paucity of the fighting is further shown by the fact that I saw no Japanese wounded being taken states was announced today by back to the rear in the two days the Social Security Board. The of my trip towards Shihchiachwang.

The Chinese army is in such disorder that the troops are failimpeding the Japanese advance \$325,367. along the Peiping-Hankow Railroad.

Cities are being plundered, and houses throughout the retreat area are being stripped of their woodwork, furniture, bedding, food, and cooking utensils.

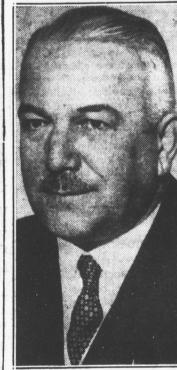

In many cases civilians who resist the fleeing army are shot. China's northern "Hindenburg line" north of the Huto River did

not last two days. (Other Details on Page 4)

### **Artist's Prince Handicap Winner**

NEWMARKET, England, Oct. 13 (I.N.S.) .- Artist's Prince, paying 13 to 1, won the historic Cambridgeshire Handicap today. Red Squaw at 25 to 1 was second and Twenty-six ran.

# **WILSON ERRORS**

Point Way in Peace Work, He Says

Full text of President Roosevelt's speech on Page 11.

By GEORGE DURNO

HYDE PARK, N. Y., Oct. 13 (I.N.S.) .- President Roosevelt today retired to Hyde Park for a week, after assuring the Nation he had been close enough to the Wilson Administration from 1913 to 1921 to profit by errors of those then conducting our international relationships. He emphasized that 'America hates war; America hopes for peace; therefore America actively engages in the search for peace."

In his "fireside chat" from Washington last night, the President carefully divided his address into sections—the latter part amplifying, and, in many respects conciliating the startling speech he made in Chicago last week warning of the possibility of war and pointing an accusing finger at Japan, Italy and Germany.

WILL JOIN IN PARLEY

Mr. Roosevelt emphasized that the United States was willing to attend a conference of the signatories to the nine power treaty of 1922 to solve the Sino-Japanese problem but he added "it is our purpose to co-operate with the other signatories to this treaty, including China and Japan."

China will be present at the conference table. Dispatches from Tokyo indicate Japan will not. Still hammering at the ominousness of the international situation, however, the President asserted:

"I want our great democracy to be wise enough to realize that aloofness from war is not prompted by unawareness of war. In a world of mutual suspicions, peace must be affirmatively reached for. It cannot just be wished for. It cannot just be waited for."

### TO SHUN MISTAKES

And then, Mr. Roosevelt reassured the public that mistakes of the Wilson Administration would not be his. "Remember." he admonished.

"that from 1913 to 1921, I was fairly close to world events, and in that period, while I learned much of what to do, I also learned what not to do." The President did not retreat

from his position as outlined at

# **BOARD TELLS**

Other Serious Cases Are Recalled

(I.N.S.) - Evidence of sabotage on the Navy's newest heavy cruiser, Vincennes, was reported today to the Navy high command by a board of investigation.

The board held its investigation after extensive damage was done to the reduction gears in the heavy cruiser while the warship was undergoing dock trials at

#### NOISES DEVELOP

While undergoing the trials, strange noises developed in one set of reduction gears. The gear box was opened, and a stray piece of metal which the board found could not have become detached from any portion of the interior was found to have stripped the gears.

The other three gear boxes were immediately opened and while two were found in perfect condition, in the third a file was found. This tool, the board found, was not of Navy issue.

In its finding, the board stated the foreign bodies were "possibly placed there by a person unknown. but that it could have been acci-

### BUILT BY BETHLEHEM

The Vincennes was built by the Bethlehem Shipouilding Corporation's Fore River (Mass.) plant. It was launched February 24, 1937, and is the newest of the Navy's heavy cruisers.

It was recalled at the Navy Department that the Vincennes' sister ship, the cruiser Quincy, also built at the Fore River plant, likewise had gear trouble under similar circumstances while on trial.

The Quincy was undergoing trials off Boston when its gears were stripped, and when the gear that a spanner wrench was in the gear box. Also while the Quincy was being built a fire of mysterious origin developed in the auxiliary aft engine room. This was in

### OTHER CASES RECALLED

Two other serious cases of sabotage have been discovered in American warships in the past few years, both occurring in the New York Navy Yard.

The cruiser Indianapolis, while undergoing overhaul, developed an electrical fire. The cables were replaced and on first inspection appeared in good shape, but on being put through a high voltage test under which the warship would have to function at high speed operations at sea, a serious short circuit occurred, and upon investigation the new cables were found to have phonograph needles and small nails embedded in

A similar occurrence to the Colorado in 1930 at the same yard caused a fire which resulted in damages of \$250,000 to the ship.
