

Dandruff Makes Hair Fall Out

A small bottle of "Danderine" keeps hair thick, strong, beautiful.

Girls! Try this! Doubles beauty of your hair in few moments.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle, and straggly. Just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy, and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance.

Get a small bottle of Knowlton's Danderine for a few cents at any drug store or toilet counter, and prove that your hair is so pretty and soft as any that it has been neglected or injured by careless treatment—that you surely can have beautiful hair and lots of it if you will just use a little Danderine—Advt.

British Tank Going "Over the Top" on West Front

Half way "over the top," this tank, one of the latest British types, is waiting the order to advance during the battle of Ninin road, one of the engagements of the great battle of Flanders. This remarkable photograph shows clearly the caterpillar tractors of the tank that carry it over trenches, shell holes, and the roughest of battlefield surfaces. While the monster tank rests on this earth rampart, the crew got out to get a breath of fresh air before hurling their machine against the German lines.

DR. MARY WALKER WRITES THE TIMES ON SNAKE STORY

Dr. Mary Walker sends to The Times an interesting Kansas story about a disjointed snake that collects itself. She also sends her comment on the yarn, drawing a parallel between the alleged powers of the reptile and the known abilities of mortals.

THE SNAKE STORY

LARNED, Kan., Oct. 19.—Enoch Chase had a peculiar experience while taking the logs out of the old dug-out on 3rd Hick's south eighty. He ran across a joint snake down between the logs and hit it with his spade. Of course every joint flew apart and started to wiggle off.

Enoch, just for a joke, picked up one of the joints and put it in a bucket and then slipped behind the logs and waited to see what would happen. In about ten minutes he heard a sort of low whistle and then a rustling. The head of the joint snake came out of the woods and looked around. It then made a peculiar whistle and another joint backed up and fastened on to the head.

The head whistled twice and joint No. 2 came out, and so on, so many whistles for each point, until it came time for the one Enoch had in the bucket. At its call the thing thrashed around in the bucket like all possessed, but couldn't get out. Of course, without the joint that fit, the snake couldn't get together.

Enoch said the last he saw of it the head had taken charge of one-half and the tail the rest and had gone off in different directions to hunt up the missing joint. Enoch got almost home with his joint when an automobile looted down the road. This either scared the joint or it was its coupling-on signal, for Enoch says it managed to flop out of the bucket and get away in the tall grass.

DR. WALKER'S COMMENT

There is a problem for thought, in the "disjointed snake, calling its parts together with a whistle." Can the "disjointed parts" hear the "whistles"? Have they reasoning faculties to understand what the "whistle" means? Have they eyes to see where to go? Have they independent power of locomotion? Are the brains of the "disjointed snake" scattered all through the length of the reptile?

It has always been a mystery how one who has lost a limb, feels the lost member's condition, and is wretched until it has been amputated and buried, so that it is not cramped or uncomfortable from any cause. But the "disjointed snake" seems to have more powers than have humans, since the "joints" have an intelligence not known to mortals.

SHOOTS GIRL, THEN KILLS HIMSELF IN HER APARTMENT

(Continued from First Page.)

in apartment 78, at the Astoria, for several months, only recently leaving them. Records of the Alonzo Bliss Properties Company show that Johnson rented the apartment about eight months ago.

Johnson was constantly quarreling with Mrs. Hinton, according to Miss Russell, when she stayed out late at night, which was necessitated by her position as check girl at the Lafayette Hotel. Previously Mrs. Hinton was employed at the Highlands apartments.

Miss Russell's testimony brought out the fact that Johnson had a sister, Mrs. Bradley, residing at 201 H street northwest.

"Mrs. Bradley," said Miss Russell, "did everything she could to turn Johnson against Mrs. Hinton and arouse his jealousy. I was with Mrs. Hinton only last night. I went up to help her with her work at the Lafayette. She appeared greatly worried, and I think she and Johnson had had a disagreement earlier in the day. This probably was the cause of this morning."

Mrs. Elizabeth Weinar, who conducted a boarding house at 201 C street northwest, stated that Mrs. Hinton had a room with her for four years. She said she always considered Mrs. Hinton as "a good girl."

Officer Penn, of the Sixth precinct, was the first to reach the scene of the shooting. He stated that about 7:10 o'clock this morning he was attracted by a woman gesticulating from the window of apartment 78, on the fifth floor of the Astoria.

Answering her call he found the Hinton woman lying with her face in a pool of blood in the hallway of the apartment, apparently in a dying condition. The door connecting the hall with Johnson's room was locked on the inside, and when forced by the officer, Johnson was found lying on the floor, his revolver near by.

Unshaken Testimony

This is the test of truth. And Doan's Kidney Pills have stood the test in Washington. No Washington resident who suffers backache, or annoying kidney and bladder ills can remain unconvinced by this twice-told testimony.

Mrs. B. V. Moran, 325 M Street, S. E., Washington, says: "I suffered constantly from a dull pain across the small of my back. I couldn't stand very long at a time before I had to sit down in order to ease the pain in my back. I felt tired all the time and was so nervous I could fly. My kidneys were weak and I was greatly bothered on that account. I couldn't sleep and when morning came I felt more tired than when I went to bed. After I had taken a box of Doan's Kidney Pills I began to feel more like myself again. My back was less painful and my kidneys acted normally." (Statement given July 30, 1914.)

NO TROUBLE SINCE.

On November 30, 1915, Mrs. Moran said: "My former statement indorsing Doan's Kidney Pills still holds good. I have had no occasion to use any kidney medicine since giving my indorsement and I consider myself cured."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Moran has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.—Advt.
