India paper makes the new Encyclopedia Britannica so light in weight that you can easily lift it and move it about—and there are 44,000,000 words, 30,000 pages, 15,000 illustrations and maps in it!

Only a few sets printed on genuine India paper are still unsold. Act at once if you hope to own one of these. They are the last that can be offered printed on this marvelous thin-and-tough paper.

ANYTHING that we might say as to the advantages of the Britannica printed on India paper could not be put stronger and more convincingly than is this paragraph:

By a Big City Merchant

"I bought the Britannica to read. I expect to get out of it daily many times more than I paid for it. I know what a wonderful book it is for anyone who uses it. India paper makes it so light, so convenient, so inviting, that one can’t fail to read it frequently. You say the Britannica printed on India paper is 'five times more valuable' than on ordinary book paper. I should say 'a hundred times more valuable.' This is based on my own experience.

"I owned a set of the old Britannica on heavy paper, but I didn’t read it in four times a year. It was too heavy; I never had much inclination to look up anything in those big, bulky books.

"I’ve had the new Britannica, printed on the delightful India paper, less than six months. I use it constantly, looking up whatever I want to know, sometimes reading as many as four and five articles a night."

This experience is repeated over and over in the case of owners of the new Britannica, for of the 100,000 sets already sold, more than 15,000 were India paper sets. The use of this wonderful India paper for printing the world’s most interesting and most comprehensive book of knowledge was inspired by the thought that it would increase the handiness of the Britannica—hence, increase its real value to those who possess it.

The Britannica will do for you

The Britannica is the world's greatest book. It is a book that goes from one generation to another, and has done so from the day of its birth. It is a book that has grown with the growth of knowledge, and with the growth of the world. It is a book that has been read by millions of people, and has been owned by millions of people. It is a book that has been sold for many years, and is still sold today.

Very Bad Case of Itching Eczema Healed by Cuticura

Begin With Red Walleye. (5 oz. to Swallow.) Scrofus. Grunted Until Blisters Came. (After suffering eight months from a bad case of eczema, I started a course of treatment by using the Bitters, which I found to be a great relief. I soon saw that the inflammation was decreasing, and that the eczema was not so severe. I continued to take the Bitters for a month, and then stopped taking them. Since then I have been free from eczema, and my skin is healthy and smooth."
