A generous application of 20th Century to the springs and cracks, and around the mattress will absolutely kill every insect.

Clean out the drawers of your kitchen cabinet--sprinkle 20th Century in them--next day your cabinet will be rid of bugs.

WARNING!

Do not confuse 20th Century Insecticide with any other preparation on the market!

It is absolutely non-poisonous to humans, but fatal to all sorts of insects!

IT HAS NEVER BEEN KNOWN TO FAIL! ASK FOR IT BY NAME!

Rid your kitchen of waterbugs by sprinkling 20th Century around all pipe entrances and cracks.

Down between the tufts of upholstered furniture is a favorite breeding place of small insects--kill them all with 20th Century.
