"BIG TIM'S" BIG DAY. BIG BLAZE IN L. I. CITY.

Thousands Attend Outing of the Sullivan Club.

The annual outing of the Timothy D. Sullivan Association was held yesterday at Donnelly's Grove, at College Point, and another page was added to the history of the Bowery, with which the Tammany statesman is inseparably linked.

Nearly six thousand strong, the Sullivanites marched in the morning from the clubhouse, at No. 207 Bowery, over a circuitous route to the steamer Grand Republic at 3d street and East

The Sullivan outing is the great event of the year on the lower East Side, and every house along the line of march was decorated. Even from the windows of the most lowly tenement there waved flags in honor of the occasion. The Stars and Stripes predominated, but there were not a few of the green standard with the harp of the Emerald Islc, while the Italians decorated with the red, white and green of their native land. On all sides was the portrait of the standard bearer

of the association, "Big Tim" Sullivan. With several thousand men, women and children to cheer them on their way the Sullivan legion left the clubhouse early in the morning led by the 6sth Regiment band. The adherents of the Bowery chief wore white duck yachting caps and badges with a medallion bearing the well known features of "Big Tim."

There were five auxiliary bands, and the repertory of all seemed to be limited to "Waiting at the

At the head of the line was "Larry" Mulligan president of the association, resplendent in a red, white and blue sash that nearly covered entirely an equally brilliant expanse of shirt bosom. Larry was flanked on either side by the Sullivans, big and little. There was "Big" Tim, with his "never-come-off smile," Timothy P., Florrie, Dinney and Paddy, and a few more not of the same family,

Florrie Sullivan, who returned to this city a few days ago to be with the outing, declared in his frank way:
"Say, I'd rather be on the Bowery to-day than

have the Kaiser's graft."

The trip to College Point was uneventful, although it was with some difficulty that the eleven sergeants- at-arms kept apart "Sarsaparilla" Relily and "Eat 'Em Up" McManus, who entered into Blackwell's Island, which the Grand Republic passed on her trip to the outing grounds. insisted that he had the more intimate knowledge of the place.

When Donnelly's Grove was reached there was a rush for the dining hall that the doorkeepers were all too few to check. The men were fed in shifts of two thousand, and the way the food disappeared

looked as though some of the diners did not expect to eat again until "Big Tim's" Christmas dinner.

The day's programmed consisted of a series of athletic events and some real exciting boxing bouts, the talent being supplied from the club's membership. Then, too, there were other games that required less physical effort but more money. These games were played at tables. At one of them Coroner Peter P. Acritelli was heard to say:

"I raise!" to which Larry Mulligan replied, as he threw five cards on the table:

"Well, yer don't raise de dead."

It was the return home that was the more spectacular. The bands had added to their repetory "We Won't Get Home Till Morning," and the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were just in the mood to sing to the marchers were fill minuted from end to end with lanterns, fireworks and bonfires in honor of the returning hosts and the amous old thoroughfare was crowded with people the enthusiastically received their favorites.

"It was certainly the greatest ever," said Consessman Sullivan, as he tossed his white cap to crowd of boys to fight for, for what Bowery boy outlind fight for a cap that had been worn by Big Tim"?

These managers are the owners of the newly erected managers are the owners of the newly crected Astor Theatre, and it is in this playhouse that the work of the committee will begin. This betterment plan will include ideas of sanitation, lighting, model dressing rooms, and all other things that will contribute to the convenience and the comfort of members of the profession. If the plans work out to a proper conclusion, there will be introduced in all the important theatres of the country lecture courses for actors, rest rooms, exhibitions of pictures and casts and such other features as will give actors advantages for the acquiring of specialized information which could only be otherwise obtained at great expense of time and money. Among the members of the committee are Thomas R. Blicer, August Belmont, ir., Homer Folks, Thomas C. T. Crain and John S. Huyler. The secretary is Ernest Stagg Whiton.

COAL PRODUCTION GOES UP.

Output Was Forced to \$476,756,963 in An-

ticipation of a Strike. Washington, Sept. 10.—According to the report of Edward W. Parker, statistician of the United States Geological Survey, the production of coal in the United States in 1965 amounted to 392,919,341 short tons, having a value at the mines of \$476. 756,963, surpassing in both quantity and value all previous records in the history of the country, Compared with 1994 the output in 1995 exhibits an increase of 41.162,943 short tons, or over 11 per cent in quantity, and of \$32,385,942, or over 7 per cent in

Of the total production in 1905, 77,659,859 short tons were Pennsylvania anthracite, with a value at the Mines of \$141,879,999. The total production of bitumbrous coal and lignife was \$15,254,491 short tons valted at \$334,877,963. The production of anthracite coal in Pennsylvania in 1965 was 4,568,181 short tons more than that of 1994, while the increase in the production of bituminous coal and lignife was 35,-593,882 short tons. A portion of these increases in both anthracite and bituminous production is traced by Mr. Pariker to the efforts of operating companies to provide a supply of fuel in anticipation of a suspension of mining in April.

MOQUI INDIANS IN CIVIL WAR.

Washington, Sept. 10 .- A telegram from the superintendent of the Moqui Indian reservation in Ari-zona to the Commissioner of Indian Affairs indicates that there is an active state of civil war between two factions of Indians in Oreiba Village in that reservation. The Indians have long been divided on the question of supporting the government policies, and the message received to-day states that one of the parties has driven the other out of the village.

sumed—Estimated Loss \$300,000.

One of the most spectacular fires that have taken place in the vicinity of this city in some time oc-curred last night in Long Island City. The fire was the varnish factory of Pratt & Lambert, in Borden avenue, and extended to the window sash manufactory of Blanchard & Co. Several thousand feet of lumber, as well as four freight cars loaded with lumber, were also burned.

The East Side and a good portion of Brooklyn were lighted by the flames, which rose several hundred feet. There was also a dense smoke. Four alarms were sent in, and Chief Croker assumed command after the third alarm. The estimated loss was \$300,000, the factories being consumed. Incoming Long Island Railroad trains were blocked and passengers had to walk over two miles reach the station. The Long Island City terminal was crowded with prospective passengers, who could not get trains for several hours after the regular time. Lack of water allowed the fire to spread, and the firemen had hard work saving the gasworks of the railroad and the plant of the ionial Paper Bag Company, both adjoining.

During the fire a tank containing 2,500 gallons of turpentine exploded. Several smaller tanks of var-nish also exploded. No one was injured by the ex-

nish also exploded. No one was injured by the explosions.

Lieutenant James Bridges, of Engine Company 138, received serious injuries while on the way to the fire. While passing under the viaduct over Newtown Creek the engine was driven too far to one side and he was swept off. He received severe internal injuries and had several ribs fractured, and was taken to St. John's Hospital.

Fireboats ran into Newtown Creek and played upon the fire, and Standard Oil tugs from the yards of hat company adjoining threw streams upon the fire, but the nature of the oils on which the flames were feeding made the water almost useless. Then the resources of the fire fighters were concentrated upon the paper box factory, separated from the fire by a narrow street, and the flames being kept away from that the fire was finally conquered at about 9 o'clock, three nours after it started.

Several firemen were overcome by heat and smoke while fighting the flames, but recovered and went back to work.

ASTOR THEATRE OPENING POSTPONED.

Lessees Say Building Is Not Ready-First Performance Monday.

The opening of the new Astor Theatre by Wagen hals & Kemper has been postponed until next Monday evening. This is the outcome of a hot discussion which has been going on for some time, and which may lead to a big damage suit. The Longacre Square Theatre Company, builders of the theatre, contend that the house is all ready; Wagenhals & Kemper, the lessees, insist just as strongly that it is not.

In the mean time, it is said, the builders are liable for the expense Wagenhals & Kemper are under for their payroll and advertising, which has had to be paid during the last three weeks just as though the house were in full operation. builders evidently realize their position, because they are using every argument to force Wagenhals & Kemper to take possession on Wednesday night.

The Longacre Square Theatre Company, owners of the Astor Theatre, in September, 1905, leased the property to Wagenhals & Kemper, who agreed the property to Wagenhals & Kemper, who agreed to accept the house on formal tender any time after March 1, 1996. The other side contracted to complete the building in every detail for a performance not later than September 1, 1996.

After assurances that the theatre would be ready on time, the announcement was made that it would be opened on August 31. Before this date the lessors admitted that the house could not be ready, and Wagenhals & Kemper announced September 12 as the opening date. Now the lessees maintain that, with the incomplete condition of the electrical work, it will be impossible to present "A Midsummer Night's Dream," where artistic effects depend so largely upon the electric light equipment.

INVESTIGATE MURDER OF DRIVER.

Thomas Curran Held Without Bail on Charge of Homicide.

Ira G. Darrin, District Attorney of Queens County, and Police Captain Tracy and the de tectives attached to the 75th Precinct, in Long Island City, spent the greater part of yesterday investigating the murderous assault on Patrick Fields, of No. 125 Jackson avenue, who was found dying near his home on Sunday morning, and died several hours later in St. John's Hospital. Thomas Curran was charged yesterday with the crime and held without bail on a charge of homicide. The complaint was made by Detective McDonald. Thomas Matthews, a printer, of No. 21 Orchard street, was arrested and later released in \$100 bonds as a witness.

bonds as a witness.

It was on Matthews's information that Curran was arrested. Captain Tracy said that Matthews told him five days ago that Curran and Fields were enemies, and that Curran had threatened Fields. Both Fields and Curran were employed as drivers by the Degnon Construction Company.

When found Fields refused to tell who assaulted him. He admitted, however, when he learned that he was dying, that he had been attacked by a driver, the police say.

RARONDESS OUT OF POLITICS.

Trouble in East Side Socialistic and Political

The progress of socialism and labor politics on the East Side has been jolted by a state of intertion of Joseph Barondess, the candidate for Con gress on the Socialist ticket in the 9th District at

gress on the Socialist ticket in the 9th District at the last election, who for twenty years has been one of the chief labor leaders and organizers in New York, from both the Socialist party and the United Hebrew Trades. In an interview yesterday at his home, No. 165 East Broadway, Barondess declared that he was definitely out of socialist and labor politics, and severely censured the alleged boss rule and moral cowardice displayed by the socialist and labor leaders.

This action of Barondess has caused much excitement in radical circles on the East Side. The trouble came about through a paragraph in the Yiddish "Vorwärts," the socialist daily, edited by Abraham Cahan, the novelist, author of "The White Terror and the Red," which Barondess said was simed at him. He was accused, he said, of taking money from employers to settle strikes to the employers' advantage, an accusation which cut Barondess is to bring suit for damages in libel proceedings against the Vorwärts Publishing Association, publishers of "The Daily Vorwärts."

Barondess takes this step, and also resigns from the Socialist party and the Linted Hebrew Trades, because he says that the Socialist party and the labor unions, as such, when appealed to for justice by Barondess, upheld the "Vorwärts" and Abraham Cahan, not, says Barondess, through consideration of the merits of the dispute, but because the "Vorwärts" has such a large circulation and such strong influence among the Socialists

San Francisco, Sept. 10 .- As an aftermath to the recent strike on the United Railroads, a riot broke out to-night when the streetcar company started to march about two hundred strike breakers from the car barns at Turk and Fillmore streets to the ferry building.

Many shots were fired by the armed guards escorting the men, and a half-dozen persons are reported wounded. The strike breakers are guarded in the Ferry building by the police, and twelve men have been arrested. A large mob is in front of the Ferry building waiting for the police to bring out the prisoners.

NEGRO CLERGY PROTEST.

Displeased at Exhibition of Bushman in Monkey House.

The protest against the exhibition in the Bronx Zoological Garden in the monkey house of Oto Ben-go, the pygmy Bushman recently brought from Africa by Professo: Verner, came to a head yesterday when a deputation from the American Colored Baptist Ministers' Conference visited the park to protest to Director Hornaday against the further exhibition of the pygmy. The deputation consisted of the Rev. J. H. Gordon, superintendent of the Brooklyn Colored Orphan Asylum; the Rev. S. W. Timms, paster of the Brick Holy Trinity Baptist Church, of Brooklyn; the Rev. Dr. A. D. Chandler pastor of the New York Baptist Temple; the Rev Dr. W. H. Slater, pastor of the Shiloh-Baptist Church of New Rochelle, and the Rev. G. H. Simms, pastor of the Union Baptist Church, of Manhattan. The deputation did not succeed in seeing Mr. Hornaday, as he had gone home before it arrived, but Mr. Gordon, who acted as spokesman for the deputation, said:

for the deputation, said:

The placing of the boy in the cage with a monkey is an outrage. The Negro race in America has a hard enough time as it is, in getting away from the prejudice that it is closely related to the monkey, without having a member of the race placed on exhibition with a monkey.

If Profesor Verner found difficulty in disposing of the boy, why did he not apply to us? We would have seen that he was well cared for. Besides, this is a Christian country, and the exhibition evidently alms to be a demonstration of the Darwinian theory of evolution. The Darwinian theory is absolutely opposed to Christianity, and a public demonstration in its favor should not be permitted. Neither the Negro nor the white man is related to the monkey, and such an exhibition only desrades a human being's manhood.

If Mr. Hornaday refuses to put an end to the exhibition we shall appeal to Mayor McClellan, and if this does not prove effectual we shall hold a mass meeting of protest. The Rev. Dr. MacArthur, of Calvary Baptist Church, has advised us on this procedure.

Director Hornaday said later:

Director Hornaday said later:

The whole proceeding is ridiculous and unfortunate. If a meeting of protest is organized or we are compelled to remove the boy, it will only bring the Negro race into ridicule. Though a believer myself in the Darwinian theory, I had no idea of using the exhibition to enforce it. The boy is on exhibition simply because the public wishes to see him. He is well treated and happy. Similar exhibitions have been held, without protest, both in this country and in Europe, and I see no reason for the present excitement.

To say that the boy is placed in the cage to show his similarity to the monkey is nonsense. He is much more intelligent than many white men whom I have known. He had simply become a white elephant upon Dr. Verner's hands, and we took this method of relieving him. The exhibition shall certainly be continued, unless the directors of the park decide otherwise.

MARYLAND CHILD LABOR LAW TEST.

Nearly 10 Per Cent of Young Workers Physically or Mentally Weak.

Baltimore, Sept. 10 .- The Child Labor law, regulating the employment of children, which was passed at the last session of the Maryland Legisature, has been in effect one week, and some interesting facts have been brought to light.

The number of child laborers under sixteen years old in the state, according to the estimates made by the officials of the Bureau of Statistics from the data at hand, is considerably over ten thousand. More than fifty-seven hundred certificates entitling the children to work have been issued, and nearly six hundred children have failed to receive certificates because of physical or mental deficiencies. The figures show that about le per cent of the child workers of the state are either illiterate or physically deficient.

The law prohibits children under twelve years of age from working, and requires that all child workers between twelve and sixteen years of age register at the office of the Bureau of Statistics to obtain certificates enabling them to work. It empowers the examiners to refuse this permission in case they are physically or mentally unfit to work. old in the state, according to the estimates made

It is learned from official sources that these shares were bought in the open market from time to time during the fiscal year which ended June 30. No further purchases have been made since the balance sheet was made up at the send of the fiscal year. and of the fiscal year.

It is stated that the stock was bought partly as an investment of funds, and partly because it was considered desirable for other reasons to have some of the stock. It is reported in Wall Street that the St. Paul also has recently acquired a block of Union Pacific preferred.
