

WILSON POURS SHOT INTO TARIFF LOBBY

Declares the Public Should Know of Its Efforts to Mislead the Lawmakers.

HAS MONEY WITHOUT LIMIT

President Thinks It of Serious Interest that the People Should Be Voiceless in These Matters.

Washington, May 26.—Hot shot was fired at the tariff lobby in Washington by the President in a formal statement issued today.

President Wilson's statement was inspired by an inquiry about the progress of the tariff bill. He asserted that he could not throw a brick without hitting a lobbyist.

INFINITE AS TO DETAILS

"I think that the public ought to know the extraordinary exertions being made by the lobby in Washington to gain recognition for certain alterations of the tariff bill."

"The government in all its branches ought to be relieved from this intolerable burden and this constant interruption to the calm progress of debate."

ON THE OTHER SIDE

President Wilson's denunciation of the lobby raised a question among Senators as to whether the lobby maintained in the interest of free sugar ought to be included among those that met with the disapproval of the Chief Executive.

"The most persistent lobby in Washington," said one progressive Republican Senator, "is that which is adding the Democrats in the fight to put sugar on the free list."

Republicans have pointed out in Congress the activities of the Federal Sugar Refining Company in the propaganda for free sugar.

COAL DECREE PRESENTED

Enforces Mandate Against Anthracite "Trust."

NO AMENDMENT ALLOWED

Cancels 65 Per Cent Contracts for Purchases from Independents.

Philadelphia, May 26.—A decree enforcing the decision of the United States Supreme Court cancelling the so-called 65 per cent contracts under which the anthracite coal carrying railroads purchase the product of independent coal companies was agreed to and filed in the United States District Court here today.

STAND PAT ON CONTRACTS

It was finally agreed to strike out of the decree the words "and from entering into any like agreements or arrangements" and letting the decree stand so that the contracts mentioned in the case shall be cancelled.

FURTHER ACTION IN PROSPECT

The decree presented today, in addition to cancelling the 65 per cent contracts except in four instances, amended the lower court's original decree so that the government's petition against the so-called minor combination of coal carrying railroads and coal mining companies

was dismissed without prejudice to future attack. This action, it is understood, pre-empted further action by the government against hard coal roads in connection with these so-called minor combinations.

Mr. Johnson explained that this would permit individual companies and railroads to enter into contracts so long as there was no combination in restraint of trade.

Mr. Johnson said, the decree would be water that the finding of the court.

Mr. Todd, answering Mr. Johnson, said there was nothing in the decree to permit the lower court to give an interpretation of language of the Supreme Court.
